Assistant Secretary for Fish and Wildlife and Parks, Department of the Interior.

Implementation of the Rocky Flats National Wildlife Refuge Act of 2001

I. Purpose, Authority, and Scope

A. Purpose

This Memorandum of Understanding (MOU) is entered into by the U.S. Department of Energy (DOE) and the U.S. Department of the Interior (Interior), hereinafter referred to as the Parties, regarding the Rocky Flats Environmental Technology Site (Rocky Flats), Colorado. This MOU describes how the Parties will cooperate in transferring administrative jurisdiction (the transfer) of certain lands within Rocky Flats from DOE to Interior and the transition of Rocky Flats from a former defense nuclear facility to the Rocky Flats National Wildlife Refuge (Refuge).

B. Authority

The authority for this MOU is section 3175 of the Rocky Flats National Wildlife Refuge Act of 2001, Public Law 107-107, sections 3171 to 3182 (Dec. 28, 2001) (the Act), 16 U.S.C. 668dd note.

C. Scope

The Act requires that the Parties carry out the transfer of administrative jurisdiction pursuant to an MOU that:

1. Provides for the division of responsibilities between the Secretary of Energy and the Secretary of the Interior necessary to carry out such transfer of lands that will become the Refuge;
2. Addresses the impacts that any property rights referred to in section 3179(a) of the Act may have on the management of the Refuge, and provide strategies for resolving or mitigating these impacts;

3. Identifies the land the administrative jurisdiction of which is to be transferred to the Secretary of the Interior; and

4. Specifies the allocation of the Federal costs incurred at the Refuge after the date of such transfer for any site investigations, response actions, and related activities for covered substances.

II. Background

A. The majority of the Rocky Flats site has generally remained undisturbed since its acquisition by the Federal Government.

B. The State of Colorado is experiencing increasing growth and development, especially in the metropolitan Denver Front Range area in the vicinity of the site. That growth and development reduces the amount of open space and thereby diminishes for many metropolitan Denver communities the vistas of the striking Front Range mountain backdrop.

C. The Act provides that after the cleanup and closure of Rocky Flats, it shall thereafter be retained by the United States and managed so as to preserve the value of the site for open space and wildlife habitat.

D. Rocky Flats provides habitat for many wildlife species, including a number of threatened and endangered species, and is marked by the presence of rare xeric tallgrass prairie plant communities. Establishing the site as a unit of the National Wildlife Refuge System will promote the preservation and enhancement of those resources for present and future generations.

E. The mission of the National Wildlife Refuge System is to administer a national network of lands and waters for the conservation, management, and, where appropriate, restoration of the fish, wildlife, and plant resources and their habitats within the United States for the benefit of present and future generations of Americans (16 U.S.C. at 68dd(a)(2)).

F. Section 3177 of the Act provides that the Refuge shall be managed for the purposes of: Restoring and preserving native ecosystems; providing habitat for, and population management of, native plants and migratory and resident wildlife; conserving threatened and endangered species (including species that are candidates for listing under the Endangered Species Act of 1973 (16 U.S.C. 11531 *et seq.*)); and providing opportunities for compatible scientific research. Management of the Refuge shall ensure that wildlife-dependent recreation and environmental education and interpretation are the priority public uses of the Refuge.
