

In addition, to complete this study it is necessary to conduct surveys of cattle, hog, and lamb producers, feeders, dealers, meat packers, meat processors, food wholesalers, food retailers, food service operations, and meat exporters. Participation in the surveys will be voluntary. Surveys will be mailed, with initial and follow-up contacts by telephone. The surveys will collect information on terms and frequency of use of alternative marketing arrangements; volume of livestock and meat transferred with alternative marketing arrangements, pricing methods for livestock and meat; reasons for using alternative marketing arrangements; and the effects of alternative marketing arrangements on costs and efficiencies, product quality, and risk shifting. The survey question will be targeted to the appropriate industry segment to reduce burden.

All data collection requests will include a pledge of confidentiality and the data will be collected exclusively for statistical purposes consistent with the provisions of the Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA). In addition, the transactions data collected from meat packers and processors (part 1) will be subject to the confidentiality restrictions in the P&S Act.

#### (1) Transaction Data

*Estimate of Burden:* The public reporting burden for this collection of information is estimated to average 40 hours per response.

*Respondents (Affected Public):* Meat packers, meat processors, food wholesalers, food retailers, food service operations, and meat exporters.

*Estimated Number of Respondents:* 400.

*Estimated Number of Responses per Respondent:* 1.

*Estimated Total Annual Burden on Respondents:* 16,000 hours.

*Total Costs:* Transactions data reporting \$435,072 for all establishments combined. Calculated as follows: (16,000 hours)  $\times$  (\$27.192 per hour) = \$435,072.

#### (2) Alternative Marketing Arrangements Survey

*Estimate of Burden:* The public reporting burden for this collection of information is estimated to average 60 minutes per response.

*Respondents (Affected Public):* Cattle, hog, and lamb producers, feeders, dealers, meat packers, meat processors, food wholesalers, food retailers, food service operations, and meat exporters.

*Estimated Number of Respondents:* 3,800.

*Estimated Number of Responses per Respondent:* 1.

*Estimated Total Annual Burden on Respondents:* 3,800 hours.

*Total Costs:* Survey reporting \$139,080 for all establishments combined. Calculated as follows: (3,800 hours)  $\times$  (\$36.60 per hour) = \$139,080.

Copies of this information collection assessment can be obtained from Tess Butler; see **ADDRESSES** section for contact information.

As required by the Paperwork Reduction Act (44 U.S.C. 3506(c)(2)(A)) and its implementing regulations (5 CFR 1320.8(d)(1)(i)), we specifically request comments on:

(a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden on the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

**Authority:** 44 U.S.C. 3506, 5 CFR 1320.8, and Pub. L. 108-7, 117 Stat. 22.

### Foreign-Trade Zones Board

[Docket No. 46-2003]

#### **Pepsi-Cola Manufacturing International, Ltd.—Subzone 61J, Cidra, Puerto Rico; Application for Expansion of Scope of Manufacturing Authority Amendment of Application**

Notice is hereby given that the application by the Puerto Rico Exports Development Corporation (68 FR 54888, 9-19-2003), grantee of FTZ 61, on behalf of Pepsi-Cola Manufacturing International, Ltd. (PCMIL), operator of FTZ 61J, requesting an expansion of the

scope of manufacturing authority to include additional finished products and manufacturing capacity under FTZ procedures at the PCMIL soft drink and juice beverage concentrate manufacturing plant, has been amended to alter the proposed scope of authority regarding the use of foreign-origin orange juice and grapefruit juice concentrates. As a result of consultations with interested parties within domestic industry, PCMIL has amended the proposed scope of authority regarding foreign ingredients by indicating that all foreign-origin orange juice and grapefruit juice (classified under HTSUS Heading 2009) to be used in the manufacture of juice beverage concentrate products under FTZ procedures would be admitted to Subzone 61J under privileged foreign status (19 CFR 146.41), thereby deleting inverted tariff savings on these products from the proposed FTZ benefits. The application remains otherwise unchanged.

A copy of the amended application will be available for public inspection at the Office of the Foreign-Trade Zones Board's Executive Secretary at the Franklin Court Building—Suite 4100W, 1099 14th Street, NW., Washington, DC 20005. The comment period is reopened until October 6, 2004.

Dated: September 2, 2004.

## DEPARTMENT OF COMMERCE

### International Trade Administration

[A-351-828]

#### **Certain Hot-Rolled Flat-Rolled Carbon-Quality Steel Products From Brazil; Final Results of the Expedited Sunset Review of Antidumping Duty Order**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of final results of expedited sunset reviews of antidumping duty order on certain hot-rolled flat-rolled carbon-quality steel products from Brazil.

