

reasonable, feasible, and flexible. Proposals should clearly demonstrate how the organization will meet the program's objectives and plan.

4. *Multiplier effect/impact*: Proposed programs should describe the impact that workshop participants will have on others, both in their U.S. host communities and in Eurasia after they return home. There should be a specific plan for providing students with tools they can take back to their Eurasian home countries to implement concepts and ideas they have gained from the workshop. Proposals also should explain how students will be prepared to transition back to their host communities.

5. *Support of Diversity*: Proposals should demonstrate substantive support of the Bureau's policy on diversity. Achievable and relevant features should be cited in both program administration (selection of participants, program venue and program evaluation) and program content (orientation and wrap-up sessions, program meetings, resource materials and follow-up activities).

6. *Institutional Capacity*: Proposed personnel and organizational resources should be adequate and appropriate to achieve the program or project's goals.

7. *Institution's Record/Ability*: Proposals should demonstrate an institutional record of successful exchange programs, including responsible fiscal management and full compliance with all reporting requirements for past Bureau grants as determined by Bureau Grants Staff. The Bureau will consider the past performance of prior recipients and the demonstrated potential of new applicants.

8. *Project Evaluation*: Proposals should include a plan to evaluate the activity's success, both as the activities unfold and at the end of the program. A draft survey questionnaire or other technique plus description of a methodology to use to link outcomes to original project objectives is recommended.

9. *Cost-effectiveness/Cost-sharing*: The overhead and administrative components of the proposal, including salaries and honoraria, should be kept as low as possible. All other items should be necessary and appropriate. Proposals should maximize cost-sharing through other private sector support as well as institutional direct funding contributions.
