Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of this program is to: (1) Improve results for children with disabilities by promoting the development, demonstration, and use of technology, (2) support educational media services activities designed to be of educational value in the classroom setting to children with disabilities, and (3) provide support for captioning and video description that is appropriate for use in the classroom setting.

Priorities: This competition contains an absolute priority and a competitive preference priority. In accordance with 34 CFR 75.105(b)(2)(v), these priorities are from allowable activities specified in the statute (see sections 674 and 681(d) of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2005 this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

Technology and Media Services for Individuals With Disabilities—
Television Access

Background of Priority:

On July 21, 2000, the Federal Communications Commission (FCC) adopted rules to make television more accessible to people with visual disabilities by mandating that a certain amount of programming contain video description. However, in November 2002, a Federal court struck down these rules. Thus, because FCC accessibility rules do not currently require video description, only a limited number of television programs provide video description for individuals with blindness or low vision. For more information about video description, please refer to: http://ftp.fcc.gov/cgb/consumerfacts/vid_des.html.

The FCC is also responsible for implementing and monitoring the closed captioning requirements of the Telecommunications Act of 1996. In that law, Congress authorized the FCC to adopt exemptions from general captioning requirements. For more information about closed captioning and the exemptions please refer to: <http://www.fcc.gov/cgb/consumerfacts/closedcaption.html>.

Statement of Priority: Under this priority, which supports cooperative agreements, an applicant must describe, or describe and caption, widely available programs that are appropriate for, and designed to be of educational value in the classroom setting for children with disabilities at the

preschool, elementary, or secondary level.

A project must do the following:

(a) Include criteria for selecting programs of high educational merit and take into account the preference of educators, students, and parents.

(b) Identify and support a consumer advisory group, including parents and educators, which must meet at least annually.

(c) Use the expertise of this consumer advisory group to certify that each program described or described and captioned with project funds is of educational value in the classroom setting at the preschool, elementary, or secondary level for children with disabilities. Acceptable programming must be appropriate for use in the classroom setting, focusing on the educational needs of students, including intellectual/cognitive or social/emotional needs.

(d) Identify the extent to which the programming is widely available.

(e) Identify the total number of program hours the project will make accessible and the cost per hour for description and, if the applicant is proposing both description and captioning, the cost per hour for description and captioning.

(f) For each video program, identify the source of any private or other public support, and the projected dollar amount of that support, if any.

(g) Demonstrate the willingness of program providers or program owners to permit and facilitate the description or, the description and captioning of their programs.

(h) Provide assurances from program providers or program owners stating that programs made accessible under this project will air, and will continue to air, with descriptions, or with descriptions and captions.

(i) If the applicant is proposing both description and captioning, provide assurances from program providers or program owners stating that programs captioned under this project would not otherwise be captioned to meet the FCC's captioning requirements, or are specifically exempt from the FCC's captioning requirements.

(j) Implement procedures for monitoring the extent to which full accessibility is provided, and use this information to make refinements in project operations.

(k) Identify the anticipated shelf-life and range of distribution of the video programs that is possible without further costs to the project.

In addition, projects funded under this priority must—

(a) Budget for a two-day Project Directors' meeting in Washington, DC during each year of the project.

(b) If the project maintains a Web site, include relevant information and documents in a format that meets a government or industry-recognized standard for accessibility.

Competitive Preference Priority: Within this absolute priority, we give competitive preference to applications that address the following priority. Under 34 CFR 75.105(c)(2)(i) we award up to an additional 10 points to an application from a small business. Thus, an applicant meeting this competitive preference could receive a maximum possible score of 110 points.

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (APA) (5 U.S.C. 553), the Department generally offers interested parties the opportunity to comment on proposed priorities. However, section 681(d) of IDEA makes the public comment requirements of the APA inapplicable to the priority in this notice.

Program Authority: 20 U.S.C. 1474 and 1481(d).

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99.

Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

Note: The regulations in 34 CFR part 86 apply to IHEs only.
