Section 214(e)(6), however, directs the Commission, upon request, to designate as an ETC "a common carrier providing telephone exchange service and exchange access that is not subject to the jurisdiction of a state commission." Under section 214(e)(6), the Commission, may with respect to an area served by a rural telephone company, and shall, in all other areas, designate more than one common carrier as an ETC for a designated service area, consistent with the public interest, convenience, and necessity, so long as the requesting carrier meets the requirements of section 214(e)(1). Before designating an additional ETC for an area served by a rural telephone company, the Commission must determine that the designation is in the public interest.

The Commission issued a Memorandum Opinion and Order, in CC Docket No. 96-45, FCC 03-338, which imposes three new information collection requirements. Specifically, they are: (1) Report on progress towards meeting infrastructure build-out plans; (2) report on the number of consumer complaints per 1,000 handsets; and (3) report on information detailing the number of unfulfilled requests for service from potential customers for a twelve month period.

Form Number: Not applicable.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 2,350.

Estimated Time per Response: 1-5 minutes.

Needs and Uses: On September 9, 2004, the Commission adopted a *Report And Order (R&O) and Further Notice of Proposed Rule Making (FNPRM)*, In *The Matter of Children's Television Obligations of Digital Television Broadcasters*, FCC 04-221, MM Docket No. 00-167. 47 CFR 73.673 is amended to remove program identification requirements. New identification requirements are in section 73.671. Section 73.673 now states that each commercial television broadcast station licensee shall provide information identifying programming specifically designed to educate and inform children to publishers of program guides. Such information shall include an indication of the age group for this the program is intended. 47 CFR 73.671 states that each educational television broadcast station licensee has an obligation to serve, over

the term of its license, the Educational and Informational (E/I) needs of children ("Core Programming") through both the licensee's overall programming and programming specifically designed to serve such needs. In order for a program to be identified as a core educational program, the E/I symbol must be displayed throughout the program.

These changes are intended to provide greater clarity about broadcasters' obligations under the Children's Television Act (CTA) of 1990 which specified the airing of programs "specifically designed" to serve the educational and informational needs of children and to improve public access to information about the availability of these programs. These requirements will provide better information to the public about the shows broadcasters air to satisfy their obligation to provide educational and informational programming under the Children's Television Act of 1990.
