

The goal of this project is to make Korea the 3rd largest producer of semiconductors by 2012. The project is structured in three stages to be implemented over the period 1998–2011. Phase One of the project targets development of core technology research. Phase Two concentrates on intellectual property integration, high speed performance, and leading chipsets. Phase Three will develop new core technology.

The System IC project is applicable only to semiconductor development. Participants must contribute 50 percent of the total budget, and matching funds are provided through COSAR. The amount contributed by COSAR is repaid by the applicant once the research is successfully completed. *See* GOK's June 8, 2005, Supplemental Response at 4–6, 8; *see also* Hynix's June 1, 2005 Supplemental Response at Exhibit 50.

Hynix submitted a research plan to COSAR in September 2003 regarding ferroelectric random access memory semiconductors ("FeRAMs"). This project is set to end in August 2007. Hynix has received funds under the System IC Project to support its research. These funds have not been repaid because Hynix's project is still ongoing. *See* Hynix's June 1, 2005, Supplemental Response at Exhibit 50.

Hynix states that FeRAM are non-subject merchandise. Hynix explains, moreover, that FeRAMs are produced in its "System IC" segment, whereas DRAMS are produced in the company's "memory" segment. The former segment produces applied products that are unrelated to memory semiconductors such as DRAMS and SRAMS. According to the response, the production processes for the memory products and the applied (non-memory) products are completely different. Hynix further argues that the nature and goals of the project, as evidenced by Hynix's research/business plan submitted to COSAR, are solely for the development of FeRAMs, *i.e.*, non-subject merchandise. *See* Hynix's July 12, 2005, Supplemental Response at Exhibit 16.1. In addition, the contract between Hynix and COSAR clearly limits governmental support to development of FeRAMs.

Based on the information provided, we preliminarily determine that any benefits provided to Hynix under the System IC 2010 Project are tied to non-subject merchandise in accordance with 19 CFR 351.525(b)(5). Therefore, we preliminarily determine that Hynix did not receive any countervailing benefits under this program during the POR.

### Preliminary Results of Review

In accordance with 19 CFR 351.221(b)(4)(i), we calculated an individual subsidy rate for Hynix Semiconductor, Inc., the producer/exporter covered by this administrative review. We preliminarily determine that the total estimated net countervailable subsidy rate for Hynix Semiconductors for calendar year 2003 is 60.74 percent *ad valorem*.

If the final results of this review remain the same as these preliminary results, the Department intends to instruct CBP, within 15 days of publication of the final results of this review, to liquidate shipments of DRAMS by Hynix entered or withdrawn from warehouse, for consumption from April 7, 2003, through December 31, 2003, at 60.74 percent *ad valorem* of the F.O.B. invoice price. We will instruct CBP to take into account the "provisional measures cap" in accordance with 19 CFR 351.212(d). In addition, for April 7, 2003, through December 31, 2003, the assessment rates applicable to all non-reviewed companies covered by this order are the cash deposit rates in effect at the time of entry.

The Department also intends to instruct the CBP to collect cash deposits of estimated countervailing duties at 60.74 percent *ad valorem* of the F.O.B. invoice price on all shipments of the subject merchandise from Hynix, entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this administrative review.

We will instruct CBP to continue to collect cash deposits for non-reviewed companies covered by this order at the most recent company-specific rate applicable to the company. Accordingly, the cash deposit rate that will be applied to non-reviewed companies covered by this order will be the rate for that company established in the investigation. *See Notice of Amended Final Affirmative Countervailing Duty Determination: Dynamic Random Access Memory Semiconductors from the Republic of Korea*, 68 FR 44290 (July 28, 2003). The "all others" rate shall apply to all non-reviewed companies until a review of a company assigned this rate is requested. The Department has previously excluded Samsung Electronics Co., Ltd. from this order. *Id.*

### National Oceanic and Atmospheric Administration

[I.D. 090205B]

### Large Coastal Shark 2005/2006 Stock Assessment Data Workshop

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notification of workshop.

**SUMMARY:** NMFS announces the time and location for the large coastal shark (LCS) stock assessment data workshop, the first of three workshops for the LCS stock assessment to be conducted in 2005/2006.

**DATES:** The data workshop will start at 1 p.m. on Monday, October 31, 2005, and will conclude at 1 p.m. on Friday, November 4, 2005.

**ADDRESSES:** The Data workshop will be held at the Bay Point Marriott Resort, 4200 Marriott Drive, Bay Point, FL 32408.

**FOR FURTHER INFORMATION CONTACT:** Julie Neer at (850) 234–6541; or Karyl Brewster-Geisz at (301) 713–2347, fax (301) 713–1917.

**SUPPLEMENTARY INFORMATION:** The Atlantic shark fisheries are managed under the authority of the Magnuson-Stevens Fishery Conservation and

Management Act. The Fishery Management Plan for Atlantic HMS (HMS FMP) is implemented by regulations at 50 CFR part 635.

Stock assessments are periodically conducted to determine stock status relative to current management criteria. Collection of the best available scientific data and conducting stock assessments are critical to determine appropriate management measures for rebuilding stocks. Based on the last LCS stock assessment in 2002, NMFS determined that the LCS complex is overfished and overfishing is occurring. LCS are currently under a 26-year rebuilding plan. Potential changes to existing management measures will be based, in large part, on the results of this 2005/2006 stock assessment.

This assessment will be conducted in a manner similar to the Southeast Data, Assessment, and Review (SEDAR) process. SEDAR is a cooperative process initiated in 2002 to improve the quality and reliability of fishery stock assessments in the South Atlantic, Gulf of Mexico, and U.S. Caribbean. SEDAR emphasizes constituent and stakeholder participation in assessment development, transparency in the assessment process, and a rigorous and independent scientific review of completed stock assessments. SEDAR is organized around three workshops. The first is a data workshop where datasets are documented, analyzed, and reviewed, and data for conducting assessment analyses are compiled. The second is an assessment workshop where quantitative population analyses are developed and refined and population parameters are estimated. The third and final is a review workshop where a panel of independent experts reviews the data and assessment and recommends the most appropriate values of critical population and management quantities. All workshops are open to the public. More information on the SEDAR process can be found at <http://www.sefsc.noaa.gov/sedar/>.

NMFS announces the data workshop, the first of three workshops for the LCS 2005/2006 stock assessment, which will be held from October 31 - November 4, 2005, at the Bay Point Marriott Resort in Panama City, FL (see **DATES** and **ADDRESSES**). Prospective participants and observers will be contacted with the data workshop details. This workshop is open to the public. Persons interested in participating or observing the Data workshop should contact Julie Neer (see **FOR FURTHER INFORMATION CONTACT**). The next two workshops will be held at a later date. The time and locations of

these workshops will be announced in a **Federal Register** notice.

### Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Julie Neer at (850) 234-6541, at least 7 days prior to the Data workshop.
