Initial Notice of Funds Availability Inviting Applications for the Implementation of an American Indian Targeted Credit Outreach Program

Announcement Type: Initial Notice of Funds Availability (NOFA) inviting applications from qualified organizations for Fiscal Year 2005 funding.

Catalog of Federal Domestic Assistance Number and Program: 10.443: Outreach and Assistance for Socially Disadvantaged Farmers and Ranchers.

SUMMARY: The Farm Service Agency (FSA) announces it is taking applications for a competitive cooperative agreement for Fiscal Year (FY) 2005 to initiate a credit outreach initiative targeted to American Indian farmers, ranchers, and youth residing primarily on Indian reservations within the contiguous 48 States. FSA requests proposals from eligible non-profit organizations, land grant institutions, and federally-recognized Indian tribal governments interested in a competitively-awarded cooperative agreement to create and implement a mechanism that will provide credit outreach and promotion, pre-loan education, one-on-one loan application preparation assistance, and other related services as proposed by the successful applicant that are specific to FSA's Agricultural Credit Programs.

This is a request for proposals for applications for the American Indian Targeted Credit Outreach Program (AITCOP) for FY 2005, subject to the availability of funds. FY 2004 funding for the AITCOP was \$1,599,951. This notice is being issued prior to passage of a final appropriations bill to allow applicants sufficient time to submit proposals, give the Agency maximum time to process applications and to permit the continuity of this program while minimizing the time a prior program is administered. A Notice of Funds Availability (NOFA) will be published announcing the funding level for FY 2005 once an appropriation has been enacted. The commitment of program funds will be made to an applicant from selected responses that have fulfilled the necessary requirements for obligation to the extent announced in the subsequent NOFA.

Proposals should demonstrate ways of ensuring that American Indians will (1) Be provided a targeted promotional campaign about, (2) have ready access to, (3) be educated about, and (4) be able to obtain one-on-one assistance specific to the various FSA Agricultural Credit Programs. Applicants must also demonstrate and provide evidence of their ability to record and track program-specific data that can be accessed on a real-time basis and be available online through the Internet. In addition, the successful applicant must provide evidence that it has in place, or demonstrated the capability to put in place, a data-tracking system that thoroughly records all credit outreach-specific related activities and has the ability to provide detailed statistical information on an ad hoc basis. The database must also be built using software that is functional on a real-time basis as well as being available online

through the Internet. Additionally, the applicant must demonstrate its ability to deliver these credit outreach services utilizing the FSA Online Business Plan software program upon acceptance of any financial award.

DATES: Applications should be completed and submitted as soon as possible, and must be received by the Agency no later than 5 p.m. eastern time, October 18, 2004.

SUPPLEMENTARY INFORMATION:

I. Paperwork Reduction Act

This notice does not involve a collection of information as defined by section 1320.3(c) of 5 CFR part 1320 because it will not involve the collection of information from 10 or more persons.

II. Funding Opportunity Description

Background

Today, American Indians own and control approximately 56 million acres of agricultural lands held in trust by the United States Government and administered, for the most part, by the Bureau of Indian Affairs (BIA). Land-based agricultural enterprises are considered the primary source of revenue for most tribes, due in large part to their severe isolation from any urban type industrial development activities. Thus, protecting this resource is an important function of the elected tribal officials charged with operating business activities that take place within reservations.

With this in mind, American Indian agribusinesses, as well as individual Indians have consistently reported that the primary need in Indian agriculture was access to the capital required to own and operate their own farms or ranches. Therefore, FSA has undertaken this initiative to create and implement a mechanism that will provide credit outreach and other related services related to FSA's Agricultural Credit Programs as a way to resolve some of the credit needs of Indian agriculture.

All responsive proposals will be reviewed by a panel of career National Office FSA and/or USDA Agency employees chosen to provide maximum expertise and objective judgment in the evaluation of proposals. The panel will review applications using the evaluation criteria stated above for eligibility, completeness, and responsiveness to this NOFA. Incomplete or non-

Successfully evaluated proposals will be ranked by the FSA Outreach Staff based on merit. Final approval of those proposals will be made by the Administrator of FSA.

When the reviewers have completed their individual evaluations, the panel reviewers, based on the individual reviews, will make recommendations to the Administrator. Prior to award, the Administrator reserves the right to negotiate with an applicant or applicants whose projects are recommended for funding regarding project revisions (e.g., change in scope of work or the Agency's significant involvement), funding level, or period of support.
