SUPPLEMENTARY INFORMATION: The Fallen Timbers Battlefield and Fort Miamis National Historic Site is an affiliated area of the national park system, managed by the Metropolitan Park District of the Toledo Area. The park consists of three units, the Fallen Timbers Battlefield, the Fallen Timbers State Monument, and Fort Miamis. The park commemorates an important period in the development of the United States and the opening of the northwest frontier. It represents the culminating event that demonstrated the tenacity of the American people in their quest for western expansion and the struggle for dominance in the Old Northwest Territory.

The purpose of the general management plan is to set forth the basic management philosophy for the park and to provide strategies for addressing issues and achieving identified management objectives. The GMP/EIS describes and analyzes the environmental impacts of the proposed action and two other action alternatives for the future management direction of the park. A no action alternative is also evaluated.

A notice of availability of the draft document was published in the **Federal Register** on March 31, 2004 (69 FR 16, 948). Public meetings to clarify the document and discuss any concerns were held at the Maumee Branch of the Toledo-Lucas County Public Library on March 10 and April 26, 2004. The local press, including television, radio and newspaper, were sent news releases of all public meetings and each meeting was reported on by these sources. In addition, advertisements of the meetings were placed in local daily and weekly newspapers. Written comments were accepted through May 31, 2004. The NPS considered all written comments in accordance with guidance provided by Director's Order 12 and the regulations of Council on Environmental Quality at 40 CFR part 1503. The local

Congressional delegation was kept informed.

The Final GMP/EIS document responds to agency and public comments received on the draft document.

AGENCY: National Park Service, Interior.

ACTION: Notice of Availability of a Record of Decision for the Low Country Gullah Culture Special Resource Study and Final Environmental Impact Statement.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the National Park Service (NPS) announces the availability of a Record of Decision (ROD) for the Final Environmental Impact Statement (EIS) for the Low Country Gullah Culture Special Resource Study (Study). The Study area stretches along the southeastern United States coast roughly from the Cape Fear River in North Carolina to the St. John's River in Florida and approximately 30 miles inland. The alternatives provide a range of actions for the future protection, interpretation, and commemoration of Gullah cultural resources. The Final EIS analyzes the potential environmental impacts of those actions.

The ROD describes the background of the Study, other alternatives considered, the basis for the decision, the environmentally preferable alternative, and public involvement in the decision-making process. The ROD was approved by the Southeast Regional Director on November 4, 2005.
