**SUPPLEMENTARY INFORMATION:** In its Data Collection Order, the Commission revised the information collection requirements for FCC Form 477 (69 FR 77912, December 29, 2004). The revisions extend and modify the FCC Form 477 local competition and broadband data gathering program, established by the Commission's Data Gathering Order (65 FR 19675, April 12, 2000). In the Data Collection Order, the Commission stated that the revised information collection requirements had not been approved by OMB. It indicated that the amended rules implementing the revised information collection would become effective only upon OMB approval of the revised information collection. It stated that it would publish a document in the **Federal Register** announcing the effective date.

OMB approved the revised information collection on May 26, 2005. Accordingly, through this document, the Commission announces that May 26, 2005, will function as the effective date of both the revised information collection and the amended rules implementing it. This means that the revised information collection and the amended rules will apply to the Form 477 that entities must file on or before September 1, 2005, reporting data as of June 30, 2005.

Pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13, an agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. Notwithstanding any other provisions of law, no person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number. Questions concerning OMB control numbers and expiration dates should be addressed to Paul J. Laurenzano, Wireline Competition Bureau, at (202) 418-1359 or via the Internet at [Paul.Laurenzano@fcc.gov](mailto:Paul.Laurenzano@fcc.gov).

#### Summary

The Commission initiated a Notice of Proposed Rulemaking in this proceeding (69 FR 48118, August 9, 2004). In response to the Notice of Proposed Rulemaking, on April 29, 2005, the Commission adopted a Report and Order adopting the proposals contained in the Notice of Proposed Rulemaking. The new rules will mandate electronic filing of applications and other submissions related to the provision of international telecommunications services. Over the years, the Commission has introduced a number of electronic filing systems that a large and growing number of applicants are using to file their applications. For international services, filers submit applications and other filings via the International Bureau Filing System (IBFS). In the Report and Order, the Commission required all filings related to international telecommunications services to be submitted via the IBFS.

The mandatory filing requirements will be implemented in stages as new forms are developed for IBFS. This phased-in implementation will allow for the development of additional forms consistent with the rules. The Commission adopted a sixty-day transition period to allow applicants and carriers time to adjust to the new filing requirements. The sixty-day transition period will begin on the effective date of the new rules and will apply to those applications for which electronic forms are currently available. Thereafter, the International Bureau will issue public notices announcing the availability of new forms and the effective date of the electronic filing requirement. At the end of the sixty-day transition period, the Commission will no longer accept filings in a manual

format, and the filings will be returned to the applicant without processing.

The Report and Order concluded that mandatory electronic filing will allow applicants to make international filings more rapidly and efficiently. In addition, it will improve the speed and efficiency of application processing, and expedite the availability of the application information for public use and inspection. Also, the Commission concluded that electronic filing would not impose any undue burdens on parties.

The Commission will continue with its policies for the confidential treatment of certain materials. Currently, IBFS does not accommodate confidential filings, but the Commission intends to develop the capability of IBFS to accommodate confidentially filed pleadings and applications.

## Procedural Matters

### Final Regulatory Flexibility Certification

The Regulatory Flexibility Act of 1980, as amended (RFA), requires that a regulatory flexibility analysis be prepared for any rule making proceeding that requires notice-and-comment, unless the agency certifies that the "rule will not, if promulgated, have a significant economic impact on a substantial number of small entities." (See 5 U.S.C. 601–612, has been amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), Public Law 104–121, Title II, 110 Stat. 857 (1996).) The RFA generally defines the term "small entity" as having the same meaning as the terms "small business," "small organization," and "small governmental jurisdiction." The term "small business" has the same meaning as the term "small business concern" under the Small Business Act. A "small business concern" is one which: (1) Is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the Small Business Administration (SBA).

Pursuant to the RFA, the Commission incorporated an Initial Regulatory Flexibility Certification into the Notice of Proposed Rulemaking in the Certification. The Commission tentatively concluded that the proposals contained in the Notice of Proposed Rulemaking were in the public interest and would not impose undue burdens on carriers, small or large. Further, any burdens caused by mandating electronic filing would be offset by the fact that services to the public would likely be expedited. We received no comments on

the Notice of Proposed Rulemaking or the Initial Regulatory Flexibility Certification.

