V. Application Review Information

1. *Selection Criteria:* The selection criteria for this competition are from 34 CFR 75.210 and 34 CFR 389.30 and are in the application package.

2. *Review and Selection Process:* Additional factors we consider in selecting an application for an award are the past performance of the applicant in carrying out similar training activities under previously awarded grants, as indicated by factors such as compliance with grant conditions, soundness of programmatic and financial management practices, and attainment of established project objectives (34 CFR 385.33(b)).

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representatives and U.S. Senators and send you a Grant Award Notice. We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

4. *Performance Measures:* The Government Performance and Results Act (GPRA) of 1993 directs Federal departments and agencies to improve the effectiveness of their programs by engaging in strategic planning, setting outcome-related goals for programs, and measuring program results against those goals.

The goal of continuing education (CE) projects is to upgrade the skills of personnel currently employed in the public VR system, centers for independent living, client assistance

programs, and private rehabilitation agencies and facilities that cooperate with State vocational rehabilitation units in providing vocational rehabilitation and other rehabilitation services and to develop their mastery of new program developments dealing with significant issues, priorities, and legislative thrusts of the public rehabilitation program.

In order to measure the success of the project in meeting this goal, the CE grantee is required to conduct an evaluation of CE training activities. In annual performance reports, the CE project is required to provide specific information on the number of training activities, the topics of each training program, the number of participants served, the target groups represented by participants, and summary data from participant evaluations. This information allows the CE project to measure results against the needs assessment conducted by the project and against the goal of upgrading the skills of personnel currently employed in the public VR system, centers for independent living, client assistance programs, and private rehabilitation agencies and facilities that cooperate with State vocational rehabilitation units in providing vocational rehabilitation and other rehabilitation services and their mastery of new program developments, priorities, and legislative thrusts. The Rehabilitation Services Administration is in the process of developing a uniform data collection instrument for future use to collect these data directly from the grantee.
