Title: NSPS for Polymeric Coating of Supporting Substrates Facilities (40 CFR part 60, subpart VVV) (Renewal).

Abstract: New Source Performance Standards (NSPS) subpart VVV applies to each coating operation and any onsite mix preparation equipment used to prepare coating for the polymeric coating of supporting substrates, that commences construction, modification or reconstruction after April 30, 1987. The rule establishes standards for volatile organic compound (VOC) use, emission reduction limits, and for capture and recovery of VOC emissions. The monitoring and recordkeeping requirements include: maintain records of startups, shutdowns, malfunctions, periods where the continuous monitoring system is inoperative 60.7(b), and of all measurements including performance test measurements, operating parameters of monitoring device results for catalytic or thermal incinerator, carbon adsorption system, condensation system, vapor capture system and/or total enclosure 60.744(c-h); and monitor actual 12-month volatile organic compounds (VOC) use and make semiannual estimate of projected VOC use, if affected facility uses less than 95 Mg/year of VOC or is subject to provisions specified in § 60.742(c)(3) and other information required by this part recorded in a file suitable for inspection. The recordkeeping, monitoring and reporting requirements allow the regulatory agencies to determine compliance with the standard. One-time reports are required to identify the affected facilities and the compliance method used. Semiannual reports of compliance and quarterly reports of monitoring exceedances and periods of noncompliance are used to verify compliance. Annual reports of when an affected facility first exceeds a projected VOC use limit or the 12-month actual VOC limit are used to determine the applicable requirements. Since none of the required reports to the Agency have been deemed confidential business information, they will not be treated as such. Responses are mandatory (40 CFR part 60, subpart VVV).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15,

and are identified on the form and/or instrument, if applicable. The recordkeeping, notification and reporting requirements of the standard are critically important as they allow the Agency to determine to which facilities the standards apply and they enable the Agency to monitor initial and ongoing compliance with the standards. As much as possible, in order to reduce the burden, the compliance monitoring and recordkeeping requirements are designed to cover parameters that are already being monitored as part of the manufacturing process.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 83 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of facilities performing polymeric coating of supporting substrates.

Estimated Number of Respondents: 53.

Frequency of Response: Initial, on occasion, quarterly, semiannually, monthly, annually.

Estimated Total Annual Hour Burden: 12,623 hours.

Estimated Total Annual Costs: \$1,410,367, which includes \$48,500 annualized capital/startup costs, \$556,500 annual O&M costs, and \$805,367 annual labor costs.

Changes in the Estimates: There is a decrease of 1,743 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to a reduction in the estimate of shutdowns and malfunctions occurring annually, a correction in the number of reported respondents, and a recalculation of burden resulting from reporting activities.

Dated: January 25, 2005.

Oscar Morales,

Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[RCRA-2004-0013; FRL-7867-8]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Facility Ground-Water Monitoring Requirements (Renewal), EPA ICR Number 0959.12, OMB Control Number 2050-0033

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on January 31, 2005. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before March 7, 2005.

ADDRESSES: Submit your comments, referencing docket ID number RCRA-2004-0013, to (1) EPA online using EDOCKET (our preferred method), by e-mail to RCRA-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, RCRA Docket, mail code 5305T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Sara Rasmussen, Office of Solid Waste, mail code 5303W, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: 703-308-8399; fax number: 703-308-8617; e-mail address: rasmussen.sara@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the

procedures prescribed in 5 CFR 1320.12. On November 26, 2004 (69 FR 68898) EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received one comment in support of this information collection.

EPA has established a public docket for this ICR under Docket ID No. RCRA-2004-0013, which is available for public viewing at the RCRA Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the RCRA Docket is (202) 566-1744. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: Facility Ground-Water Monitoring Requirements (Renewal).

Abstract: This ICR examines the ground-water monitoring standards for permitted and interim status facilities at 40 CFR parts 264 and 265, as specified. The ground-water monitoring requirements for regulated units follow

a tiered approach whereby releases of hazardous contaminants are first detected (detection monitoring), then confirmed (compliance monitoring), and if necessary, are required to be cleaned up (corrective action). Each of these tiers requires collection and analysis of ground-water samples. Owners or operators that conduct ground-water monitoring are required to report information to the oversight agencies on releases of contaminants and to maintain records of ground-water monitoring data at their facilities. The goal of the ground-water monitoring program is to prevent and quickly detect releases of hazardous contaminants to groundwater, and to establish a program whereby any contamination is expeditiously cleaned up as necessary to protect human health and environment. Subtitle C of the Resource Conservation and Recovery Act of 1976 (RCRA) creates a comprehensive program for the safe management of hazardous waste. Section 3004 of RCRA requires owners and operators of facilities that treat, store, or dispose of hazardous waste to comply with standards established by EPA that are to protect the environment. Section 3005 provides for implementation of these standards under permits issued to owners and operators by EPA or authorized States. Section 3005 also allows owners and operators of facilities in existence when the regulations came into effect to comply with applicable notice requirements to operate until a permit is issued or denied. This statutory authorization to operate prior to permit determination is commonly known as "interim status." Owners and operators of interim status facilities also must comply with standards set under section 3004.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 118 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and

maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Entities that operate surface impoundments, waste piles, land treatment units, and landfills which manage hazardous waste regulated under RCRA.

Estimated Number of Respondents: 824.

Frequency of Response: Quarterly.

Estimated Total Annual Hour Burden: 96,913.

Estimated Total Annual Cost: \$24,015,000, which includes \$3,000 annual capital/startup costs, \$18,070,000 annual O&M costs and \$5,942,000 annual labor costs.

Changes in the Estimates: There is no increase of hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. There is a slight increase in cost due to inflation.

Dated: January 25, 2005.
