Based on a pay scale ranging from GS-05 to GS-15 and average completion time of 2.5 hours, the cost per respondent to provide the information averages \$34 per hour. The total estimated annual cost to respondents for this information collection is \$461,856.

*Estimated Cost to the Agency:* \$1.48 million over a 3-year period, which averages \$493,333 per year.

*Comments:* Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of
