

stations, about independent professional audience surveys that are being conducted by an organization to demonstrate that a particular broadcast station is eligible for significantly viewed status under the Commission's rules. The notifications provide interested parties with an opportunity to review survey methodologies and file objections. The proposed § 76.54(c) retains the existing notification requirement, but, if adopted, would increase the potential number of parties that would file such notifications.

47 CFR 76.54(d) provides for cable operators and broadcast stations seeking cable carriage of "significantly viewed" signals to use the Section 76.7 petition process to demonstrate "significantly viewed" status on. The proposed rule changes if adopted, would expand use of the Section 76.7 petition process to include petitions filed by satellite carriers or broadcast stations seeking satellite carriage of "significantly viewed" signals.

47 CFR 76.54(e) and (f) are proposed additions to the rule. If adopted, these rules would be used to notify television broadcast stations about the retransmission of significantly viewed signals by a satellite carrier into these stations' local market.

Form Number: Not applicable.

Respondents: Business or other for-profit entities.

Number of Respondents: 500.

Estimated Time Per Response: 4–60 hours.

Total Annual Burden: 16,000 hours.

Total Annual Costs: \$200,000.

Needs and Uses: 47 CFR 76.7 is used to make determinations on petitions and complaints filed with the Commission. The rule is used for numerous types of petitions and special relief petitions, including general petitions seeking special relief, waivers, enforcement, show cause, forfeiture and declaratory ruling procedures. The proposed rule changes would expand use of the Section 76.7 petition process to include the filing of complaints under the Section 340 of the Act enforcement provisions. Thus, if adopted, the

proposed rule changes would expand the potential number of parties and situations that may require the filing of § 76.7 petitions.

Form Number: Not applicable.

Respondents: Business or other for-profit entities.

Number of Respondents: 1,428.

Estimated Time Per Response: 0.5–1 hour.

Total Annual Burden: 12,402 hours.

Total Annual Costs: None.

Needs and Uses: 47 CFR 76.122, 76.123, 76.124 and 76.127 are used to protect exclusive contract rights negotiated between broadcasters, distributors, and rights holders for the transmission of network, syndicated, and sports programming in the broadcasters' recognized market areas. The proposed rule changes to §§ 76.122 and 76.123, if adopted, would implement statutory requirements to provide new rights for in-market stations to assert nonduplication and exclusivity rights, potentially increasing the number of filings pursuant to these rules. No changes to §§ 76.124 and 76.127 are proposed.

Title: SHVERA Rules; Implementation of Section 210 of the Satellite Home Viewer Extension and Reauthorization Act of 2004 (Broadcast Signal Carriage Issues, Retransmission Consent Issues).

Form Number: Not applicable.

Respondents: Business or other for-profit entities.

Number of Respondents: 7,179.

Estimated Time Per Response: 1–5 hours.

Total Annual Costs: \$30,000.

Needs and Uses: On April 29, 2005, the Commission adopted a Notice of Proposed Rule Making (NPRM), *In the Matter of the Implementation of Section 210 of the Satellite Home Viewer Extension and Reauthorization Act of 2004 to Amend Section 338 of the Communications Act*, MB Docket No. 05–181, FCC 05–92. The NPRM proposed amendments to 47 CFR 76.66 to implement section 210 of the Satellite Home Viewer Extension and

Reauthorization Act of 2004 ("SHVERA"). Section 210 of the SHVERA amends section 338(a) of the Communications Act of 1934, as amended, ("Communications Act" or "Act"). Section 338 governs the carriage of local television broadcast stations by satellite carriers. In general, the SHVERA amends this section to require satellite carriers to carry both the analog and digital signals of television broadcast stations in local markets in noncontiguous States (including Alaska and Hawaii), and to provide these signals to substantially all of their subscribers in each station's local market by December 8, 2005 for analog signals and by June 8, 2007 for digital signals.

On March 28, 2005, the Commission adopted an Order, FCC 05–81, *Implementation of the Satellite Home Viewer Extension and Reauthorization Act of 2004* ("SHVERA"), Procedural Rules, to implement procedural rules as required by the SHVERA. The SHVERA is the third statute that addresses satellite carriage of television broadcast stations. The 2004 SHVERA gives satellite carriers the additional option to carry Commission-determined "significantly viewed" out-of-market signals to subscribers. The SHVERA requires the Commission to undertake several proceedings to implement new rules, revise existing rules, and conduct studies. The Procedural Rules Order to implement sections 202, 205, and 209 of the SHVERA is one of a number of Commission proceedings that will be required to implement the SHVERA.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–XXXX.
Title: Section 74.786, Digital Channel Assignments; Section 74.787, Digital Licensing; Section 74.790, Permissible Service of Digital TV Translator and Low Power TV (LPTV) Stations; Section 74.794, Digital Emissions, and Section 74.796, Modification of Digital Transmission Systems and Analog Transmission Systems for Digital Operation.

Form Number: Not applicable.

Type of Review: New collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions; State, local or tribal government.

Number of Respondents: 8,433.

Estimated Time per Response: 30 minutes–4 hours.

Frequency of Response: Recordkeeping requirement; One-time reporting requirement; Third party disclosure requirement.

Total Annual Burden: 55,417 hours.

Total Annual Cost: \$95,734,200.

Privacy Impact Assessment: No impact(s).

Needs and Uses: The Commission adopted rules in a *Report and Order (R&O)* in MB Docket No. 03–185, FCC 04–220, adopted September 9, 2004, and released September 30, 2004. This document established rules and policies for digital low power television (LPTV) and television translator (TV Translator) stations and modifies certain rules applicable to digital Class A TV stations (Class A). The Commission also imposes Paperwork Reduction Act (PRA) burdens aimed at minimizing the opportunity for interference and continuing to offer the public the highest quality viewing services possible during the transition to digital television.

Section 74.786 requires an applicant for a new low power television translator digital station or for changes in the facilities of an authorized digital station shall endeavor to select a channel on which its operation is not likely to cause interference. The applications must be specific with regard to the channel requested. Only one channel will be assigned to each station. Stations proposed use of such channels shall notify all potentially affected 700 MHz wireless licensees not later than 30 days prior to the submission of their application.

Section 74.787 provides that mutually exclusive LPTV, TV translator, mutually exclusive, and mutually exclusive displacement relief applicants applying for construction permits for digital stations will be afforded that opportunity to submit in writing to the Commission, settlements and engineering solutions to resolve their situation.

Section 74.790 states that digital LPTV stations and TV translator station shall not retransmit the programs and signal of any TV broadcast or DTV broadcast station(s) without prior written consent of such station(s).

Section 74.794 requires licensees of digital LPTV and translator stations to retain with their station license a description of the low pass filter or equivalent device with the manufacture's rating or a report of measurements by a qualified individual.

Section 74.796 digital LPTV or TV translator station licensees to notify the Commission upon the completion of the transmitter modifications and shall certify compliance with all applicable

transmission system requirements and results of performance tests.
