Proposed Collection; Comment Request

AGENCY: DoD, Office of the Assistant Secretary of Defense for Health Affairs, TRICARE Management Activity.

ACTION: Notice.

SUMMARY: In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Department of Defense, Office of the Assistant Secretary of Defense for Health Affairs, TRICARE Management Activity announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performances of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by May 3, 2005.

ADDRESSES: Written comments should be submitted to: Office of the Assistant Secretary of Defense for Health Affairs, TRICARE Management Activity, Skyline Five, Suite 810, 5111 Leesburg Pike, Falls Church, VA 22041-3206.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the above address or call Capt. Deborah McKay, Office of the Assistant Secretary of Defense for Health Affairs, TRICARE Management Activity at (703) 681-0064.

Title and OMB Number: A Case Control Study to Identify Risk Factors Associated with Myocarditis or Pericarditis Among Smallpox Primary Vaccinees in the U.S. Military; OMB Number 0720-TBD.

Needs and Uses: Section 743 of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 authorized the Secretary of Defense to establish a center devoted to " * * * longitudinal study to evaluate data on the health conditions of members of the Armed Forces upon their return from deployment * * * " Based upon this

legislation, the Assistant Secretary of Defense for Health Affairs established the DoD Center for Deployment Health Research on September 30, 1999 (OSD/HA Policy #99-028). The Department of Defense shares with the President and Congress a firm commitment to improve the health of our veterans, their families, and all who serve our nation, now and in the future. The National Science and Technology Council (NSTC) Presidential Review Directive 5 (PRD-5), Planning for the Health Preparedness for and Readjustment of the Military, Veterans, and their Families after Future Deployments is an interagency plan which provides a comprehensive set of recommendations designed to help ensure this obligation is met in a manner that takes into consideration the successes and failures of past deployments. A key recommendation in this plan and necessity if we are to meet this commitment is treatment, research, and surveillance efforts aimed at minimizing adverse health effects that may be experienced during and after deployment.

In its ongoing response to this legislation, DoD plans to conduct a postal survey of current and past U.S. service members who received the smallpox vaccine under the DoD Smallpox Vaccination Program, which began on December 13, 2002. Subsequent to initiation of this program, a small percentage of service members developed either myocarditis or pericarditis following a primary smallpox vaccination. (Refs: Halsell JS, *et al.*, JAMA 2003;289:3283-9; Arness MK, *et al.*, AJE 2004;160:642-51). In response to these cases, the DoD established additional policies and guidelines: (1) Policy for Smallpox Vaccination and Persons with Cardiac Conditions (OSD/HA, Policy 03-002), and (2) Establishment of Case Management Guidelines for Smallpox Vaccine Associated Myopericarditis (OSD/HA, June 9, 2003). The survey will obtain risk factor information from identified myocarditis or pericarditis cases and a number of smallpox vaccinated but healthy controls. The objective of the study is to understand why a small percentage of smallpox-vaccinated service members develop myocarditis or pericarditis.

Affected Public: Individuals or households.

Annual Burden Hours: 200.

Number of Respondents: 400.

Responses per Respondent: 1.

Average Burden per Response: 30 minutes.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION:

Summary of Collection

The survey to be implemented is comprised of 44 questions that ascertain the health status of the respondent in a temporal sequence with respect to his or her smallpox vaccination. The questions utilized are either from previously standardized instruments, or developed by a team of epidemiologists and clinicians, including cardiologists. Question categories include: Identification (3 questions), Smallpox Vaccination Education (5 questions), Weight and Height (4 questions), Family-Related and Other Risks (4 questions), Diet and Nutrition (2 questions), Exercise and Physical Fitness (12 questions), Tobacco Use: Smoking (7 questions), Occupational Exposures (1 question), Foreign Deployments (2 questions), Other Illnesses (2 questions), and Other Vaccinations (2 questions).

Data Collection Method

Addresses for potential cases will be obtained from the DoD National Vaccine Healthcare Center Network (NVHC). The NVHC will send a letter to each potential case informing them of this study. We expect to enroll approximately 80 myocarditis or pericarditis cases, and will also enroll approximately 320 non-cases. The DoD Center for Deployment Health will conduct all postcard and questionnaire mailings. All targeted subjects will receive up to three questionnaire mailings as prescribed in Dillman's Tailored Design Method. A postcard alerting the target subject to the arrival of each questionnaire will precede the questionnaire mailing. Each postcard will serve to confirm correct addresses. For those post cards returned as undeliverable, addresses will be sought from military and civilian address sources. New controls will be randomly selected to replace those individuals untraceable after exhaustive address search.

Federal Acquisition Regulation; Submission for OMB Review; Delivery Schedules

AGENCIES: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for public comments regarding an extension to an existing OMB clearance.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning delivery schedules. A request for public comments was published at 69 FR 74505, December 14, 2004. No comments were received.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

DATES: Submit comments on or before April 4, 2005.

ADDRESSES: Submit comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the General Services Administration, FAR Secretariat (V), 1800 F Street, NW, Room 4035, Washington, DC 20405. Please cite OMB Control No. 9000-0043, Delivery Schedules, in all correspondence.
