Animal and Plant Health Inspection Service

Title: Foot-and-Mouth Disease Payment of Indemnity; Update of Provisions.

OMB Control Number: 0579-0199

Summary of Collection: The Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture administers regulations at 9 CFR part 53 that provides for the payment of indemnity to owners of animals that are required to be destroyed because of food-and-mouth disease (FMD), and any other communicable disease of livestock or poultry that in the opinion of the Secretary of Agriculture constitutes an emergency and threatens the U.S. livestock or poultry population. The regulations authorize payments based on the fair market value of the animals destroyed, as well as payments for their destruction and disposal.

Need and Use of the Information: Providing affected herd owners with appropriate compensation for the loss of their animals would entail the use of VS Form 1-23, All Species Appraisal & Indemnity Claim Form. APHIS will use the information provided on the form along with supporting documents to assist in verifying the quantity and value of animals or materials destroyed and the costs of their disposition, and the cost of cleaning and disinfecting. Collecting this information less frequently or failing to collect would make it difficult for APHIS to operate an FMD indemnity program.

Description of Respondents: Farms; Individuals or households; Federal Government; State, local or tribal government.

Number of Respondents: 1.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 1.

Ruth Brown,

Departmental Information Collection Clearance Officer.

OMB Numbers: 0584-0005.

Abstract: Section 3 of the Child Nutrition Act (CNA) of 1966 (Pub. L. 89-642, as amended; 42 U.S.C. 1772) authorizes the Special Milk Program (SMP). It provides for the appropriation of such sums as may be necessary to enable the Secretary of Agriculture, under such rules and regulations as the Secretary may deem in the public interest, to encourage the consumption of fluid milk by children in the United States in (A) nonprofit schools of high school grade and under, and (B) nonprofit nursery schools, child care centers, settlement houses, summer camps, and similar nonprofit institutions devoted to the care and training of children. Schools and institutions which participate in SMP may not participate in a meal service program authorized under the CNA or the Richard B. Russell National School Lunch Act.

Section 10 of the CNA requires the Secretary of Agriculture to "prescribe such regulations as the Secretary may deem necessary to carry out this Act and the Richard B. Russell National School Lunch Act * * *". Pursuant to that provision, the Secretary has issued 7 CFR part 215, which sets forth policies and procedures for the administration and operation of the SMP. State and local operators of the SMP are required to meet Federal reporting and accountability requirements. The vast majority of reporting relates to information regarding eligibility determinations of the children, the number of milk servings, and revenues received from milk sales. State and local operators are also required to maintain records regarding eligibility to operate the program, review results, and accounts of revenues and expenditures.

SUPPLEMENTARY INFORMATION:

Title: Nonprofit Organization Annual Report of Operations and Aid.

OMB Number: 0596-New.

Expiration Date of Approval: N/A.

Type of Request: New.

Abstract: For over 25 years, Federal agencies, such as the Forest Service, Bureau of Land Management, and the National Park Service, have entered into agreements with non-profit organizations to serve visitors and meet their needs for quality guides, maps, and other education or interpretive literature. These non-profit organizations are frequently referred to as cooperating or interpretive associations and are mission-driven, private, non-profit organizations established under state law and adhering to applicable laws governing Federal tax-exempt 501(1)(3)(c) organizations. They assist Federal agencies primarily through selling educational and interpretive materials, providing information services, conducting educational programs and field institutes, and raising contributions to support the educational mission of these Federal land management agencies.

This notice addresses issues raised by the associations and some of those noted in the 2002 GAO audit of the National Park Service. The Executive Directors of the associations identified the need for improving and streamlining the annual operational, aid and financial reporting requirements of the Federal agencies. They also noted that the use of a single form by all of the agencies would increase consistency in reporting by the associations and would alleviate duplicative efforts and the time burden for filing independent agency-specific financial reports.
