[Docket No. CP05-355-000]

Tennessee Gas Pipeline Company; Notice of Application

May 24, 2005.

Take notice that Tennessee Gas Pipeline Company (Tennessee), 1001 Louisiana, Houston, Texas 77002, filed in Docket No. CP05-355-000 on May 16, 2005, an application pursuant to sections 7(c) of the Natural Gas Act

(NGA) and Part 157 of the Commission's Regulations, for authorization to construct its Northeast ConnexXion-NY/NJ Project. Tennessee requests authorization to construct, install and operate the proposed facilities, which include approximately six miles of looping on its existing Line 300 in western Pennsylvania, additional horsepower at its Stations 313 and 317 in Potter and Bradford Counties, Pennsylvania, and upgrades to the Ramsey Meter Station in Bergen County, New Jersey. These system enhancements are necessary for Tennessee to provide up to 50,000 Dth per day of incremental firm transportation capacity to its northeast markets and 51,100 Dth per day of incremental storage deliverability for its customer, Public Service Electric and Gas Company, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may be also viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call (202) 502-8659 or TTY, (202) 208-3676.

Any questions regarding this application should be directed to Susan T. Halbach, Senior Counsel, Tennessee Gas Pipeline Company, 1001 Louisiana, Houston, Texas, 77002, at (713) 420-5751 or fax (713) 420-1601.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as

possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Comment Date: June 14, 2005.

[Docket No. CP05-352-000]

Tennessee Gas Pipeline Company and National Fuel Gas Supply Corporation; Notice of Application

May 24, 2005.

Take notice that Tennessee Gas Pipeline Company (Tennessee), 1001 Louisiana, Houston, Texas, 77002, and National Fuel Gas Supply Corporation (National Fuel), 6363 Main Street, Williamsville, New York, 14221, have jointly filed on May 16, 2005, in Docket No. CP05-352-000, an application

pursuant to section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's Regulations, for authorization to increase storage deliverability from the Hebron Storage Field, which is jointly owned by the applicants, by modifying the dehydration tower at Tennessee's Compressor Station 313 located in Potter County, Pennsylvania. The proposed modification will enhance total deliverability from approximately 425 MMcf per day to approximately 487 MMcf per day, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may be also viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call (202) 502-8659 or TTY, (202) 208-3676.

Any questions regarding this application should be directed to Susan T. Halbach, Senior Counsel, Tennessee Gas Pipeline Company, 1001 Louisiana, Houston, Texas, 77002, at (713) 420-5751 or fax (713) 420-1601.
