In order to reduce burden on informants, the outcome evaluation will focus on a sample of States and

Territories (the 19 States and Territories participating in the last two Policy Academies on Chronic Homelessness and the three Pacific Territories).

Data collection will be conducted over a 12-month period and will include both telephone interviews and site visits. Data collection instruments are semi-structured and will be administered by trained evaluation staff. Telephone interviews will be conducted with state team leaders and other team members. During site visits, in-person

interviews will be conducted with team leaders, other team members, and other stakeholders. Both telephone and in-person interview protocols have been adapted to reflect the slightly different Policy Academy process used in the Pacific Territories and to reflect the different needs, funding sources, resources, and service systems in these territories.

The estimated annual response burden to collect this information is as follows:

Instrument	Number of respondents	Responses/ respondent	Burden/ response (hrs)	Annual burden (hrs)
<b>Telephone Interviews (Process Evaluation)</b>				
Team Leader Interview .....	*80	1	2	160
Other Team Member Interview .....	64	1	1.5	96
<b>In-Person Interviews (Outcome Evaluation)</b>

Other Team Member Interview .....	154	1	1.5	231
Other Stakeholder Interview .....	110	1	1.5	165
Total Annual .....	448	.....	.....	732
