

treat all violations of the requirements contained in 10 CFR 73.21, applicable to the handling and unauthorized disclosure of Safeguards Information, as serious breaches of adequate protection of the public health and safety and the common defense and security of the United States. Access to Safeguards Information is limited to those persons who have established the need-to-know the information, and are considered to be trustworthy and reliable. A need-to-know means a determination by a person having responsibility for protecting Safeguards Information that a proposed recipient's access to Safeguards Information is necessary in the performance of official, contractual, or duties of employment. Licensees and all other persons who obtain Safeguards Information must ensure that they develop, maintain and implement strict policies and procedures for the proper handling of Safeguards Information to prevent unauthorized disclosure, in accordance with the requirements in 10 CFR 73.21. NAC must ensure that all contractors whose employees may have access to Safeguards Information either adhere to the licensee's policies and procedures on Safeguards Information or develop, maintain and implement their own acceptable policies and procedures. NAC remains responsible for the conduct of their contractors. The policies and procedures necessary to ensure compliance with applicable requirements contained in 10 CFR 73.21 must address, at a minimum, the following: the general performance requirement that each person who produces, receives, or acquires Safeguards Information shall ensure that Safeguards Information is protected against unauthorized disclosure; protection of Safeguards Information at fixed sites, in use and in storage, and while in transit; correspondence containing Safeguards Information; access to Safeguards Information; preparation, marking, reproduction and destruction of documents; external transmission of documents; use of automatic data processing systems; and removal of the Safeguards Information category.

In order to provide assurance that NAC is implementing prudent measures to achieve a consistent level of protection, to prohibit the unauthorized disclosure of Safeguards Information, NAC shall implement the requirements identified in 10 CFR 73.21. The Commission recognizes that NAC may have already initiated many of the measures set forth in 10 CFR 73.21 to this Order for handling of Safeguards Information in conjunction with a

previous NRC Order. In addition, pursuant to 10 CFR 2.202, I find that in light of the common defense and security matters identified above, which warrant the issuance of this Order, the public health, safety and interest require that this Order be effective immediately.

III

Accordingly, pursuant to Sections 53, 57, 62, 63, 81, 161b, 161i, 161o, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202, and 10 CFR Part 71, *it is hereby ordered*, effective immediately, that NAC international, Inc., and all other persons who produce, receive, or acquire the safeguards information described above, and any related safeguards information, shall comply with the requirements of 10 CFR 73.21.

The Director, Office of Nuclear Materials Safety and Safeguards, may in writing, relax or rescind any of the above conditions upon demonstration by the licensee.

IV

In accordance with 10 CFR 2.202, NAC must, and any other person adversely affected by this Order may, submit an answer to this Order, and may request a hearing on this Order, within twenty (20) days of the date of this Order. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time in which to request a hearing must be made in writing to the Director, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and include a statement of good cause for the extension. Any request for a hearing shall be submitted to the Secretary, Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, ATTN: Rulemakings and Adjudications Staff, Washington, DC 20555. Copies also shall be sent to the Director, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, to the Assistant General Counsel for Materials Litigation and Enforcement at the same address, and to NAC if the hearing request is by a person other than NAC. Because of possible disruptions in delivery of mail to United States Government offices, it is requested that requests for hearing be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101 or by e-mail to hearingdocket@nrc.gov and also to the Office of the General Counsel either by means of facsimile transmission to 301-415-3725 or by e-

mail to OGCMailCenter@nrc.gov. If a person other than NAC requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.714(d).

If a hearing is requested by NAC or a person whose interest is adversely affected, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Order should be sustained.

Pursuant to 10 CFR 2.202(c)(2)(i), NAC may, in addition to demanding a hearing, at the time the answer is filed or sooner, move the presiding officer to set aside the immediate effectiveness of the Order on the ground that the Order, including the need for immediate effectiveness, is not based on adequate evidence but on mere suspicion, unfounded allegations, or error. In the absence of any request for hearing, or written approval of an extension of time in which to request a hearing, the provisions specified in Section III above shall be final twenty (20) days from the date of this Order without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions specified in Section III shall be final when the extension expires if a hearing request has not been received. *A request for hearing shall not stay the immediate effectiveness of this Order.*

Dated this 3rd day of March, 2005.

For the Nuclear Regulatory Commission.

Margaret V. Federline,

Deputy Director, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-1004 and 72-1027; EA-05-045]

In the Matter of Transnuclear, Inc., and All Other Persons Who Obtain Safeguards Information Described Herein

AGENCY: Nuclear Regulatory Commission.

ACTION: Issuance of order imposing requirements for the protection of certain safeguards information.

FOR FURTHER INFORMATION CONTACT: Cynthia Barr, Project Manager, Licensing and Inspection Directorate, Spent Fuel Project Office, Office of

Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Rockville, MD 20852. Telephone: (301) 415-4015; fax number: (301) 415-8555; e-mail CSB2@nrc.gov.

