SUPPLEMENTARY INFORMATION: The Hass Avocado Promotion, Research, and Consumer Information Order (Order) is issued under the Hass Avocado Promotion, Research, and Information Act of 2000 (Act) [7 U.S.C. 7801-7813].

Executive Order 12866

This rule has been determined not significant for purposes of Executive Order 12866 and therefore has not been reviewed by the Office of Management and Budget (OMB).

In determining who is eligible to serve as an importer member of the Board, the Act provides for a substantial activity test. In order to implement this provision, the Order needs to provide criteria to enable the Department to measure substantial activity. The Department determined that basing a person's eligibility on the person's business activity and which industry function (producing or importing) predominates was a reasonable measure that gave a clear and understandable benchmark (67 FR 7290). In order to serve as an importer member on the Board, an importer is defined as a person who is involved in, as a substantial activity, the importation of Hass avocados for sale or marketing in the United States. Section 1219.30(d) of the Order states that a substantial activity means that the volume of a person's Hass avocado imports must exceed the volume of the person's production or handling of domestic Hass avocados.

This advance notice of proposed rulemaking invites comments on a possible change to this definition of substantial activity under the Order to better measure substantial activity. AMS is seeking information pertaining to the definition of substantial activity and on the impact such rulemaking might have on the number of importers eligible to serve on the Board. All other views, suggestions or comments relative to the proposal in general also are sought.

The Order provision being considered for amendment governs the eligibility of importers to serve on the Board and is

authorized under the Hass Avocado Promotion, Research, and Information Order (Order). The Act provides that changes to the Order will become effective if approved in referendum by eligible producers and importers.

Background

Section 1219.30 of the Hass Avocado Promotion, Research, and Information Order provides that a substantial activity means that the volume of a person's Hass avocado imports must exceed the volume of the person's production or handling of domestic Hass avocados.

After the Order was implemented, the Department of Agriculture (Department) conducted the initial nomination process for importer positions on the Board. At that time, only six nominees were received, although the Order provided for 16 nominees.

Since the initial nomination process in 2002 there has been significant changes in the industry. For example, the number of states and the months of the year that the Mexican Hass avocado industry can bring avocados in the United States has changed which can affect importer eligibility on the Board.

Currently, the Department is in the process of appointing 2 importer members to the Board, which would fill all 4 importer positions on the Board. However, nominations were not forthcoming from the industry for the alternate importer positions.

Further, the Department believes that it would be appropriate to publish an advance notice of rulemaking so that the industry can provide comments and any other pertinent information prior to the Department considering any change to the definition of substantial activity.

A proposed rule was published in the **Federal Register** March 18, 2003 [68 FR 12881], which would have terminated the definition of substantial activity under the Order. Comments were requested by May 19, 2003. Nine comments were received in a timely manner by the deadline. Seven commenters were importers of Hass avocados. Two commenters were Hass avocado industry organizations, one being the Hass Avocado Board created by the Act. Seven of the nine commenters opposed change to the Order, while two were in support of the proposed rule change.

On that rulemaking, opposing commenters raised a number of issues

including whether other factors limited the number of nominees in the earlier selection process rather than the definition of substantial activity. The commenters stated that the size and pool of the eligible importers (200) was more than adequate to fill the vacancies on the Board. Concern was expressed as to the relationship of producers and importers on the Board.

The supporting commenters were of the view that the substantial activity requirement unnecessarily limited the potential pool of nominees for service on the Board and denied some of the most significant and most qualified individuals in the avocado industry to serve on the Board.

In a separate publication in the **Federal Register**, the proposed rule was withdrawn without being finalized after taking into account the above.

Comments and Information Requested

Information, suggestions, and comments pertaining to the proposal are sought. Examples of specific information that would assist AMS in determining if this recommendation should be proposed are:

1. Specific recommendations for the definition—including volume of imports relative to the volume of domestic production—that would allow the Department to measure substantial activity as is required by the Act.
2. Data relative to the number of importers that would become eligible to serve on the Hass Avocado Board if the definition changed.
3. Data relative to the number of importers that would become eligible to serve on the Hass Avocado Board if the definition was not changed.

Summary

In conclusion, the AMS is soliciting the views of interested persons as to amending the definition of substantial activity to enable the Department to better measure substantial activity as is required by the Act. Specifically, the AMS is interested in the points mentioned previously in this advance notice as well as statistical information, suggestions, and comments pertaining to the definition of substantial activity and the impact on the number of eligible importers to serve on the Board. All views are solicited, however, so that every aspect of this potential amendment may be studied prior to formulating a proposed rule, if such is deemed warranted by the AMS.

This request for public comments does not constitute notification that the recommendation to change the regulations described in this document is or will be proposed or adopted.

A 60-day comment period is provided to allow interested persons the opportunity to respond to this request for information and comments. All written comments timely received will be considered before any subsequent rulemaking action is undertaken.