In the Report and Order, the Commission adopted mandatory electronic filing for applications and other filings associated with international telecommunications services. Mandatory electronic filing is in the public interest and will not impose undue burdens on a significant number of small entities that are now required to file for international telecommunications services. Further, the processing of these filings will be expedited by mandatory electronic filing.

We certify that the requirements of the Report and Order will not have a significant economic impact on a substantial number of entities.

*Report to Congress:* The Commission will send a copy of the Order, including a copy of the Final Regulatory Flexibility Certification, in a report to Congress. In addition, the Commission will send a copy of the Order, including a copy of the Final Regulatory Flexibility Certification, to the Chief Counsel for Advocacy of the SBA. A copy of the Order and Final Regulatory Flexibility Certification will also be published in the **Federal Register**.

### Paperwork Reduction Act Analysis

This Report and Order contains either new or modified information collections subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104–13. It has been submitted to the Office of Management and Budget (OMB) for review under section 3507(d) of the PRA. OMB, the general public, and other Federal agencies are invited to comment on the modified information collection contained in this proceeding. (See 69 FR 48188, August 9, 2004) In addition, we note that pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, (see 44 U.S.C. 3506 (c)(4)), the Commission previously sought specific comment on how the Commission might "further reduce the information collection burden for small business concerns with fewer than 25 employees."

In the Report and Order, we assessed the effects of mandatory electronic filing of all applications and other filings related to international services. Mandatory electronic filing will allow all applicants, including small entities, to make filings more rapidly and efficiently. The Report and Order also provides for a transition period that will allow all applicants and carriers to adjust to the new rules. Finally, the Report and Order permits an applicant to seek a waiver of the rules in the

limited instances where electronic filing may be burdensome.

All comments regarding the requests for approval of the information collection should be submitted to Judith B. Herman, Federal Communications Commission, Room 1–C804, 445 12th Street, SW., Washington, DC 20554, or via the Internet to *Judith-B.Herman@fcc.gov*; phone 202–418–0214.

\* \* \* \* \*

(h) Subject to the availability of electronic forms, all applications and notifications described in this section must be filed electronically through the International Bureau Filing System (IBFS). (c) Without regard to the other requirements of this part, and by application setting forth the need therefore, any carrier may request continuing authority, subject to termination by the Commission at any time upon ten (10) days' notice to the carrier, to provide temporary or emergency service by the construction or installation of facilities where the estimated construction, installation, and acquisition costs do not exceed \$35,000 or an annual rental of not more than \$7,000 provided that such project does not involve a major action under the Commission's environmental rules. (See subpart I of part 1 of this chapter.) Any carrier to which continuing authority has been granted under this paragraph shall, not later than the 30th day following the end of each 6-month period covered by such authority, file with the Commission a statement making reference to this paragraph and setting forth, with respect to each project (construction, installation, lease, including any renewals thereof), which was commenced or, in the case of leases, entered into under such authority, and renewal or renewals thereof which were in continuous effect for a period of more than one week, the following information:

\* \* \* \* \*

BILLING CODE 6712–01–P

**FEDERAL COMMUNICATIONS COMMISSION**

**47 CFR Part 15**

[ET Docket No. 05–24; FCC 05–121]

**DTV Tuner Requirements**

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** This document modifies the schedule by which new broadcast television receivers with screen sizes 25–36" are required to include the capability to receive over-the-air digital television (DTV) broadcast signals. This action was initiated in response to a Petition for Rulemaking from the Consumer Electronics Association and the Consumer Electronics Retailers Association (CEA–CERC) requesting that we eliminate the 50 percent requirement for the 25–36" mid-size receivers and instead advance the date by which 100 percent of these receivers would include DTV tuners to March 1, 2006. This action will serve to minimize any difficulties with the 50 percent provision at the earliest practicable date and will also serve to promote the expeditious completion of the transition from analog to digital broadcast television service.

**DATES:** Effective August 5, 2005.