SUPPLEMENTARY INFORMATION:

I

In accordance with the Atomic Energy Act of 1954 and 10 CFR part 72, Transnuclear, Inc., (Transnuclear) holds Certificate of Compliance No. 1004 for the Model No. NUHOMS®-32PT storage cask and Certificate of Compliance No. 1027 for the Model No. TN-68 storage cask. In a phone call on January 27, 2005, Transnuclear agreed to meet with the U.S. Nuclear Regulatory Commission (NRC) staff with Safeguards Information security measures in place. The purpose of the meeting(s) is to discuss the NRC's engineering evaluations performed to evaluate the safety and security of an array of NUHOMS®-32PT and an array of TN-68 storage casks. The meeting(s) will be closed to the public.

Following the September 11, 2001, simultaneous terrorist events at the World Trade Center (WTC) in New York City and at the Pentagon in Virginia, the U.S. Government issued a nationwide alert for the potential of additional terrorist acts within the United States. The NRC initiated a comprehensive review of all NRC-licensed activities to evaluate those activities against threats. As part of that review, U.S. Nuclear Regulatory Commission initiated an engineering study to assess the consequences of a terrorist event, similar in magnitude to the WTC and Pentagon, on spent nuclear fuel transportation packages and storage casks. The NRC staff intends to discuss specific information on the engineering evaluations performed for the NUHOMS®-32PT and the TN-68 storage casks with Transnuclear. However, the Commission has determined that the material to be discussed at the meeting(s) is Safeguards Information, will not be released to the public, and must be protected from unauthorized disclosure. Therefore, the Commission is imposing the requirements, as set forth in 10 CFR 73.21, so that Transnuclear can receive this information for review and comment at the closed meeting. This Order also imposes requirements for the protection of Safeguards Information in the hands of any person,¹ whether or

not a Licensee of the Commission, who produces, receives, or acquires Safeguards Information.

II

The Commission has broad statutory authority to protect and prohibit the unauthorized disclosure of Safeguards Information. Section 147 of the Atomic Energy Act of 1954, as amended, grants the Commission explicit authority to "issue such orders, as necessary to prohibit the unauthorized disclosure of safeguards information * * *". This authority extends to information concerning special nuclear material, source material, and byproduct material, as well as production and utilization facilities. Licensees and all persons who produce, receive, or acquire Safeguards Information must ensure proper handling and protection of Safeguards Information to avoid unauthorized disclosure in accordance with the specific requirements for the protection of Safeguards Information as contained in 10 CFR 73.21. The Commission hereby provides notice that it intends to treat all violations of the requirements contained in 10 CFR 73.21, applicable to the handling and unauthorized disclosure of Safeguards Information, as serious breaches of adequate protection of the public health and safety and the common defense and security of the United States. Access to Safeguards Information is limited to those persons who have established the need-to-know the information, and are considered to be trustworthy and reliable. A need-to-know means a determination by a person having responsibility for protecting Safeguards Information that a proposed recipient's access to Safeguards Information is necessary in the performance of official, contractual, or duties of employment. Licensees and all other persons who obtain Safeguards Information must ensure that they develop, maintain and implement strict policies and procedures for the proper handling of Safeguards Information to prevent unauthorized disclosure, in accordance with the requirements in 10 CFR 73.21. Transnuclear must ensure that all contractors whose employees may have access to Safeguards Information either adhere to the licensee's policies and procedures on Safeguards Information or develop,

person with respect to those facilities of the Department specified in section 202 of the Energy Reorganization Act of 1974 (88 Stat. 1244), any State or any political subdivision of, or any political entity within a State, any foreign government or nation or any political subdivision of any such government or nation, or other entity; and (2) any legal successor, representative, agent, or agency of the foregoing.

maintain and implement their own acceptable policies and procedures. Transnuclear remains responsible for the conduct of their contractors. The policies and procedures necessary to ensure compliance with applicable requirements contained in 10 CFR 73.21 must address, at a minimum, the following: The general performance requirement that each person who produces, receives, or acquires Safeguards Information shall ensure that Safeguards Information is protected against unauthorized disclosure; protection of Safeguards Information at fixed sites, in use and in storage, and while in transit; correspondence containing Safeguards Information; access to Safeguards Information; preparation, marking, reproduction and destruction of documents; external transmission of documents; use of automatic data processing systems; and removal of the Safeguards Information category.

In order to provide assurance that Transnuclear is implementing prudent measures to achieve a consistent level of protection, to prohibit the unauthorized disclosure of Safeguards Information, Transnuclear shall implement the requirements identified in 10 CFR 73.21. The Commission recognizes that Transnuclear may have already initiated many of the measures set forth in 10 CFR 73.21 to this Order for handling of Safeguards Information in conjunction with a previous NRC Order. In addition, pursuant to 10 CFR 2.202, I find that in light of the common defense and security matters identified above, which warrant the issuance of this Order, the public health, safety and interest require that this Order be effective immediately.

