DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CO-134-1610-DQ]

Notice of Call for Nominations for the McInnis Canyons National Conservation Area (NCA) Advisory Council

AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management (BLM) is requesting nominations for ten membership positions on the McInnis Canyons National Conservation Area Advisory Council. The Council advises the Secretary and the BLM on resource management issues associated with the McInnis Canyons NCA and Black Ridge Canyons Wilderness.

DATES: Submit a completed nomination form and nomination letters to the address listed below no later than October 14, 2005.

ADDRESSES: Send completed nominations to: McInnis Canyons NCA Manager, Grand Junction Field Office, Bureau of Land Management, 2815 H Road, Grand Junction, CO 81506.

FOR FURTHER INFORMATION CONTACT: Paul Peck, NCA Manager, (970) 244-3049, paul_peck@co.blm.gov.

SUPPLEMENTARY INFORMATION: Any individual or organization may nominate one or more persons to serve on the McInnis Canyons NCA Advisory Council. Individuals may nominate themselves for Council membership. You may obtain nomination forms at the BLM Grand Junction Field Office, or by contacting the McInnis Canyons NCA Manager (see **ADDRESSES** and **FOR FURTHER INFORMATION CONTACT** above).

To make a nomination, you must submit a completed nomination form, letters of reference from the represented interests or organizations, as well as any other information that speaks to the nominee's qualifications to the McInnis Canyons NCA Manager, Grand Junction Field Office, address listed above. You may make nominations for the following categories of interest:

(1) A member of, or nominated by, the Mesa County Board of County Commissioners.

(2) A member of, or nominated by, the Northwest Colorado Resource Advisory Council.

(3) A member nominated by the permittees holding grazing allotments within the NCA or the Black Ridge Canyons Wilderness.

(4) Seven members residing in, or within reasonable proximity to, Mesa County, Colorado, with recognized backgrounds reflecting—

(A) The purposes for which the NCA or Wilderness was established; and

(B) The interests of the stakeholders that are affected by the management of the NCA and Wilderness.

The specific category the nominee would like to represent should be identified in the letter of nomination and on the nomination form. The McInnis Canyons NCA—Grand Junction Field Office will collect the nomination forms and letters of reference, and distribute them to the officials responsible for reviewing and recommending nominations (Board of County Commissioners—Mesa County, the Northwest Colorado Resource Advisory Council, and the BLM). The BLM will then forward recommended nominations to the Secretary of the Interior who has responsibility for making the final decision to appoint individual appointments.

The purpose of the McInnis Canyons NCA Advisory Council is to advise the BLM on the management of the McInnis Canyons NCA and Black Ridge Canyons Wilderness. Each member will be a person who, as a result of training and experience, has knowledge or special expertise which qualifies that individual to provide advice from among the categories of interest listed above. Members will serve without monetary compensation but will be reimbursed for travel and per diem expenses at current rates for Government employees.

Paul Peck,

Manager, McInnis Canyons National Conservation Area.

SUPPLEMENTARY INFORMATION: Title: 30 CFR Part 216—Production Accounting, Subpart A—General Provisions, and Subpart B—Oil and Gas, General; and Part 210—Forms and Reports (Forms MMS-4054, Oil and Gas Operations Report, and MMS-4058, Production Allocation Schedule Report).

OMB Control Number: 1010-0139.

Bureau Form Number: Forms MMS-4054 and MMS-4058.

Abstract: The Secretary of the U.S. Department of the Interior is responsible for collecting royalties from lessees who produce minerals from leased Federal and Indian lands. The Secretary is required by various laws to manage

mineral resources production on Federal and Indian lands, collect the royalties due, and distribute the funds in accordance with those laws.

The Secretary also has a trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. The MMS performs the royalty management functions and assists the Secretary in carrying out the Department's trust responsibility for Indian lands.

When a company or an individual enters into a lease to explore, develop, produce, and dispose of minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share (royalty) of the value received from production from the leased lands. The lease creates a business relationship between the lessor and the lessee. The lessee is required to report various kinds of information to the lessor relative to the disposition of the leased minerals. Such information is similar to data reported to private and public mineral interest owners and is generally available within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling of such minerals. The information collected includes data necessary to ensure that the royalties are accurately valued and appropriately paid.

The MMS financial accounting system is an integrated computer system that includes production reports submitted by lease/agreement operators and is designed to track minerals produced from Federal and Indian lands from the point of production to the point of disposition, or royalty determination, and/or point of sale. The financial accounting system also includes payment and sales volumes and values, as reported by payors. The production and royalty volumes are compared to verify that proper royalties are received for the minerals produced.

