

transfer, as required by, 40 CFR 271.23. Further, EPA may withdraw a State's authorized program under § 271.23.

State program revision may be necessary when the controlling Federal or State statutory or regulatory authority is modified or supplemented. In the event that the State is revising its program by adopting new Federal requirements, the State shall prepare and submit modified revisions of the program description, Attorney General's statement, Memorandum of Agreement, or such other documents as EPA determines to be necessary. The State shall inform EPA of any proposed modifications to its basic statutory or regulatory authority in accordance with section 271.21. If a State is proposing to transfer all or any part of any program from the approved State agency to any other agency, it must notify EPA in accordance with section 271.21 and submit revised organizational charts as required under § 271.6, in accordance with section 271.21. These paperwork requirements are mandatory under section 3006(a). EPA will use the information submitted by the State in order to determine whether the State's program meets the statutory and regulatory requirements for authorization.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 400 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this

action are the Federal Government, and State, Local, or Tribal Governments.

Estimated Number of Respondents: 50.

Frequency of Response: Annual.

Estimated Total Annual Hour Burden: 19,968 hours.

Estimated Total Annualized Capital and O&M Cost Burden: \$0.

Changes in the Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: July 12, 2005.

Title: Motor Vehicle Emission and Fuel Economy Compliance: Light Duty Vehicles, Light Duty Trucks, and Highway Motorcycles (Renewal).

Abstract: Under the Clean Air Act (42 U.S.C. 7521 *et seq.*) manufacturers and importers of light duty vehicles (passenger cars), light trucks, and motorcycles must have a certificate of conformity issued by EPA covering any vehicle they intend to offer for sale. In addition, light duty vehicles and light truck manufacturers and importers must also submit fuel economy information and reports required by the Energy Policy and Conservation Act (49 U.S.C. 32901 *et seq.*). EPA reviews vehicle information and test data to determine if the vehicle design conforms to applicable requirements and to verify that the required testing has been performed. After a certificate of conformity has been issued, subsequent audit and enforcement actions may be taken based on the initial information submitted as well as on information submitted while the vehicles are in service. Until a vehicle is available for purchase, information is confidential. Some proprietary information is permanently confidential.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 4,656 hours per respondent. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be

able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are passenger car, light truck, and motorcycle vehicle manufacturers and importers.

Estimated Number of Respondents: 139.

Frequency of Response: Annually and Quarterly.

Estimated Total Annual Hour Burden: 647,176.

Estimated Total Annual Cost: \$47,459,648, which includes \$3,060,000 annualized O&M costs, \$8,275,000 annualized capital/startup costs, and \$36,124,648 annual labor costs.

Changes in the Estimates: There is an increase of 105,058 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is an adjustment of the prior estimate primarily reflecting an increase in the number of light duty test groups along with a more detailed analysis of the labor burdens associated with a more comprehensive accounting of tests and reports.
