

those who apply or are exposed to pesticides occupationally or through use of products, and general protection of the environment and special ecosystems from potential risks posed by pesticides.

PPDC was established under the Federal Advisory Committee Act (FACA), Public Law 92-463, in September 1995, for a 2-year term and has been renewed every 2 years since that time. PPDC provides advice and recommendations to OPP on a broad range of pesticide regulatory, policy, and program implementation issues that are associated with evaluating and reducing risks from use of pesticides.

EPA is seeking to renew the current PPDC Charter, which expires in November 2005, for another 2-year term. EPA intends to appoint members to 1- or 2-year terms. An important consideration in EPA's selection of members will be to maintain balance and diversity of experience and expertise. EPA also intends to seek broad geographic representation from the following sectors: Pesticide user, grower and commodity groups; pesticide industry and trade associations; environmental/public interest and consumer groups; farm worker organizations; Federal and State/local/Tribal governments; the general public; academia; and public health organizations.

Potential candidates should submit the following information: Name, occupation, organization, position, address, telephone number, e-mail address, and a brief resume containing their background, experience, qualifications and other relevant information as part of the consideration process. Any interested person and/or organization may submit the name(s) of qualified persons. Please submit your information by e-mail or in writing to Margie Fehrenbach at the address listed under **FOR FURTHER INFORMATION CONTACT**.

Copies of the PPDC Charter are filed with appropriate committees of Congress and the Library of Congress and are available upon request.
