C. Information on Related Lead Grant Program

This notice is one of two EPA grant opportunities to conduct various lead-based paint activities. The second grant program, the lead-based paint section 404(g) lead grant program (Solicitation of Applications for Lead-Based Paint Program Grants; Notice of Availability of Funds), was made available to all States and Tribes through the EPA Regional Offices (see listing of EPA Offices under Unit VI.B.). Although a Tribe may apply to receive grant funding from both programs, they each have very distinct objectives. The grant program opportunities described in this notice may serve as a precursor to, but not as an equivalent or supplement to, the section 404(g) lead-based paint grant program. The section 404(g) lead-based paint grant program involves infrastructure development for the anticipated implementation of a lead-based paint training and certification program and does not include the activities (testing for lead in blood, paint, dust, or soil samples, or the general educational outreach activities) listed in this notice. Tribes may determine from the sample results and data interpretation that they obtain from the grant program described in this notice, that they have a need to develop a lead-based paint grant program and may apply for section 404(g) grant funds. Alternatively, a Tribe may decide that it is not in their best interest to pursue such a training and certification oversight program. Tribes or Tribal

consortia with an EPA-approved lead-based paint program may become eligible for other Federal funding opportunities for lead activities.

IX. Submission to Congress and the Comptroller General

Grant solicitations such as this are considered rules for the purpose of the Congressional Review Act (CRA) (5 U.S.C. 801 *et seq.*). The CRA generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this grant solicitation and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to its publication in the **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).

C. How and to Whom Do I Submit A Request to Make an Oral Presentation?

You may submit a request to make an oral presentation electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket ID number in the subject line. Please ensure your request is submitted within the specified time frame. Requests received after that date will be marked "late." EPA is not required to consider late submissions.

1. *Electronically.* If you submit an electronic request as prescribed in this unit, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information. Go directly to EPA Dockets at <http://www.epa.gov/edocket/>, and follow the instructions for submitting comments. Once in the system, select "search," and then key in docket ID number OPPT-2005-0034. II. Background

Congress directed OMB to prepare an annual report to Congress on the costs and benefits of Federal regulations. On February 20, 2004, OMB made the report "2004 Draft Report to Congress on the Costs and Benefits of Federal Regulations" publicly available and requested public nominations for reforms (Ref. 1). One of the nominations that OMB received was from the Utilities Solid Waste Advisory Group (USWAG) (Ref. 2). USWAG contends EPA treats identical PCB remediation waste at concentrations less than 50 parts per million (ppm) differently. It believes that all PCB remediation wastes at concentrations less than 50 ppm should be managed in the same manner, "including being disposed in a municipal solid waste landfill." While EPA does not necessarily believe that the exact same PCB remediation waste is treated differently, it is reviewing these concerns to determine how to minimize any potential confusion. EPA is interested in obtaining stakeholder input on how to make the PCB remediation waste activities more transparent. To obtain this input, EPA is holding a public meeting. A brief background paper is available from the TSCA-Hotline (Ref. 3). The TSCA Hotline can be reached by telephone at (202) 554-1404 or by e-mail at TSCA-Hotline@epa.gov.

III. Meeting Procedures

Oral presentations will be limited to 10 minutes. In order to give an oral presentation follow the instructions in Unit I.C. A written copy of the oral presentation must be provided to the technical person listed under **FOR FURTHER INFORMATION CONTACT** at the public meeting for inclusion in the official public docket. Direct inquiries regarding oral presentations and the submission of written copies of these oral presentations to the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Seating at the meeting will be on a first-come basis. Special accommodations will be available for those requesting them on or before July 11, 2005.

Persons interested in attending the public meeting are encouraged to pre-register by calling the technical person listed under **FOR FURTHER INFORMATION CONTACT** and providing your name, organization, and telephone number by July 11, 2005. This advance request will assist in planning adequate seating and in securing access to the building. Meeting attendees are directed to use the EPA East entrance on Constitution Ave., near 12th St., NW., for direct access to the meeting room. Members of the public may attend without prior registration with the technical person, but pre-registration is encouraged.
