

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Proposed Addition

AGENCY: Committee for Purchase From People Who are Blind or Severely Disabled.

ACTION: Proposed addition to Procurement List.

SUMMARY: The Committee is proposing to add to the Procurement List a service to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

Comments Must be Received on or Before: December 4, 2005.

ADDRESSES: Committee for Purchase From People Who are Blind or Severely Disabled, Jefferson Plaza 2, Suite 10800, 1421 Jefferson Davis Highway, Arlington, Virginia, 22202-3259.

FOR FURTHER INFORMATION OR TO SUBMIT COMMENTS CONTACT: Sheryl D. Kennerly, Telephone: (703) 603-7740, Fax: (703) 603-0655, or e-mail SKennerly@jwod.gov.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2) and 41 CFR 51-2.3. Its purpose is to provide interested persons an opportunity to submit comments on the proposed actions.

If the Committee approves the proposed addition, the entity of the Federal Government identified in the notice for each service will be required to procure the service listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. If approved, the action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the service to the Government.
2. If approved, the action will result in authorizing small entities to furnish the service to the Government.
3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the service proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification

on which they are providing additional information.

End of Certification

The following service is proposed for addition to Procurement List for production by the nonprofit agencies listed:

SUPPLEMENTARY INFORMATION

I. Abstract

The Census Bureau conducts the SIPP which is a household-based survey

designed as a continuous series of national panels. New panels are introduced every few years with each panel usually having durations of one to five years. Respondents are interviewed at 4-month intervals or "waves" over the life of the panel. The survey is molded around a central "core" of labor force and income questions that remain fixed throughout the life of the panel. The core is supplemented with questions designed to address specific needs, such as obtaining information on welfare reform and to identify individuals in SIPP sample households who were temporarily or permanently relocated due to Hurricane Katrina. These supplemental questions are included with the core and are referred to as a "topical module."

The SIPP represents a source of information for a wide variety of topics and allows information for separate topics to be integrated to form a single, unified database so that the interaction between tax, transfer, and other government and private policies can be examined. Government domestic-policy formulators depend heavily upon the SIPP information concerning the distribution of income received directly as money or indirectly as in-kind benefits and the effect of tax and transfer programs on this distribution. They also need improved and expanded data on the income and general economic and financial situation of the U.S. population. The SIPP has provided these kinds of data on a continuing basis since 1983 permitting levels of economic well-being and changes in these levels to be measured over time.

The 2004 Panel is currently scheduled for 5 years and will include 15 waves of interviewing, which began in February 2004. The 2004 Panel is scheduled for 5 years because of the re-authoring of the instrument and re-engineering of the post data collection processing systems for the 2009 Panel. Approximately 62,000 households were selected for the 2004 Panel, of which, 46,500 were interviewed. We estimate that each household will contain 2.1 people 15 years of age or older, yielding 97,650 interviews in Wave 1 and subsequent waves. Interviews take 30 minutes on average. Three waves of interviewing will occur in the 2004 SIPP Panel during FY 2006. The total annual burden for 2004 Panel SIPP interviews will be 146,475 hours in FY 2006.

The topical modules for the 2004 Panel Wave 8 collect information about:

- Welfare Reform
 - Hurricane Katrina Questions
- Wave 8 interviews will be conducted from June 2006 through September 2006.

A 10-minute reinterview of 3,100 people is conducted at each wave to ensure the accuracy of responses. Reinterviews will require an additional 1,553 burden hours in FY 2006.

II. Method of Collection

The SIPP is designed as a continuing series of national panels of interviewed households that are introduced every few years with each panel having durations of 1 to 5 years. All household members 15 years old or over are interviewed using regular proxy-responder rules. During the 2004 Panel, respondents are interviewed a total of 15 times (15 waves) at 4-month intervals making the SIPP a longitudinal survey. Sample people (all household members present at the time of the first interview) who move within the country and reasonably close to a SIPP primary sampling unit will be followed and interviewed at their new address. Individuals 15 years old or over who enter the household after Wave 1 will be interviewed; however, if these individuals move, they are not followed unless they happen to move along with a Wave 1 sample individual.