III

Accordingly, pursuant to Sections 53, 57, 62, 63, 81, 161b, 161i, 161o, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202, and 10 CFR part 72, *it is hereby ordered*, effective immediately, that Transnuclear, Inc., and all other persons who produce, receive, or acquire the safeguards information described above, and any related safeguards information, shall comply with the requirements of 10 CFR 73.21.

The Director, Office of Nuclear Materials Safety and Safeguards, may in writing, relax or rescind any of the above conditions upon demonstration by the licensee.

IV

In accordance with 10 CFR 2.202, Transnuclear must, and any other person adversely affected by this Order

¹ Person means (1) any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, government agency other than the Commission or the Department, except that the Department shall be considered a

may, submit an answer to this Order, and may request a hearing on this Order, within twenty (20) days of the date of this Order. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time in which to request a hearing must be made in writing to the Director, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and include a statement of good cause for the extension. Any request for a hearing shall be submitted to the Secretary, Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, ATTN: Rulemakings and Adjudications Staff, Washington, DC 20555. Copies also shall be sent to the Director, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, to the Assistant General Counsel for Materials Litigation and Enforcement at the same address, and to Transnuclear if the hearing request is by a person other than Transnuclear. Because of possible disruptions in delivery of mail to United States Government offices, it is requested that requests for hearing be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101 or by e-mail to hearingdocket@nrc.gov and also to the Office of the General Counsel either by means of facsimile transmission to 301-415-3725 or by e-mail to OGCMailCenter@nrc.gov. If a person other than Transnuclear requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.714(d).

If a hearing is requested by Transnuclear or a person whose interest is adversely affected, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Order should be sustained.

Pursuant to 10 CFR 2.202(c)(2)(i), Transnuclear may, in addition to demanding a hearing, at the time the answer is filed or sooner, move the presiding officer to set aside the immediate effectiveness of the Order on the ground that the Order, including the need for immediate effectiveness, is not based on adequate evidence but on mere suspicion, unfounded allegations, or error. In the absence of any request for hearing, or written approval of an extension of time in which to request a hearing, the provisions specified in Section III above shall be final twenty

(20) days from the date of this Order without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions specified in Section III shall be final when the extension expires if a hearing request has not been received. A request for hearing shall not stay the immediate effectiveness of this Order.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Office of Nuclear Material Safety and Safeguards: Status of Decommissioning Program—2004 Annual Report; Notice of Availability

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT: John T. Buckley, Mail Stop: T-7E18, Decommissioning Directorate, Division of Waste Management and Environmental Protection, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Telephone: (301) 415-6607, and Internet: jtb@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Summary

The Nuclear Regulatory Commission's (NRC's) Office of Nuclear Material Safety and Safeguards (NMSS) is announcing the availability of NUREG-1814, "Status of Decommissioning Program—2004 Annual Report." This NUREG provides a comprehensive overview of the NRC's decommissioning program. Its purpose is to provide a stand-alone reference document which describes the decommissioning process and summarizes the current status of all decommissioning activities including the decommissioning of complex decommissioning sites, commercial reactors, research and test reactors, uranium mill tailings facilities; and fuel cycle facilities. In addition, this report discusses accomplishments in the decommissioning program since publication of the 2003 annual report (SECY-03-0161); and it identifies the key decommissioning program issues which the staff will address in fiscal year (FY) 2005.

II. Further Information

NUREG-1814 is available for inspection and copying for a fee at the Commission's Public Document Room, U.S. NRC's Headquarters Building, 11555 Rockville Pike (First Floor), Rockville, Maryland. The Public Document Room is open from 7:45 a.m. to 4:15 p.m., Monday through Friday, except on Federal holidays.

NUREG-1814 is also available for inspection at NRC's Public Electronic Reading Room at: <http://www.nrc.gov/NRC/ADAMS/index.html>. The ADAMS Accession No. for the NUREG is ML050480398. Copies of NUREG-1814 may be purchased from one of these two sources: (1) The Superintendent of Documents, U.S. Government Printing Office, Mail Stop: SSOP, Washington, DC 20402-0001; Internet: <http://bookstore.gpo.gov>; telephone: 202-512-1800; fax: 202-512-2250; or (2) The National Technical Information Service, Springfield, VA 22161-0002, Internet: <http://www.ntis.gov>; telephone 1-800-553-6847 or, locally, 703-605-6000.

Dated in Rockville, Maryland, this 4th day of March, 2005.

For the Nuclear Regulatory Commission.

Daniel M. Gillen,

Deputy Director, Decommissioning Directorate, Division of Waste Management and Environmental Protection, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

RAILROAD RETIREMENT BOARD

Proposed Data Collection; Comment Request

SUMMARY: In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board will publish periodic summaries of proposed data collections.

Comments Are Invited on: (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.
