It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filing in the above proceeding is accessible in the Commission's eLibrary system. It is also available for review in the Commission's Public Reference Room in Washington, DC. #### **Dominion Cove Point LNG, LP; Dominion Transmission, Inc.; Notice of Supplemental Filings**

June 3, 2005.

Take notice that on May 27, 2005, Dominion Cove Point LNG, LP (Cove Point LNG) filed new information to supplement its application in Docket

No. CP05-130-000. That application, filed pursuant to section 3 of the Natural Gas Act (NGA), requests authority to expand its facilities at its liquefied natural gas (LNG) import terminal at Cove Point, Maryland. The new information is also relevant to Cove Point LNG's April 15, 2005, application in Docket No. CP05-132-000 and Dominion Transmission, Inc.'s April 15, 2005 application in Docket No. CP05-131-000.

The details of these filings are more fully set forth in the filings which are on file with the Commission and open to public inspection. These filings may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number including the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or TTY, contact (202) 502-8659.

The first item of new information filed in Docket Nos. CP05-130-001, CP05-132-001 and CP05-131-001 is a Notice of Terms of Settlement of Matters Related to the Cove Point Expansion Proceedings. This Notice describes the principal terms of a settlement among Cove Point LNG and certain parties to these proceedings. Among other things, the Notice briefly describes certain additional filings that Cove Point LNG will now make regarding its LNG import terminal. The second item of new information filed in Docket No. CP05-130-002 is one of these additional filings. This second item is revisions to Cove Point LNG's proposed Section 30 of its General Terms and Conditions of its FERC Gas Tariff. Proposed Section 30, as now revised, more fully describes the relationship of certain aspects of Cove Point's proposed expansion service to other provisions of its FERC tariff.

Pursuant to the Commission's Notice of Application issued on April 29, 2005, May 27, 2005 was to have been the due date for filing of comments, protests and motions to intervene in these proceedings. We note that consolidated responses to any comments, protests and motions to intervene filed on May 27, 2005 remains due no later than June 13, 2005, pursuant to a Notice of Extension of Time issued by the Commission on May 27, 2005.

However, given the nature of the new information filed on May 27, 2005 by Cove Point LNG in the above referenced sub-dockets, the Commission hereby sets a further date for all parties and persons to revise or initially file their

comments, protests and motions to intervene in these proceedings.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

Persons who wish to comment only on the environmental review of this project, or in support of or in opposition to this project, should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the applicant. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.

*Further Comment Date:* June 28, 2005.

[Docket Nos. ER01-2262-000 and ER01-2262-001]

### Frederickson Power L.P.; Notice of Issuance of Order

June 1, 2005.

Frederickson L.P. (Frederickson Power) filed an application for market-based rate authority, with an accompanying rate schedule. The proposed rate schedule provides for the sales of capacity, energy, and ancillary services at market-based rates. Frederickson Power also requested waiver of various Commission regulations. In particular, Frederickson Power requested that the Commission grant blanket approval under 18 CFR part 34 of all future issuances of securities and assumptions of liability by Frederickson Power.

On February 21, 2002, pursuant to delegated authority, the Director, Division of Tariffs and Rates—Central, granted the request for blanket approval under part 34. The Director's order also stated that the Commission would publish a separate notice in the **Federal Register** establishing a period of time for the filing of protests. Accordingly, any person desiring to be heard or to protest the blanket approval of issuances of securities or assumptions of liability by Frederickson Power should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. 18 CFR 385.211, 385.214 (2004).

Absent a request to be heard in opposition by the deadline above, Frederickson Power is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of Frederickson Power, compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of Frederickson Power issuances of securities or assumptions of liability.
