## II. Background

EPA is announcing the availability of a draft schedule for the registration review of pesticides. To develop the draft schedule, EPA used procedures described in proposed procedural regulations for the registration review of pesticides published in the **Federal Register** of July 13, 2005 (70 FR 40251).

The draft schedule is, in effect, a model schedule which shows how the Agency could sequence pesticide reviews to meet the goal of reviewing each pesticide's registration every 15 years. As explained in the proposed rule, EPA plans to issue a registration review schedule after completing the final registration review rule, and then update the schedule annually.

The Agency has placed the draft schedule in the docket for the proposed procedural regulations for the registration review of pesticides, OPP-2004-0404. You may electronically access the draft schedule and the proposed procedural regulations from the Agency's E-docket at <http://www.epa.gov/edocket/>.

EPA is making the draft schedule available to assist the public in its review of the proposed procedural regulations for the registration review of pesticides. This notice provides additional information that can be considered when reviewing the proposed regulations, but does not impact the public comment period on the proposed procedural regulations for the registration review of pesticides that ends on October 11, 2005. Although the Agency is not seeking comment on the draft schedule, you may include comments on the draft schedule in your comments on the proposed procedural regulations for the registration review of pesticides. Instructions for submitting comments on the proposed regulations are provided in the **Federal Register** notice of July 13, 2005 (70 FR 40251).

EPA issued the proposed regulations for the registration review of pesticides under section 3(g) of FIFRA. The statute requires EPA to establish regulations for the periodic review of pesticides to assure that each pesticide registration continues to satisfy the FIFRA standard for registration. The goal is to review each pesticide every 15 years. The registration review program will replace the tolerance reassessment program and the reregistration program as the Agency's means for systematically reviewing existing pesticides.

##### 47 CFR Part 73

[DA 05–2215; MB Docket No. 05–246; RM–11263]

##### Radio Broadcasting Services; Meyersville and San Antonio, TX

**AGENCY:** Federal Communications Commission.

**ACTION:** Proposed rule.

**SUMMARY:** This document requests comments on a Petition for Rule Making filed by Charles Crawford requesting the allotment of Channel 261A at Meyersville, Texas, as that community’s

first local aural transmission service. To accommodate this allotment, Petitioner requests the reclassification of FM Station KCY Y, Channel 262C, San Antonio, Texas, to specify operation on Channel 262C0 pursuant to the reclassification procedures adopted by the Commission. *See 1998 Biennial Regulatory Review—Streamlining of Radio Technical Rules in Parts 73 and 74 of the Commission’s Rules*, 65 FR 79773 (December 20, 2000). In response to an Order to Show Cause why Station KCY Y should not be downgraded from Channel 262C to 262C0, the licensee of FM Station KCY Y stated that it would file an application meeting minimum Class C FM standards within the period required by our rules. Since such an application has not been filed, the Commission proposes to reclassify Station KCY Y to Class C0. Channel 261A can be allotted with a site restriction 2.0 kilometers (1.2 miles) southwest of Meyersville, at reference coordinates 28–54–58 NL and 97–19–37 WL. To accommodate the proposed allotment, the Commission proposes the reclassification of FM Station KCY Y to specify operation on Channel 262C0.

**DATES:** Comments must be filed on or before September 19, 2005, and reply comments on or before October 4, 2005. Any counterproposal filed in this proceeding need only protect FM Station KCY Y, San Antonio, Texas, as a Class C0 allotment.

**ADDRESSES:** Federal Communications Commission, 445 Twelfth Street, SW., Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner as follows: Charles Crawford, 4553 Bordeaux Avenue, Dallas, Texas 75205.