III. Data

OMB Number: 0607-0905.

Form Number: SIPP/CAPI Automated Instrument.

Type of Review: Regular.

Affected Public: Individuals or households.

Estimated Number of Respondents: 97,650 people per wave.

Estimated Time Per Response: 30 minutes per person on average.

Estimated Total Annual Burden Hours: 148,028.

Estimated Total Annual Cost: The only cost to respondents is their time.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Section 182.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized or

included in the request for the Office of Management and Budget approval of this information collection. They also will become a matter of public record.

Dated: October 31, 2005.

Forged Stainless Steel Flanges from India and Taiwan; Expedited Five-year (Sunset) Reviews of Antidumping Duty Orders; Final Results

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On July 1, 2005, the Department of Commerce (the Department) initiated sunset reviews of the antidumping duty orders on forged stainless steel flanges (flanges) from India and Taiwan, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). On the basis of the notice of intent to participate and an adequate substantive response filed on behalf of domestic interested parties and no responses from respondent interested parties, the Department conducted expedited sunset reviews. As a result of these sunset reviews, the Department finds that revocation of the antidumping duty orders on flanges from India and Taiwan would likely lead to continuation or recurrence of dumping at the levels listed below in the section entitled "Final Results of Reviews."

EFFECTIVE DATE: November 4, 2005.

FOR FURTHER INFORMATION CONTACT:

Dana Mermelstein, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230, telephone (202) 482-1391.

SUPPLEMENTARY INFORMATION:

Background

On July 1, 2005, the Department initiated sunset reviews of the antidumping duty orders on flanges from India and Taiwan pursuant to section 751(c) of the Act. *See Initiation of Five-year ("Sunset") Reviews*, 70 FR 38101 (July 1, 2005). The Department received a notice of intent to participate from two domestic interested parties, Gerlin, Inc. and Maass Flange

Corporation (collectively, petitioners), within the deadline specified in 19 C.F.R. § 351.218(d)(1)(i). Petitioners claimed interested party status under section 771(9)(C) of the Act as U.S. producers of a domestic like product. We received a complete substantive response from petitioners within the 30-day deadline specified in 19 C.F.R. § 351.218(d)(3)(i). However, we did not receive responses from any respondent interested parties. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 C.F.R. § 351.218(e)(1)(ii)(C)(2), the Department conducted expedited sunset reviews of the orders.

Scope of the Orders

The products covered by these orders are certain forged stainless steel flanges, both finished and not finished, generally manufactured to specification ASTM A-182, and made in alloys such as 304, 304L, 316, and 316L. The scope includes five general types of flanges. They are weld-neck, used for butt-weld line connections; threaded, used for threaded line connections; slip-on and lap joint, used with stub-ends/ butt-weld line connections; socket weld, used to fit pipe into a machined recession; and blind, used to seal off a line. The sizes of the flanges within the scope range generally from one to six inches; however, all sizes of the above-described merchandise are included in the scope. Specifically excluded from the scope of these orders are cast stainless steel flanges. Cast stainless steel flanges generally are manufactured to specification ASTM A-351. The flanges subject to these orders are currently classifiable under subheadings 7307.21.1000 and 7307.21.5000 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise under review is dispositive of whether or not the merchandise is covered by the scope of the orders.

These sunset reviews cover imports from all manufacturers and exporters of flanges from India and Taiwan except Viraj Forgings, Ltd., for which the order on flanges from India was revoked.

Analysis of Comments Received

All issues raised in this case are addressed in the "Issues and Decision Memorandum" from Stephen J. Claey's, Deputy Assistant Secretary for Import Administration, to Joseph A. Spetrini, Acting Assistant Secretary for Import Administration, dated October 31, 2005 (Decision Memorandum), which is hereby adopted by this notice. The issues discussed in the Decision