The production reports provide MMS with ongoing information on lease, unit, or communitization agreement (lease/agreement) and facility production, sales volumes, and inventories. The reports summarize all operations on a lease/agreement or facility during a reporting period. They identify production by the American Petroleum Institute well number and sales by product. Data collected are used as a method of cross-checking reported production with reported sales. Failure to collect this information will prevent MMS from ensuring that all royalties owed on lease production are accurately valued and appropriately paid. Additionally, the data is shared electronically with the Bureau of Land

Management, MMS's Offshore Minerals Management, Bureau of Indian Affairs, and tribal and state governments so they can perform their lease management responsibilities. The requirement to report accurately and timely is mandatory.

Form MMS-4054, Oil and Gas Operations Report (OGOR)

This three-part form, submitted monthly, identifies all oil and gas lease production and dispositions. The form is used for all production reporting for Outer Continental Shelf, Federal and Indian lands. Monthly production information is compared with monthly sales and royalty data submitted on Form MMS-2014, Report of Sales and Royalty Remittance (OMB Control Number 1010-0140, expires October 31, 2006) to ensure proper royalties are paid on the oil and gas production reported to MMS. To modify previously submitted reports, the operator has the option of modifying the reporting line (delete/add by detail line) or replacing (overlying) the previous report. The MMS uses the information from Parts A, B, and C of the OGOR to track all oil and gas from the point of production to the point of first sale or other disposition.

OGOR Part A—Well Production. All operators submit Part A for each lease or agreement with active wells until such wells are abandoned and inventories are disposed. Each line identifies a well/producing interval combination showing well status; days on production; volumes of oil, gas, and water produced; and any volumes injected during the report month.

OGOR Part B—Product Disposition. For any month with production volumes, operators submit Part B to identify the sales, transfers, and lease use of production reported on Part A. A separate line for each disposition shows: (1) The volume of oil, gas, or water; (2) the sales meter or other meter identifier; (3) the gas plant for instances where gas was processed prior to royalty determination; and (4) the quality of production sold.

OGOR Part C—Product Sales from Facility. The lease operators who store their production before selling it must submit Part C. Separate lines for each product identify the storage facility, sales meter if applicable, quality of production sold, beginning and ending storage inventory, volume of sales, and volumes of other gains and losses to inventory.

Form MMS-4058, Production Allocation Schedule Report (PASR)

This form is submitted monthly by operators of the facilities and

measurement points where production from an offshore lease or metering point is commingled with production from other sources before it is measured for royalty determination.

Each line identifies a lease or metering point and allocated sales or transferred volumes. Space is provided on each detail line for the operator's property name (area/block), and a column is provided to identify the product that was injected into the pipeline system. To modify previously submitted reports, the operator has the option of modifying (delete/add by detail line) or replacing (overlying) the previous report. The MMS uses the data to determine whether sales reported by the lessee are reasonable.

Frequency: Monthly and as required.

Estimated Number and Description of Respondents: 2,500 oil and gas operators.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: 76,631 hours.

We are revising this ICR to include reporting requirements that were overlooked in the previous renewal (§§ 216.2 and 216.30), and we have adjusted the burden hours accordingly. These reporting requirements are considered rare and/or unusual circumstances.

The following chart details the estimated burden hours by CFR section and paragraph. In calculating the burdens, we assume that respondents perform certain requirements in the

normal course of their business usual and customary, and took that into
activities. Therefore, we consider these account in estimating the burden.

Estimated Annual Reporting and Recordkeeping "Non-hour" Cost Burden: Reporters require access to the Internet through a subscription to an Internet provider service. The annual subscription is estimated at \$240 per reporter.

Public Disclosure Statement: The PRA (44 U.S.C. 3501 *et seq.*) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Comments: Before submitting an ICR to OMB, PRA Section 3506(c)(2)(A) requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *." Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting "non-hour cost" burden to respondents or recordkeepers resulting from the collection of information. We have not identified non-hour cost burdens for this information collection. If you have costs to generate, maintain, and disclose

this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information; monitoring, sampling, and testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you without charge upon request. The ICR also will be posted on our Web site at http://www.mrm.mms.gov/Laws_R_D/FRNotices/FRInfColl.htm.

Public Comment Policy: We will post all comments in response to this notice on our Web site at http://www.mrm.mms.gov/Laws_R_D/FRNotices/FRInfColl.htm. We also will make copies of the comments available for public review, including names and addresses of respondents, during regular

business hours at our offices in Lakewood, Colorado. Upon request, we will withhold an individual respondent's home address from the public record, as allowable by law. There also may be circumstances in which we would withhold a respondent's identity, as allowable by law. If you request that we withhold your name and/or address, state your request prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.
