DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before March 8, 2004.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection,

grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: December 30, 2003.

Jeanne Van Vlandren,

Acting Leader, Regulatory Information Management Group, Office of the Chief Information Officer.

Type of Review: New.

Title: Early Reading First National Evaluation-Enrollment and Consent.

Frequency: One time.

Affected Public: Individuals or household; businesses or other for-profit; not-for-profit institutions; State, local, or tribal gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden: Responses: 765. Burden Hours: 191.

Abstract: The purpose of the national evaluation is to determine the overall impact of Early Reading First (ERF) programs, including whether participants improve their skills in oral language, phonological awareness, print awareness, and alphabet knowledge compared to non-participants. The evaluation is also designed to address whether program participants improve their outcomes in areas other than language and literacy relative to nonparticipants, for which children ERF is most effective, and which program characteristics are associated with more optimal outcomes.

Office of Science Financial Assistance Program Notice DE-FG01-04ER04-08; Scientific Discovery Through Advanced Computing: Climate Change Prediction Program

AGENCY: U.S. Department of Energy.

ACTION: Notice inviting grant applications.

SUMMARY: The Office of Biological and Environmental Research (BER) of the Office of Science (SC), U.S. Department of Energy (DOE), hereby announces its interest in receiving applications for research grants in the Climate Change Prediction Program (CCPP), which is a component of the U.S. Climate Change Science Program (CCSP). Applications should describe research projects supporting the development of simulation models (computer programs) for prediction of climate decades to centuries in the future, and should clearly describe how that research will contribute to a measurably improved ability to use terascale computing to predict climatic change. All applications submitted in response to this notice must explicitly state how the proposed research will support accomplishment of the BER Climate Change Research Division's (CCRD's) Long Term Measure of Scientific Advancement to deliver improved data and models for policy makers to determine acceptable levels of greenhouse gases in the atmosphere.

DATES: Applicants are encouraged (but not required) to submit a 1-2 page preapplication for programmatic review. There is no deadline for the
