SUPPLEMENTARY INFORMATION:

Title: Cooperative State Research,
Education, and Extension Service

Application Kit for Research and
Extension Programs.

OMB Number: 0524-0039.

Expiration Date of Current Approval:
March 31, 2006.

Type of Request: Revise a currently
approved information collection.

Abstract: The Cooperative State
Research, Education, and Extension
Service (CSREES) sponsors ongoing
agricultural research, extension, and
education programs under which
competitive, special, and other awards
of a high-priority nature are made.
Before awards can be made, certain
information is required from applicants
as part of an overall proposal package.
In addition to project summaries,
descriptions of the research, extension,
or education efforts; literature reviews;
curricula vitae of project directors;
other, relevant technical aspects of the
proposed project; and supporting
documentation of an administrative and
budgetary nature also must be provided.

Because of the nature of the
competitive, peer-reviewed process, it is
important that information from
applicants be available in a
standardized format to ensure equitable
treatment. Each year, solicitations are
issued requesting proposals for various
research, education, and extension areas
targeted for support. Applicants submit
proposals for these targeted areas
following formats outlined in the
proposal application guidelines
accompanying each program's
solicitation. These proposals are
evaluated by peer review panels and
awarded on a competitive basis. The
forms and narrative information are
mainly used for proposal evaluation and
administration purposes. While some of
the information is used to respond to
inquiries from Congress and other
government agencies, the forms are not
designed to be statistical surveys or data
collection instruments. Their
completion by potential recipients is a
normal part of the application to
agencies which support basic and
applied science.

In FY 2004, CSREES initiated the
receipt of applications electronically
through the Grants.gov ([http://
www.grants.gov](http://www.grants.gov)) storefront for limited
programs. CSREES expects to utilize the
SF-424(R&R) Application for Federal
Assistance data set and forms package
(see 69 FR 53923) along with CSREES
Agency-specific forms to receive
applications electronically. The CSREES
Agency-specific forms have been
deployed; and, after additional
operational testing of the forms and
their instructions, CSREES will again
make available the option to submit
applications electronically to CSREES

through Grants.gov. As CSREES transitions to use of the SF-424(R&R), there remains a need for the currently approved information collection entitled, "Cooperative State Research, Education and Extension Service Application Kit for Research and Extension Programs."

The following information is collected in the "Cooperative State Research, Education and Extension Service Application Kit for Research and Extension Programs."

Form CSREES-2002, Proposal Cover Page: Provides names, mailing and electronic addresses, and telephone numbers of project directors and authorized agents of applicant institutions and general information regarding the proposals.

This information is used in determining whether or not further action is needed to meet the requirements of this Act.

The following information will be collected in the CSREES agency-specific forms when the agency transitions to use of the SF-424(R&R) forms.

For the CSREES Agency-specific forms that will accompany the SF-424 (R&R) forms: 1,788 for the "Supplemental Information" form (.25 hours per response), 240 hours for the "NRI Application Type" form (.08 hours per response), and 80 hours for the "Application Modification" form (.08 hours per response).

Frequency of Respondents: Annually.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments should be sent to the address stated in the preamble.

All responses to this notice will be summarized and included in the request for OMB approval. All comments also will become a matter of public record.
