## DEPARTMENT OF COMMERCE

### Foreign-Trade Zones Board

[Docket 45–2004]

#### Foreign-Trade Zone 208—New London, CT, Application for Subzone, (Pharmaceutical Products), Pfizer, Inc.

An application has been submitted to the Foreign-Trade Zones (FTZ) Board (the Board), by the New London Foreign Trade Zone Commission, grantee of FTZ 208, requesting special-purpose subzone status for the manufacturing facilities of Pfizer, Inc. (Pfizer), in the Groton, Connecticut, area, adjacent to the New London Customs port of entry. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on October 20, 2004.

Pfizer's Groton plant (57 acres) is located at 445 Eastern Point Road, Groton, New London County, Connecticut. The facility (approximately 400 employees) is used for the manufacture, processing, warehousing and distribution of pharmaceuticals, as well as for research and development activities. Pfizer will use zone procedures at the Groton plant to purify selamectin (HTSUS 2932.29.5050), a pharmaceutical ingredient used in the manufacture of the animal health care product Revolution (TM), a topical parasiticide for dogs and cats (HTSUS 3004.90.9103). The activity related to selamectin also involves the use of hydroxylamine (HTSUS 2928.00.5000). Selamectin is currently sourced from the United Kingdom, while hydroxylamine is sourced from Germany. The foreign-sourced chemicals will account for most of the material value of the finished product.

Zone procedures would exempt Pfizer from Customs duty payments on foreign input when used in production for export (some 33 percent of production). On domestic shipments, the processing of selamectin at the Groton plant would not affect the classification or duty rate of selamectin. The company plans to ship the product to another FTZ plant for final processing, at which time Pfizer would be able to choose the lower duty rate (duty free) that applies to the finished product, rather than the duty rates on the foreign-sourced inputs listed above. The duty rates on the foreign-sourced inputs range from 3.7 percent to 6.5 percent. The request indicates that the savings from utilizing FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at one of the following addresses:

1. *Submissions via Express/Package Delivery Services:* Foreign-Trade Zones Board, U.S. Department of Commerce, Franklin Court Building-Suite 4100W, 1099 14th Street, NW., Washington, DC 20005; or,

2. *Submissions via the U.S. Postal Service:* Foreign-Trade Zones Board, U.S. Department of Commerce, FCB–Suite 4100W, 1401 Constitution Avenue, NW., Washington, DC 20230.

The closing period for their receipt is [December 19, 2004]. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to [January 4, 2005]).

A copy of the application and accompanying exhibits will be available during this time for public inspection at the address Number 1 listed above, and at the City of New London's Office of Development & Planning, 111 Union Street, New London, CT 06320.

Dated: October 20, 2004.

**Dennis Puccinelli,**

*Executive Secretary.*

### International Trade Administration

[A–570–851]

#### Amended Final Results of Sixth Antidumping Duty New Shipper Review: Certain Preserved Mushrooms From the People's Republic of China

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of amended final results of sixth antidumping duty new shipper review.

**EFFECTIVE DATE:** October 26, 2004.

**FOR FURTHER INFORMATION CONTACT:**

Brian C. Smith or James Mathews, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482–1766 or (202) 482–2778, respectively.

#### Amendment to Final Results

In accordance with section 751(a) of the Tariff Act of 1930 (the “Act”), on September 9, 2004, the Department published the final results of the sixth antidumping duty new shipper review of the antidumping duty order on certain preserved mushrooms from the People's Republic of China (“PRC”), in which we determined that the sole respondent, Primera Harvest (Xiangfan) Co., Ltd. (“Primera Harvest”), sold subject merchandise to the United States at less than normal value during the period of review (69 FR 54635). On September 17, 2004, we received an allegation, timely filed pursuant to section 751(h) of the Act and 19 CFR 351.224(c)(2), from Primera Harvest that the Department made a ministerial error in its final results. The petitioner<sup>1</sup> did not comment on the alleged ministerial error.

After analyzing Primera Harvest's submission, we have determined, in accordance with section 751(h) of the Act and 19 CFR 351.224, that two ministerial errors were made in our final margin calculation for Primera Harvest. Specifically, we incorrectly applied the surrogate value for cans and lids in the calculation of Primera Harvest's factors

<sup>1</sup> The petitioner is the Coalition for Fair Preserved Mushroom Trade which includes the American Mushroom Institute and the following domestic companies: L.K. Bowman, Inc., Nottingham, PA; Modern Mushroom Farms, Inc., Toughkenamon, PA; Monterey Mushrooms, Inc., Watsonville, CA; Mount Laurel Canning Corp., Temple, PA; Mushrooms Canning Company, Kennett Square, PA; Southwood Farms, Hockessin, DE; Sunny Dell Foods, Inc., Oxford, PA; United Canning Corp., North Lima, OH.

of production-based normal value. In addition, we discovered during our analysis of Primera Harvest's September 17, 2004, ministerial error allegation that we inadvertently did not include in Primera Harvest's verification report a correction noted with respect to the respondent's reported can and lid weights. (See page 1 of verification exhibit 6A of Primera Harvest's verification report entitled Verification of the Response of Primera Harvest (Xiangfan) Co., Ltd. in the Sixth

Antidumping Duty New Shipper Review of Certain Preserved Mushrooms from the People's Republic of China.) Furthermore, we failed to account for this correction in our final margin program for Primera Harvest. Because this additional clerical error was not raised by the parties during the ministerial error comment period, on September 28, 2004, we provided parties with an opportunity to comment on it. No parties submitted comments on the additional clerical error noted

above. For a detailed discussion of the ministerial errors, as well as the Department's analysis, see the memorandum to Louis Apple from the Team, dated September 28, 2004.

Therefore, in accordance with section 751(h) of the Act and 19 CFR 351.224(e), we are amending the final results of the 2002–2003 antidumping duty new shipper review of the order on certain preserved mushrooms from the PRC. The revised dumping margin is as follows:

Exporter/manufacturer	Original final margin percentage	Revised final margin percentage
Primera Harvest (Xiangfan) Co., Ltd .....	82.22	67.79

We will notify U.S. Customs and Border Protection ("CBP") of the revised cash deposit rate for Primera Harvest.

### Scope of the Order

The products covered by the order are certain preserved mushrooms whether imported whole, sliced, diced, or as stems and pieces. The preserved mushrooms covered under the order are the species *Agaricus bisporus* and *Agaricus bitorquis*. "Preserved mushrooms" refer to mushrooms that have been prepared or preserved by cleaning, blanching, and sometimes slicing or cutting. These mushrooms are then packed and heated in containers including but not limited to cans or glass jars in a suitable liquid medium, including but not limited to water, brine, butter or butter sauce. Preserved mushrooms may be imported whole, sliced, diced, or as stems and pieces. Included within the scope of the order are "brined" mushrooms, which are presalted and packed in a heavy salt solution to provisionally preserve them for further processing.

Excluded from the scope of the order are the following: (1) All other species of mushroom, including straw mushrooms; (2) all fresh and chilled mushrooms, including "refrigerated" or "quick blanched mushrooms"; (3) dried mushrooms; (4) frozen mushrooms; and (5) "marinated," "acidified" or "pickled" mushrooms, which are prepared or preserved by means of vinegar or acetic acid, but may contain oil or other additives.<sup>2</sup>

The merchandise subject to the order is currently classifiable under subheadings 2003.10.0027, 2003.10.0031, 2003.10.0037, 2003.10.0043, 2003.10.0047, 2003.10.0053, and 0711.90.4000 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the order is dispositive.

These amended final results of this new shipper review and notice are in accordance with sections 751(h) and 777(i) of the Act and 19 CFR 351.224(e).

Dated: October 19, 2004.

#### Application for Duty-Free Entry of Scientific Instrument

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89–651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether an instrument of equivalent scientific value, for the purposes for which the instrument shown below is intended to be used, is being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S.

Mushrooms from the People's Republic of China," dated June 19, 2000.

Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

*Docket Number:* 04–019. *Applicant:* Texas A & M Research Foundation, 3578 TAMU—Dulie Bell Bldg., College Station, TX 77843–3578. *Instrument:* Scanning Hall Probe Microscope. *Manufacturer:* NanoMagnetics Instruments Ltd., United Kingdom.

*Intended Use:* The instrument is intended to be used to investigate:

1. The magnetic field properties of mesoscopically patterned thin films and nanostructured clusters of single magnet molecules for use as dense magnetic memories and in quantum computing.

2. The influence of periodic or randomly varying magnetic fields on the properties of thin films of superconductors, ordinary conductors, semiconductors and other magnetic materials at temperatures as low as 2 K.

3. The development of magnetic microstructures for diamagnetic levitation and manipulation of small particles and droplets.

The Instrument will also be used in courses on microscale magnetic field properties. Application accepted by Commissioner of Customs: October 7, 2004.
