FOR FURTHER INFORMATION CONTACT:

Christine A. Sannerud, Ph.D., Chief, Drug and Chemical Evaluation Section, Drug Enforcement Administration, Washington, DC 20537, Telephone: (202) 307-7183.

SUPPLEMENTARY INFORMATION: Section 306 of the CSA (21 U.S.C. 826) requires that the Attorney General establish aggregate production quotas for each basic class of controlled substance listed in Schedules I and II. This responsibility has been delegated to the Administrator of the DEA by Section 0.100 of Title 28 of the Code of Federal Regulations. The Administrator in turn, has redelegated this function to the Deputy Administrator, pursuant to § 0.104 of Title 28 of the Code of Federal Regulations.

On December 15, 2003, DEA published a notice of established initial

2004 aggregate production quotas for certain controlled substances in Schedules I and II (68 FR 69720). This notice stipulated that the DEA would adjust the quotas in early 2004 as provided for in Part 1303 of Title 21 of the Code of Federal Regulations.

The proposed revised 2004 aggregate production quotas represent those quantities of controlled substances in Schedules I and II that may be produced in the United States in 2004 to provide adequate supplies of each substance for: the estimated medical, scientific, research and industrial needs of the United States; lawful export requirements; and the establishment and maintenance of reserve stocks. These quotas do not include imports of controlled substances for use in industrial processes.

The proposed revisions are based on a review of 2003 year-end inventories, 2003 disposition data submitted by quota applicants, estimates of the medical needs of the United States, product development, and other information available to the DEA.

Therefore, under the authority vested in the Attorney General by section 306 of the CSA of 1970 (21 U.S.C. 826), delegated to the Administrator of the DEA by § 0.100 of Title 28 of the Code of Federal Regulations, and redelegated to the Deputy Administrator pursuant to § 0.104 of Title 28 of the Code of Federal Regulations, the Deputy Administrator hereby proposes the following revised 2004 aggregate production quotas for the following controlled substances, expressed in grams of anhydrous acid or base:
