

on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (*e.g.*, specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this proposed rule is categorically excluded, under figure 2–1, paragraph (32)(e), of the Instruction, from further environment documentation because it has been determined that the promulgation of operating regulations or procedures for drawbridges are categorically excluded.

List of Fisheries for 2005

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; extension of public comment period.

SUMMARY: On December 2, 2004, the proposed List of Fisheries (LOF) for

2005 under the Marine Mammal Protection Act (MMPA) was published in the Federal Register. NMFS is extending the comment period on this proposed LOF to March 4, 2005.

DATES: Comments must be received by March 4, 2005.

ADDRESSES: Send comments to Chief, Marine Mammal Conservation Division, Attn: List of Fisheries, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910. Comments may also be sent via email to 2005LOF.comments@noaa.gov or the Federal eRulemaking portal: <http://www.regulations.gov> (Follow instructions for submitting comments).

Comments regarding the burden-hour estimates, or any other aspect of the collection of information requirements contained in the proposed rule, should be submitted in writing to the Chief, Marine Mammal Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910 and to David Rostker, OMB, by e-mail at David_Rostker@omb.eop.gov or by fax to 202-395-7285.

FOR FURTHER INFORMATION CONTACT:

Individuals who use a telecommunications device for the hearing impaired may call the Federal Information Relay Service at 1-800-877-8339 between 8 a.m. and 4 p.m. Eastern time, Monday through Friday, excluding Federal holidays.

SUPPLEMENTARY INFORMATION: On December 2, 2004, the proposed List of Fisheries for 2005 under the Marine Mammal Protection Act was published in the **Federal Register** (69 FR 70094).

NMFS must categorize each commercial fishery on the LOF into one of three categories under the MMPA based on the level of serious injury and mortality of marine mammals that occurs incidental to the fishery. NMFS must publish in the **Federal Register** any necessary changes to the LOF after notice and opportunity for public comment. In the proposed LOF for 2005, NMFS proposed several fishery classification, fishery name, and organizational changes. In particular, NMFS proposed to reclassify the California/Oregon thresher shark/swordfish drift gillnet (≥ 14 in. mesh) from Category II (occasional incidental mortality and serious injury) to Category I (frequent incidental mortality and serious injury) and to reclassify the Northeast bottom trawl, Mid-Atlantic bottom trawl, and five Alaska fisheries from Category III (remote likelihood of or no known incidental mortality and serious injury) to Category II. The five Alaska fisheries include the following: Bering Sea and Aleutian Islands (BSAI) flatfish trawl, BSAI Greenland turbot longline, BSAI pollock trawl, Bering Sea sablefish pot, and Gulf of Alaska Pacific cod longline. Because the comment period coincides with the holiday season, several commenters have already requested an extension of the comment period to adequately review NMFS' proposed changes to the LOF. In addition, NMFS intends to prepare an environmental assessment on the LOF. Therefore, NMFS is extending the public comment period on the proposed LOF for 2005 from January 3, 2005, to March 4, 2005.

Dated: December 29, 2004.

John Oliver,

Deputy Assistant Administrator for Operations, National Marine Fisheries Service.
