II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. Nasdaq has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Nasdaq is proposing to provide members the ability to use the execution

services of the Nasdaq Market Center to report trades in exchange-listed securities that were matched outside of any system operated by a self-regulatory organization. Currently, Nasdaq members' ability to use the order execution service to report matched trades is limited to trades in Nasdaq National Market and SmallCap Market securities, convertible bonds listed on Nasdaq, and other reportable securities identified in the NASD Rule 6100 Series.⁷

Under Nasdaq's proposal, matched trades in exchange-listed securities that are reported through the execution services of the Nasdaq Market Center will be transmitted to the trade reporting service and processed in the same manner as information about matched trades in Nasdaq and other eligible securities submitted to that system. For example, trade information will be disseminated on the consolidated tape, and included in the reporting service's risk management calculations and Nasdaq's audit trail. In addition, the trades will be submitted to the National Securities Clearing Corporation ("NSCC") for clearing, if necessary. Trades in exchange-listed securities reported through the order execution service will not be included in the execution algorithm, and thus will not interact with any Quotes/Orders in the system.

Under this rule change, members will not be permitted to report through the execution services of the Nasdaq Market Center trades in exchange-listed securities for which comparison is necessary. As is the case for trades in Nasdaq and other eligible securities, the order execution service will accept only: (1) Tape only reports;⁸ (2) locked-in clearing only reports;⁹ (3) tape reports of

⁷ A detailed description of how matched trades in Nasdaq and other eligible securities are reported through the execution services of the Nasdaq Market Center is contained in Securities Exchange Act Release No. 49733 (May 19, 2004), 69 FR 29990 (May 26, 2004) (SR-NASD-2004-034). The reporting of matched trades in exchange-listed securities proposed in this rule change is intended to operate in the same manner.

⁸ A "tape only report" is a trade that is reported to Nasdaq for dissemination to the public, but the trade does not need to be transmitted to NSCC because one of the parties to the trade is a customer (*i.e.*, not a broker-dealer), or the buyer and seller both are broker-dealers and they have a common clearing arrangement that will enable them to settle the trade without using NSCC's facilities.

⁹ A transaction is "locked-in" when the buying and selling broker-dealers have agreed to all the trade details prior to submitting the trade to Nasdaq and no further comparison is necessary. A "locked-in clearing only report" is a report that is locked-in and Nasdaq must forward the trade to NSCC for settlement. The trade does not have to be disseminated to the public because an exception to the public reporting requirement is applicable (*e.g.*,

locked-in trades that are to be submitted to clearing;¹⁰ and (4) non-tape, non-clearing reports.¹¹ Members will be able to report trades through the execution services of the Nasdaq Market Center during the hours that the trade reporting service is operational, which presently is 8 a.m. until 6:30 p.m. Eastern time.

By extending this functionality to reporting of matched trades in exchange-listed securities, members will be able to take advantage of several benefits that previously were limited to reporting matched trades in Nasdaq and other eligible securities. For example, it will be possible for members to consolidate the reporting and execution systems for a broader range of trades. In addition, members will be able to take advantage of the existing anonymity feature available in the order execution service by utilizing it for trades transmitted to the trade reporting service, and combine it with the benefits of "give up" relationships, also available to members today in both the order execution and trade reporting services of the Nasdaq Market Center.¹² As a result, members will be able to give up the true contra parties to a trade in exchange-listed securities, but still preserve full anonymity between these parties.

2. Statutory Basis

Nasdaq believes that the proposed rule change, as amended, is consistent with the provisions of Section 15A of the Act,¹³ in general and with Section 15A(b)(6) of the Act,¹⁴ in particular, in that it is designed to foster coordination and cooperation with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities. The proposal is consistent with this obligation because it will provide members both the opportunity

the transaction is the offsetting leg of a riskless principal trade).

¹⁰ A "tape report of a locked-in trade that is submitted for clearing" is a locked-in report of a trade that must be disseminated to the public and settled through NSCC.

¹¹ A "non-tape, non-clearing report" is a report of trade that is not required to be disseminated to the public, and does not need to be transmitted to NSCC for settlement, but the broker-dealer is obligated or chooses to submit this "regulatory report" to Nasdaq. See *e.g.*, NASD Rule 4632(d)(3)(B) and Notice to Members 00-79.

¹² When a "give up" occurs, the member that submits the order to the order execution service (or the trade report to the trade reporting service) discloses to the contra party that the order (or report) is being entered on behalf of another member and the trade is to be settled with this other member. The member submitting the order (or trade report) has "given up" the identity of the other member who is the true party to the trade.

to consolidate the execution and reporting of a wider range of trades, and will extend the combined benefits of give-up relationships and anonymous trading to reporting of matched trades in exchange-listed securities.

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change, as amended, will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change, as amended, has become effective upon filing pursuant to Section 19(b)(3)(A)(iii) of the Act¹⁵ and Rule 19b-4(f)(5)¹⁶ thereunder in that it effects a change in an existing order execution system of Nasdaq that does not significantly affect the protection of investors or the public interest, does not impose any significant burden on competition, and it does not have the effect of limiting the access to or availability of the system. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.¹⁷

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change, as amended, is consistent with the Act. Comments may be submitted by any of the following methods:

¹⁵ 15 U.S.C. 78s(b)(3)(A)(iii).

¹⁶ 17 CFR 240.19b-4(f)(5).

¹⁷ The effective date of the original proposed rule is August 26, 2005. The effective date of Amendment No. 1 is August 31, 2005. For purposes of calculating the 60-day period within which the Commission may summarily abrogate the proposed rule change under Section 19(b)(3)(C) of the Act, the Commission considers the period to commence on August 31, 2005, the date on which Nasdaq submitted Amendment No. 1. See 15 U.S.C. 78s(b)(3)(C).

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-52377; File No. SR-NASD-2005-051]

Self-Regulatory Organizations; National Association of Securities Dealers, Inc.; Order Approving Proposed Rule Change To Create an Enterprise License Fee for the TotalView Entitlement

September 2, 2005.

I. Introduction

On April 13, 2005, the National Association of Securities Dealers, Inc. ("NASD"), through its subsidiary, The Nasdaq Stock Market, Inc. ("Nasdaq"), filed with the Securities and Exchange Commission ("Commission") a proposed rule change pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² to create an enterprise license fee for the TotalView entitlement. On June 3, 2005, Nasdaq amended the proposed rule change. The proposed rule change, as modified by Amendment No. 1, was published for comment in the **Federal Register** on June 28, 2005.³ The Commission received one comment letter on the proposal.⁴ On August 16, 2005, Nasdaq filed a response to the comment letter.⁵ This order approves the proposed rule change, as amended.

II. Description of the Proposal

Nasdaq proposes to establish a program whereby a broker-dealer distributor could obtain an enterprise license for the distribution of the TotalView market data entitlement for a fixed cost of either \$25,000 per month for non-professional subscribers or of \$100,000 per month for broker-dealer distributors that serve both non-professional and professional subscribers. This enterprise license pricing structure would mirror the pricing structure already established for individual professional and non-professional subscribers and is an alternative way to pay for the data.