**SUMMARY:** On May 3, 2004, the Department of Commerce ("the Department") initiated a sunset review of the antidumping duty order of certain hot-rolled flat-rolled carbon-quality steel products ("hot-rolled steel") from

Brazil.<sup>1</sup> On the basis of the notice of intent to participate, adequate substantive comments filed on behalf of the domestic interested parties, and inadequate response from respondent interested parties (in this case, no response), the Department conducted an expedited sunset review of the antidumping duty order pursuant to section 751(c)(3)(B) of the Act and section 351.218(e)(1)(ii)(B) of the Department's regulations. As a result of this sunset review, the Department determined that revocation of the antidumping duty order would likely lead to continuation or recurrence of dumping at the levels listed below in the section entitled "Final Results of Review".

**EFFECTIVE DATE:** September 9, 2004.

**FOR FURTHER INFORMATION CONTACT:** Martha V. Douthit, Office of Policy, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW., Washington DC, 20230; telephone: 202-482-5050.

**SUPPLEMENTARY INFORMATION:**

**Background**

On May 3, 2004, the Department initiated a sunset review of the antidumping duty order on hot-rolled steel products from Brazil in accordance with section 751(c) of the Tariff Act of 1930, as amended ("the Act"). See Notice of Initiation, 69 FR 24118 (May 3, 2004).

The Department received notices of intent to participate within the applicable deadline specified in section 351.218(d)(1)(i) of the Department's regulations on behalf of Nucor Corporation ("Nucor"), United States Steel Corporation ("U.S. Steel"), International Steel Group, Inc. ("ISG"), Gallatin Steel Company ("Gallatin"), IPSCO Steel Inc. ("IPSCO"), and Steel Dynamics, Inc. ("SDI") (collectively "domestic interested parties"). The domestic interested parties claimed interested-party status as U.S. producers of subject merchandise as defined by section 771(9)(C) of the Act.

The Department received complete substantive responses from the domestic interested parties within the 30-day deadline specified in the Department's regulations under § 351.218(d)(3)(i). However, the Department did not receive any responses from respondent interested parties to this proceeding. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department

conducted an expedited sunset review of this antidumping duty order.

This antidumping duty order remains in effect for manufacturers, producers, and exporters of hot-rolled steel from Brazil.

**Scope of the Order**

See Appendix 1.

**Analysis of Comments Received**

All issues raised in this sunset review are addressed in the Issues and Decision Memorandum ("Decision Memo") from Ronald K. Lorentzen, Acting Director, Office of Policy, Import Administration, to James J. Jochum, Assistant Secretary for Import Administration, dated August 31, 2004, which is hereby adopted by this notice. The issues discussed in the Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margin likely to prevail if the antidumping duty order were revoked. Parties can find a complete discussion of all issues raised in this sunset review and the corresponding recommendations in this public memo, which is on file in room B-099 of the main Commerce Building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>, under the heading "September 2004." The paper copy and electronic version of the Decision Memo are identical in content.

**Final Results of Review**

The Department determines that revocation of the antidumping duty order on hot-rolled steel from Brazil would likely lead to continuation or recurrence of dumping at the following weighted-average margins:

Manufacturers/producers/exporter's	Weighted-average margin (percent)
Compendia Siderurgica Nacional (CSN) .....	41.27
Usinas Siderurgicas De Minas Gerais (USIMINAS)/ .....	43.40
Companhia Siderurgica Paulista (COSIPA) .....	43.40
"All Others" .....	42.12

This notice also serves as the only reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is requested. Failure to comply

with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: August 31, 2004.

**Jeffrey A. May,**

*Acting Assistant Secretary for Import Administration.*

**Appendix 1—Scope of the Order: Certain Hot-Rolled Flat-Rolled Carbon-Quality Steel Products from Brazil**

For purposes of this order, the products covered are certain hot-rolled flat-rolled carbon-quality steel products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers) regardless of thickness, and in straight lengths, of a thickness less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this order. Specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as interstitial-free ("IF") steels, high strength low alloy ("HSLA") steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium and/or niobium added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum. Steel products to be included in the scope of this order, regardless of HTSUS definitions, are products in which: (1) Iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

1.80 percent of manganese, or 1.50 percent of silicon, or 1.00 percent of copper, or 0.50 percent of aluminum, or 1.25 percent of chromium, or 0.30 percent of cobalt, or 0.40 percent of lead, or 1.25 percent of nickel, or 0.30 percent of tungsten, or 0.012 percent of boron, or 0.10 percent of molybdenum, or 0.10 percent of niobium, or 0.41 percent of titanium, or 0.15 percent of vanadium, or 0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this order unless otherwise excluded. The following products, by way of example, are outside and/or specifically excluded from the scope of this order:

<sup>1</sup> See *Initiation of Five-Year ("Sunset") Reviews*, 69 FR 24118 (May 3, 2004) ("Notice of Initiation").

