The information collected hereby provides the TRICARE contractors with necessary data to determine beneficiary eligibility and to identify the selection of a health care option.

Affected Public: Individuals or household.

Annual Burden Hours: 2,933.

Number of Respondents: 25,065

Responses Per Respondent: 1.

Average Burden Per Response: 7 minutes.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION:

Summary of Collection

The Department of Defense established TRICARE Plus as an

enrollment option for persons who are eligible for care in Military Treatment Facilities (MTF) and not enrolled in TRICARE Prime. TRICARE Plus provides an opportunity to enroll with a primary care provider at a specific MTF, to the extent capacity exists. This is a way to facilitate primary care appointments at an MTF when needed. TRICARE Plus enrollment will help MTFs maintain an adequate clinical case mix for Graduate Medical Education programs and support readiness-related medical skills sustainment activities. In order to carry out this program, it is necessary that certain beneficiaries electing to enroll/disenroll in TRICARE Plus complete an enrollment application/disenrollment request. Completion of the enrollment forms is an essential element of the TRICARE program. There is no lock-in and no enrollment fee for TRICARE Plus.

Type of Request: Extension.

Number of Respondents: 11,700.

Responses Per Respondent: 1.

Annual Responses: 11,700.

Average Burden Per Response: 0.6 hours.

Annual Burden Hours: 7,020.

Needs and Uses: The specific objective of a personnel security investigation is to elicit information concerning the loyalty, character, and reliability of the individual being investigated so that the DoD adjudicator may determine if it is clearly consistent with the interests of national security to grant the individual access to classified information (or to continue such access), or to place the individual (or retain them) in a sensitive national security position. Adjudicative determinations are made in accordance with DoD 5200.2-R, "DoD Personnel Security Program," which requires the DoD adjudicator to consider both potentially disqualifying information and mitigating information when there is an indication that the individual has a history of mental or nervous disorder; use or abuse of prescribed or illegal drugs, such as marijuana, narcotics or barbiturates; or abuse or excessive use of alcohol. Much of the appropriate information which the adjudicator must consider can only be obtained from physicians who have treated the individual. Obtaining such information provides the adjudicator with a complex picture of the individual. Without it, the adjudicator may not be able to make a determination as to whether or not the individual should be granted access to classified information.
