Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: This program promotes academic achievement and improves results for children with disabilities by supporting technical assistance, model demonstration projects, dissemination of useful information, and implementation activities that are supported by scientifically based research.

Priority: In accordance with 34 CFR 75.105(b)(2)(v), this priority is from allowable activities specified in the

statute (see sections 663 and 681(d) of the Individuals with Disabilities Education Act (IDEA).

Absolute Priority: For FY 2005 this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

National Technical Assistance Center on Assessment for Children With Disabilities

Background of Priority: Federal and State education policies, including those based on the No Child Left Behind Act of 2001 (NCLB), call for the inclusion of students with disabilities in assessment and accountability programs in order to improve educational results for these students. A series of recent Federal policies and initiatives are expected to enhance the inclusion of students with disabilities in assessments and accountability. Among these are the Department's regulations in 34 CFR part 200 permitting alternate assessments based on alternate achievement standards for students with the most significant cognitive disabilities. In addition, on April 7, 2005, the Secretary announced the intent to provide additional flexibility that will allow States to develop modified academic achievement standards and use alternate achievement standards for students served under the IDEA who do not have the most significant cognitive disabilities, but who are not able to participate in the regular assessment, even with accommodations. The Department is also preparing a "Tool Kit" with information to help States improve instruction and assessments for students with disabilities. On June 3, 2005, the Department announced in the **Federal Register** (70 FR 32583) a competition to support Comprehensive Regional and Content Centers that will focus on helping States to implement NCLB and to build their capacity to assist LEAs and schools in implementing NCLB. The Content Centers, one of which will focus specifically on assessments and accountability, are intended to work primarily through the Regional Centers in providing technical assistance.

Statement of Priority: This priority supports one cooperative agreement for a Center to provide technical assistance on improving results for students with disabilities by increasing their participation rates in high quality assessment and accountability systems, improving the quality of assessments in which they participate, improving the capacity of States to meet data collection requirements, and

strengthening accountability for results. The Center must accomplish this mission through a combination of activities in the following areas: (1) Needs assessments and information gathering, (2) technical assistance and dissemination to improve the participation of students with disabilities in assessments and accountability systems, (3) technical assistance to improve the capacity of States to meet data collection requirements, (4) collaboration and leadership, and (5) other functions.

Activity Area (1): The Center's needs assessments and information gathering activities must include, but are not limited to:

(a) Conducting surveys of States and other entities to determine the status of the implementation of assessment and accountability policies related to students with disabilities;

(b) Analyzing State-reported assessment data to track the participation and performance of students with disabilities in large-scale assessments;

(c) Analyzing State and local policies and practices to determine the best approaches to improve the participation of students with disabilities in assessment and accountability systems;

(d) Synthesizing research information on relevant topics such as assessment accommodations, alternate assessments, data analysis and reporting, and other related areas; and

(e) Collecting research and technical information from the Technical Workgroup on Large Scale Assessment for Children with Disabilities, the National Alternate Assessment Center, the Research Institute on Progress Monitoring, research projects funded under the Research on Accessible Reading Assessments competition, and other federally funded projects as appropriate.

Activity Area (2): The Center's technical assistance and dissemination activities to improve the participation of students with disabilities in high-quality assessments and accountability systems must include, but are not limited to:

(a) Preparing and disseminating reports and documents on research findings and related topics;

(b) Maintaining a Web site with relevant information and documents in a format that meets a government or industry-recognized standard for accessibility;

(c) Conducting national and regional meetings and teleconferences, in collaboration with other centers such as the Federal and Regional Resource Centers and the Comprehensive

Regional and Content Centers, to assist SEAs and LEAs and other relevant audiences in continuing the implementation of assessment and accountability policies for students with disabilities;

(d) Working directly with States and other stakeholders in collaboration with the Comprehensive Regional and Content Centers to increase the participation of students with disabilities in State and local assessment and accountability systems, and improve the quality of assessment procedures;

(e) Disseminating information to specific audiences, including teachers, families, administrators, policymakers and researchers, in collaboration with other technical assistance providers, organizations, and researchers; and

(f) Collaborating with the Comprehensive Content Centers, particularly the Center on Assessment and Accountability, to assist the Comprehensive Regional Centers in providing technical assistance to States by supplying them with research-based information, products, guidance, analyses, and tools.

Activity Area (3): The Center's technical assistance activities to improve the capacity of States to meet data collection requirements must include, but are not limited to:

(a) Conducting needs assessments and analyzing State reports to evaluate the capacity of States to collect data on the participation and performance of students with disabilities on large-scale assessments and to identify areas requiring technical assistance;

(b) Collecting information on best practices for State data collection;

(c) Developing technical assistance materials and resources that can be used to evaluate and improve the capacity of States to collect data on the participation and performance of students with disabilities on large-scale assessments; and

(d) Delivering and evaluating technical assistance to States to improve their capacity to collect data on the participation and performance of students with disabilities on large-scale assessments. Specific attention must be given to States engaged in large-scale assessment planning or implementation projects funded under the Office of Special Education Programs' (OSEP) General Supervision Enhancement Grant (GSEG) competition.

