

proposed rule change, or such shorter time as designated by the Commission.

NASD has requested that the Commission waive the five-day pre-filing requirement and the 30-day operative delay so that the proposed rule change will become immediately effective upon filing. The Commission believes that waiving the five-day pre-filing provision and the 30-day operative delay is consistent with the protection of investors and the public interest.¹² Waiving the pre-filing requirement and accelerating the operative date will merely permit the immediate implementation of changes that will allow firms to more efficiently discharge their reporting obligations. For these reasons, the Commission designates the proposed rule change as effective and operative immediately.

At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Currently, orders can be entered on the Exchange either via an electronic connection or by phoning the NSX Control Room.⁷ For orders phoned into the NSX Control Room, NSX currently charges a manual processing fee of \$15 per contra-party, with a cap of \$75 per side, on every cross or meet.⁸ The Exchange has been billing on a per contra basis because the number of contra-parties determines the time it takes to process a trade and the cost of the trade. The Exchange's member firms, however, are more accustomed to being billed on a per share basis and have asked the Exchange to consider billing on such basis to keep firm billing in line with all of the other business lines. The Exchange believes that the implementation of this manual processing fee on a per share basis is reasonable and ensures that each NSX

member pays an equitable share of the costs associated with operating the Exchange.

With respect to the book fee, the Exchange currently charges a monthly fee for the number of registered issues for each Designated Dealer. Some firms are beginning to change their business models to solicit fewer, larger size orders across a significant number of securities. This new model requires the firms to be registered in a significant number of securities to attract order flow even though they may not receive order flow for some time. The Exchange believes that the proposed change would initially reduce the cost to these firms while they are expanding their coverage of securities by charging the per issue fee based upon the issues that are traded for any Designated Dealer that has registered in excess of 500 issues. The Exchange believes that the implementation of this proposed fee would encourage Designated Dealers to trade more issues and be charged on the basis of what they actually traded.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁹ in general, and Section 6(b)(4),¹⁰ in particular, in that it is designed to provide an equitable allocation of reasonable dues, fees, and other charges. The Exchange believes that the proposed change is also consistent with Section 6(b)(5) of the Act¹¹ in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Further, the Exchange believes that the proposed change would create incentives for NSX members to electronically connect to the Exchange's trading system, thereby increasing efficiency and competition, which, in turn, would enhance the national market system.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change would impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received in connection with the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The proposed rule change, as amended, has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act¹² and Rule 19b-4(f)(2)¹³ thereunder, because it involves a member due, fee, or other charge. At any time within sixty (60) days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.¹⁴

SUPPLEMENTARY INFORMATION:

Title: Advisory Committee Candidate Biographical Information Request, DOT F1120.1.

OMB Control Number: 2105-0009.

Type of Request: Extension without change for a currently approved information collection.

Abstract: The collection of information obtained by the Advisory Committee Candidate Biographical Information Request form enables Department officials to review the qualifications of individuals who wish to serve on Department-sponsored advisory committees and the qualifications of persons who have been recommended to serve. The collection provides uniform data for each individual and enables DOT to comply with the Federal Advisory Committee Act (Pub. L. 92-463) (5 U.S.C. App.) which requires that advisory committee membership be balanced.

A number of DOT's advisory committees were created by statute and have statutory requirements for education, experience, or expertise. The data collection enables DOT to comply with such membership requirements, by providing information form which

officials may determine which individuals meet specific qualification standards for particular advisory committees and for particular positions within a committee. In fact, some statutory committees require very narrow and specific expertise for each position on the committee, which can be ascertained by reviewing the Advisory Committee Candidate Biographical Request form.

Finally, the data collection allows officials to retain a file of interested applicants. As vacancies occur on specific advisory committees, the applications and qualifications can be reviewed for possible placement.

In the absence of the data collection, officials would have to contact by telephone or by letter each person who expressed an interest or who was recommended for an advisory committee position to determine his/her interest, education, experience, or expertise. This would be a more time-consuming and costly data collection effort which would have to be repeated if the individual were to be considered at a later time for vacancies on other advisory committees.

Respondents: Individuals who have contacted DOT to indicate interest in appointment to an advisory committee and individuals who have been recommended for membership on an advisory committee. Only one collection is expected per individual.

Estimated Number of Respondents per year: 100.

Total Burden: 35 hours.

This information collection is available for inspection at the Office of the Executive Secretariat, Room 10205, Office of the Secretary, DOT, at the above address.

Comments are invited on: (a) Whether the continued collection of the information is necessary for the proper performance of the functions of the Department, (b) the accuracy of the Department's estimate of the burden of the current information collection, (c) ways to enhance the quality, utility, and clarity of the information collection, (c) ways to enhance the quality, utility, and clarity of the information being collected and (d) ways to minimize the burden of the collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
