Executive Order 13132—Federalism

Executive Order 13132, entitled “Federalism,” dated August 10, 1999 (64 FR 43255), requires the EPA to develop an accountable process to ensure “meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications.” The phrase “policies that have federalism implications” is defined in the Executive Order to include regulations that have “substantial direct effects on States, on the relationship between the National Government and States, or on the distribution of power and responsibilities among the various levels of government.” This action does not have federalism implications. It will not have any substantial direct effects on the states, on the relationship between States and the National Government, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132. It will merely put in place a state regulatory program that is identical to the existing federal program.

Executive Order 13211—Energy Effects

Because it is not a “significant regulatory action” under Executive Order 12866, this action is not subject to Executive Order 13211, “Actions Concerning Regulations that Significantly Affect Energy Supply, Distribution, or Use,” 66 FR 28355 (May 22, 2001).

GENERAL SERVICES ADMINISTRATION

Notice of a Deviation; Motor Vehicle Management

AGENCY: Office of Governmentwide Policy, General Services Administration (GSA).

ACTION: Notice of a deviation.

SUMMARY: This notice announces that the General Services Administration (GSA), Office of Governmentwide Policy (M), is granting a deviation from section 102-34.335 of the Federal Management Regulation (FMR) (41 CFR 102-34.335) to all agencies whose purchase of gasoline for motor vehicles has been impacted by Hurricane Katrina. This deviation will allow Federal agencies to purchase premium gasoline for government owned and leased vehicles when lower grade gasoline is not available. This deviation can be found at www.gsa.gov/vehiclepolicy and clicking on "Deviation from 41 CFR 102-34.335".

DATES: The deviation announced in this notice is effective September 8, 2005.

FOR FURTHER INFORMATION CONTACT: For clarification of content, contact General Services Administration, Office of Governmentwide Policy, Office of Travel, Transportation and Asset Management, at (202) 501-1777 and cite

the deviation regarding motor vehicle management dated September 8, 2005.

SUPPLEMENTARY INFORMATION:

A. Background

Federal Management Regulation (FMR) section 102-34.335 (41 CFR 102-34.335) prohibits the use of premium grade gasoline in any motor vehicle owned or leased by the Government unless the motor vehicle specifically requires premium grade gasoline. This section states that drivers are to use the grade (octane rating) of gasoline recommended by the motor vehicle manufacturer when fueling motor vehicles owned or leased by the Government.

As a result of the catastrophic destruction caused by Hurricane Katrina, agencies have reported that their vehicles operators are unable to purchase lower octane gasoline for their vehicles to complete their missions. In many areas, agencies have only been able to procure premium gasoline for use in their motor vehicles. The original intent of section 102-34.335 was to reduce fuel costs and eliminate the unnecessary use of premium gasoline in vehicles capable of being operated on lower grade gasoline.

B. Procedures

This deviation is located on the Internet at www.gsa.gov/vehiclepolicy and clicking on "Deviation from 41 CFR 102-34.335".

Dated: September 12, 2005.