Activity Area (4): The Center's collaboration and leadership activities must include, but are not limited to:

(a) Participating in a community or communities of practice related to the Center's mission. The community or

communities may include research experts, other federally funded projects (such as the Regional Resource Centers, the Federal Resource Center, the Center to Improve Access to the General Education Curriculum for Students with Disabilities at the Elementary and Middle School Levels, and the Comprehensive Regional and Content Centers), professional organizations (such as the National Association of State Directors of Special Education, the Council for Exceptional Children, and the Council of Chief State School Officers), and other projects and organizations (such as organizations representing parents or disability organizations); and

(b) Convening topical meetings, at the request of OSEP, to study issues and develop proactive recommendations for addressing challenges related to the participation of students with disabilities in assessment and accountability systems.

Activity Area (5): The Center must also:

(a) Develop a strategic plan and submit it to OSEP for review and approval. The plan must include, among other things, how the Center will collaborate with other Department of Education technical assistance centers, including the Comprehensive Regional and Content Centers. The plan must be revised and approved periodically as needed;

(b) Establish, maintain, and meet at least annually with a technical work group (TWG) to ensure that the highest standards of scientific rigor are maintained in the Center's work. Members of this TWG must be approved by OSEP and must include membership from the Technical Workgroup on Large Scale Assessment for Children with Disabilities and other research experts in the areas of large scale assessments, instructional improvement and reform, and instruction for students with disabilities;

(c) Establish, maintain, and meet at least annually with an advisory committee consisting of representatives of SEAs and LEAs, individuals with disabilities, parents, educators, professional organizations, advocacy groups, researchers, and other appropriate groups to review and advise on the Center's activities, accomplishments, and strategic plan. The committee must include membership that represents urban schools and underrepresented populations;

(d) Budget for three annual two-day meetings in Washington, DC to attend two Project Directors' meetings and an OSEP Leadership Conference; and

(e) Budget for at least one trip monthly to attend meetings organized by projects and organizations such as the Assessing Special Education Students State Collaborative on Assessment and Student Standards (ASES SCASS), the National Association of State Directors of Special Education, and Federal offices, on topics relevant to the Center's mission.

In deciding whether to continue this project for the fourth and fifth years, the Secretary will consider the requirements of 34 CFR 75.253(a), and in addition—

(a) The recommendation of a review team consisting of experts selected by the Secretary. The review will be conducted in Washington, DC during the last half of the project's second year. Applicants must budget for the travel associated with this one-day intensive review;

(b) The timeliness and effectiveness with which all requirements of the negotiated cooperative agreement have been or are being met by the Center; and

(c) The degree to which the Center is making a positive contribution to the participation of students with disabilities in State and local assessment and accountability systems.

a. *Electronic Submission of Applications.*

We have been accepting applications electronically through the Department's e-Application system since FY 2000. In order to expand on those efforts and comply with the President's Management Agenda, we are continuing

to participate as a partner in the new government wide Grants.gov Apply site in FY 2005. The National Technical Assessment Center on Assessment for Children with Disabilities-CFDA Number 84.326G is one of the competitions included in this project.

If you choose to submit your application electronically, you must use the Grants.gov Apply site at <http://www.Grants.gov>. You may not e-mail an electronic copy of a grant application to us.

You may access the electronic grant application for The National Technical Assessment Center on Assessment for Children with Disabilities at: <http://www.grants.gov>. You must search for the downloadable application package for this program by the CFDA number. Do not include the CFDA number's alpha suffix in your search.

Please note the following:

- Your participation in Grants.gov is voluntary.

- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation.

- Applications received by Grants.gov are time and date stamped. Your application must be fully uploaded and submitted, and must be date/time stamped by the Grants.gov system no later than 4:30 p.m., Washington, DC time, on the application deadline date. Except as otherwise noted in this section, we will not consider your application if it is date/time stamped by the Grants.gov system later than 4:30 p.m., Washington, DC time, on the application deadline date. When we retrieve your application from Grants.gov, we will notify you if we are rejecting your application because it was date/time stamped by the Grants.gov system after 4:30 p.m., Washington, DC time, on the application deadline date.

- The amount of time it can take to upload an application will vary depending on a variety of factors including the size of the application and the speed of your Internet connection. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the application process through Grants.gov.

- You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this competition to ensure that you submit your

Application Deadline Date Extension in Case of System Unavailability

If you are prevented from electronically submitting your application on the application deadline date because of technical problems with the Grants.gov system, we will grant you an extension until 4:30 p.m., Washington, DC time, the following business day to enable you to transmit your application electronically, or by hand delivery. You also may mail your application by following the mailing instructions as described elsewhere in this notice. If you submit an application

after 4:30 p.m., Washington, DC time, on the deadline date, please contact the person listed elsewhere in this notice under **FOR FURTHER INFORMATION CONTACT**, and provide an explanation of the technical problem you experienced with Grants.gov, along with the Grants.gov Support Desk Case Number (if available). The Department will contact you after a determination is made on whether your application will be accepted.

Note: Extensions referred to in this section apply only to the unavailability of or technical problems with the Grants.gov system.
