DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; 5-Year Review of 10 Southeastern Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces a 5-year review of the Key deer (*Odocoileus virginianus clavium*), St. Andrew beach mouse (*Peromyscus polionotus*

peninsularis), Florida panther (*Puma* (= *Felis*) *concolor coryi*), Cape Sable seaside sparrow (*Ammodramus maritimus mirabilis*), Okaloosa darter (*Etheostoma okaloosae*), beach jacquemontia (*Jacquemontia reclinata*), deltoid spurge (*Chamaesyce deltoidea* ssp. *deltoidea*), fringed campion (*Silene polypetala*), Small's milkpea (*Galactia smallii*), and tiny polygala (*Polygala smallii*) under section 4(c)(2) of the Endangered Species Act of 1973, as amended (Act). The purpose of reviews conducted under this section of the Act is to ensure that the classification of species as threatened or endangered on the List of Endangered and Threatened Wildlife and Plants (50 CFR 17.11 and 17.12) is accurate. The 5-year review is an assessment of the best scientific and commercial data available at the time of the review.

DATES: To allow us adequate time to conduct this review, information submitted for our consideration must be received on or before August 22, 2005. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: Information submitted on the St. Andrew beach mouse, Okaloosa darter, and fringed campion (a plant) should be sent to the Deputy Field Supervisor, Panama City Field Office, U.S. Fish and Wildlife Service, 1601 Balboa Avenue, Panama City, Florida 32405. Information about the remaining 7 species should be sent to the Field Supervisor, South Florida Field Office, U.S. Fish and Wildlife Service, 1339 20th Street, Vero Beach, Florida 32960. Information received in response to this notice of review will be available for public inspection by appointment, during normal business hours, at the same addresses.

FOR FURTHER INFORMATION CONTACT:

Janet Mizzi at the Panama City, Florida, address above for the St. Andrew beach mouse, Okaloosa darter, and fringed campion (telephone, 850/769-0552, ext. 247), and Cindy Schulz at the above Vero Beach, Florida, address for the remaining 7 species (telephone, 772/562-3909, ext. 305).

SUPPLEMENTARY INFORMATION: Under the Act (16 U.S.C. 1533 *et seq.*), the Service maintains a list of endangered and threatened wildlife and plant species at 50 CFR 17.11 (for animals) and 17.12 (for plants) (collectively referred to as the List). Section 4(c)(2)(A) of the Act requires that we conduct a review of listed species at least once every 5 years. Then, on the basis of such reviews, under section 4(c)(2)(B), we determine whether or not any species should be removed from the List (delisted), or

reclassified from endangered to threatened or from threatened to endangered. Delisting a species must be supported by the best scientific and commercial data available and only considered if such data substantiate that the species is neither endangered nor threatened for one or more of the following reasons: (1) The species is considered extinct; (2) the species is considered to be recovered; and/or (3) the original data available when the species was listed, or the interpretation of such data, were in error. Any change in Federal classification would require a separate rulemaking process. The regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species currently under active review. This notice announces our active review of the following species that are currently federally listed as endangered: Key deer, St. Andrew beach mouse, Florida panther, Cape Sable seaside sparrow, Okaloosa darter, beach jacquemontia, deltoid spurge, fringed campion, Small's milkpea, and tiny polygala.

The List is found at 50 CFR 17.11 (wildlife) and 17.12 (plants) and is also available on our Internet site at <http://endangered.fws.gov/wildlife.html#Species>. Amendments to the List through final rules are published in the **Federal Register**.

What Information Is Considered in the Review?

A 5-year review considers all new information available at the time of the review. A 5-year review will consider the best scientific and commercial data that have become available since the current listing determination or most recent status review of each species, such as:

A. Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;

B. Habitat conditions, including but not limited to amount, distribution, and suitability;

C. Conservation measures that have been implemented to benefit the species;

D. Threat status and trends (see five factors under heading "How do we determine whether a species is endangered or threatened?"); and

E. Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.
