C. How and to Whom Do I Submit the Comments?

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments. If you wish to submit CBI or information that is otherwise protected by statute, please follow the instructions in Unit I.D. 1. *Electronically.* If you submit an electronic comment as prescribed in this unit, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. EPA may not be able to consider your comment.

i. *EPA Dockets.* Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket/>, and follow the online instructions for submitting comments. Once in the system, select "search," and then key in docket ID number OPPT-2004-0127. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

ii. *E-mail.* Comments may be sent by e-mail to oppt.ncic@epa.gov, Attention: Docket ID Number OPPT-2004-0127. In contrast to EPA's electronic public docket, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly to the docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket and EPA's electronic public docket. If you submit the copy that does not contain CBI on disk or CD ROM, mark the outside of the disk or CD ROM clearly that it does not contain CBI. Information not marked as CBI will be included in the public docket and EPA's electronic public docket without prior notice. If you have any questions about CBI or the procedures for claiming CBI, please consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

E. What Should I Consider when I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.

8. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

F. What Information is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of PRA, EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collections of information are necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burdens of the proposed collections of information.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated or electronic collection technologies or other forms of information technology, e.g., permitting electronic submission of responses.

II. What Information Collection Activity or ICR Does this Action Apply to?

EPA is seeking comments on the following ICR:

Title: Reporting and Recordkeeping Requirements under EPA's Lead Safety Partnership (LSP) Pilot Program.

ICR numbers: EPA ICR No. 2172.01, OMB Control No. 2070-TBD.

ICR status: This ICR is a new proposed information collection that has not been approved by OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9, and included on the related collection instrument or form, if applicable.

Abstract: The LSP is an EPA voluntary program that seeks to increase the use of LSWP among contractors and homeowners. Participants in the LSP fall into two categories: Members and Partners. Members are renovation, remodeling, painting, and other contractors in the building trades who work in properties built before 1978. Partners are entities that participate in the LSP but are not contractors. These may include associations, community-based organizations, retailers, lenders, realtors, state and local agencies.

Members will be asked to sign a Lead Safety Partnership Member Agreement indicating that the contractor will train all workers in LSWP, inform all potential clients in housing built prior to 1978 of LSWP, use LSWP in such homes, and report annually to the LSP about numbers of jobs done with LSWP. Members will also be asked to submit a Lead Safety Partnership Annual Member Report on Progress in Meeting Goals of Agreement that will include the number of renovation and remodeling jobs completed in pre-1978 and other housing, number of employees trained, and information on the Members' satisfaction with the program. Partners will be asked to sign a Lead Safety Partnership Partner Agreement that outlines their role and level of

commitment. Partners will also provide an Annual Partner Report on Progress in Meeting Goals of Agreement. This report will include information on services provided in the past year and Partner satisfaction with the program.

EPA will use the information collected under the LSP pilot to determine the effectiveness of the program in increasing the use of LSWP. The Agency will also use feedback from Members and Partners to adjust the pilot program design before instituting a national LSP so that the program is effective and useful for all parties involved. The general public is also expected to use some of the information gathered as homeowners and others undertaking renovation and remodeling projects consult the LSP Member directory.

Responses to the collection of information are voluntary. Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

III. What are EPA's Burden and Cost Estimates for this ICR?

Under the PRA, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized in this notice. The annual public burden for this collection of information is estimated to average 1.9 hours per response. The following is a summary of the estimates taken from the ICR:

Respondents/affected entities: Companies and individuals involved in renovation, remodeling, painting, and other construction activities in the building trades working in properties built before 1978, and companies, associations, and individuals involved

in housing activities, policies, and related issues, such as community-based organizations, retailers, lenders, realtors, and state and local agencies.

Estimated total number of potential respondents: 240.

Frequency of response: Annually.

Estimated total/average number of responses for each respondent: 1.

Estimated total annual burden hours: 377 hours.

Estimated total annual burden costs: \$14,087.

IV. Are There Changes in the Estimates from the Last Approval?

No. This is a new proposed ICR.

V. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION:

Background

The WSWG mission is to: (1) Identify, compile, and characterize best security practices and policies for drinking water and wastewater utilities and provide an approach for considering and adopting these practices and policies at a utility level; (2) consider mechanisms to provide recognition and incentives that facilitate a broad and receptive response

among the water sector to implement these best security practices and policies and make recommendations as appropriate; (3) consider mechanisms to measure the extent of implementation of these best security practices and policies, identify the impediments to their implementation, and make recommendations as appropriate. The WSWG is comprised of sixteen members from water and wastewater utilities, public health, academia, state regulators, and environmental and community interests. Technical experts from the Environmental Protection Agency, the Department of Homeland Security, the Centers for Disease Control and Prevention, and the Department of Defense are also actively supporting the WSWG.

Closed and Open Parts of the Meeting

The WSWG is a working group of the NDWAC; it is not a Federal advisory committee and therefore not subject to the same public disclosure laws that govern Federal advisory committees. The Group can enter into closed session as necessary to provide an opportunity to discuss security-sensitive information relating to specific water sector vulnerabilities and security tactics. Currently, the WSWG does not anticipate closing any parts of the January meeting to the public. However, the Group reserves the right to enter into closed session, if necessary, late in the afternoon of January 25, 2005, immediately before lunch on January 26, 2005, and late in the day on January 27, 2005. If closed sessions are needed, opportunities for public comment will be provided before the closed sessions begin.

If there is a closed meeting session, only WSWG members, Federal resource personnel, facilitation support contractors and outside experts identified by the facilitation support contractors will attend the closed meetings. A general summary of the topics discussed during closed meetings and the individuals present will be included with the summary of the open portions of the WSWG meeting.

Public Comment

An opportunity for public comment will be provided during the open part of the WSWG meeting. Oral statements will be limited to five minutes, and it is preferred that only one person present the statement on behalf of a group or organization. Written comments may be provided at the meeting or may be sent, by mail, to Marc Santora, Designated Federal Officer for the WSWG, at the mail or e-mail address listed in the **FOR**