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including *e.g.*, ASTM specifications A543, A387, A514, A517, and A506).
- SAE/AISI grades of series 2300 and higher.
- Ball bearing steels, as defined in the HTSUS.
- Silico-manganese (as defined in the HTSUS) or silicon electrical steel with a silicon level exceeding 1.50 percent.
- ASTM specifications A710 and A736.
- USS Abrasion-resistant steels (USS AR 400, USS AR 500).
- Hot-rolled steel coil which meets the following chemical, physical and mechanical specifications:

## DEPARTMENT OF COMMERCE

### International Trade Administration

[A-821-809]

#### **Certain Hot-Rolled Flat-Rolled Carbon-Quality Steel Products From the Russian Federation; Final Results of the Expedited Sunset Review of Antidumping Duty Suspended Investigation**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of expedited sunset review of the suspended antidumping duty investigation of certain hot-rolled flat-rolled carbon-quality steel products from the Russian Federation; final results.

**SUMMARY:** On May 3, 2004, the Department of Commerce ("the Department") initiated a sunset review of the suspended antidumping duty

investigation of certain hot-rolled flat-rolled carbon-quality steel products ("hot-rolled steel") from the Russian Federation ("Russia").<sup>1</sup> On the basis of the notice of intent to participate, adequate substantive comments filed on behalf of the domestic interested parties, and inadequate response from respondent interested parties, the Department conducted an expedited sunset review of the suspended antidumping duty investigation pursuant to section 751(c)(3)(B) of the Act and section 351.218(e)(1)(ii)(C) of the Department's regulations. As a result of this sunset review, the Department determined that termination of the suspended antidumping duty investigation would likely lead to continuation or recurrence of dumping at the levels listed below in the section entitled "Final Results of Review".

**EFFECTIVE DATE:** September 9, 2004.

**FOR FURTHER INFORMATION CONTACT:** Martha V. Douthit, Office of Policy, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW., Washington, DC 20230; telephone: 202-482-5050.

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

On May 3, 2004, the Department initiated a sunset review of the suspended antidumping duty investigation on hot-rolled steel products from Russia in accordance with section 751(c) of the Tariff Act of 1930, as amended ("the Act"). See Notice of Initiation, 69 FR 24118 (2004).

Section 351.218(d)(1)(i) of the Department's regulations provides domestic interested parties opportunity to file a Notice of Intent to Participate in a Sunset Review within 15 days of initiation of review. The Department received notices of intent to participate within the applicable deadline specified in § 351.218(d)(1)(i) of the Department's regulations on behalf of Nucor Corporation ("Nucor"), United States Steel Corporation ("U.S. Steel"), International Steel Group, Inc. ("ISG"), Gallatin Steel Company ("Gallatin"), IPSCO Steel Inc. ("IPSCO"), and Steel Dynamics, Inc. ("SDI"), and Ispat Inland Inc. and its division Ispat Inland Flat Products ("Ispat Inland") (collectively "domestic interested parties"). The domestic interested parties claimed interested-party status as producers of subject merchandise in the United States as defined by section 771(9)(C) of the Act.

<sup>1</sup> See *Initiation of Five-Year ("Sunset") Reviews*, 69 FR 24,118 (May 3, 2004) ("Notice of Initiation").

The Department's regulations at § 351.218(d)(3)(i) states that all interested parties participating in a sunset review must submit a complete substantive response to a Notice of Initiation within 30 days of initiation of the sunset review. On June 2, 2004, the Department received complete substantive responses from the domestic interested parties within the 30-day deadline specified in the Department's regulations under § 351.218(d)(3)(i). However, the Department did not receive any responses from respondent interested parties to this proceeding. As a result, pursuant to section 751(c)(3)(B) of the Act and § 351.218(e)(1)(ii)(C)(2) of the Department's regulations, the Department conducted an expedited 120-day, sunset review of this suspended antidumping duty investigation.

This suspended antidumping duty investigation remains in effect for Russian producers and exporters of subject merchandise.

#### **Scope of the Suspended Investigation**

See Appendix 1.

#### **Analysis of Comments Received**

All issues raised in this sunset review are addressed in the Issues and Decision Memorandum ("Decision Memo") from Ronald K. Lorentzen, Acting Director, Office of Policy, Import Administration, to James J. Jochum, Assistant Secretary for Import Administration, dated August 31, 2004, which is hereby adopted by this notice. The issues discussed in the Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margin likely to prevail if the suspended investigation were revoked. Parties can find a complete discussion of all issues raised in this sunset review and the corresponding recommendations in this public memo, which is on file in room B-099 of the main Commerce Building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>, under the heading "September 2004." The paper copy and electronic version of the Decision Memo are identical in content.

#### **Final Results of Review**

The Department determines that termination of the suspended antidumping duty investigation on hot-rolled steel from Russia would likely lead to continuation or recurrence of dumping at the following weighted-average margins:
