DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Issuance of Permits

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of issuance of permit for endangered species.

SUMMARY: The following permit was issued.

ADDRESSES: Documents and other information submitted with this application is available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents to: U.S. Fish and Wildlife Service, Division of Management Authority, 4401 North Fairfax Drive, Room 700, Arlington, Virginia 22203; fax 703/358–2281.

FOR FURTHER INFORMATION CONTACT: Division of Management Authority, telephone (703) 358–2104.

SUPPLEMENTARY INFORMATION: Notice is hereby given that on the dates below, as

authorized by the provisions of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*), the Fish and Wildlife Service issued the requested permit(s) subject to certain conditions set forth therein. For each permit for an endangered species, the Service found that (1) the application was filed in good faith, (2) the granted permit would not operate to the disadvantage of the endangered species, and (3) the granted permit would be consistent with the purposes and policy set forth in Section 2 of the Endangered Species Act of 1973, as amended.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Receipt of Applications for Permit

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of applications for permit.

SUMMARY: The public is invited to comment on the following applications

to conduct certain activities with endangered species.

DATES: Written data, comments or requests must be received by May 8, 2006.

ADDRESSES: Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents within 30 days of the date of publication of this notice to: U.S. Fish and Wildlife Service, Division of Management Authority, 4401 North Fairfax Drive, Room 700, Arlington, Virginia 22203; fax 703/358–2281. **FOR FURTHER INFORMATION CONTACT:** Division of Management Authority, telephone 703/358–2104.

SUPPLEMENTARY INFORMATION:

Endangered Species

The public is invited to comment on the following applications for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*). Written data, comments, or requests for copies of these complete applications should be submitted to the Director (address above).

PRT-119840

Applicant: William G. Leffler, Jr., Palm Beach Gardens, FL

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus pygargus*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

PRT-119843

Applicant: Daniel S. Mac Curdy, Jupiter, FL

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus pygargus*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Dated: March 17, 2006.

Senior Permit Biologist, Branch of Permits, Division of Management Authority. [FR Doc. E6–5024 Filed 4–5–06; 8:45 am] BILLING CODE 4310-55–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Receipt of an Application for an Incidental Take Permit for Proposed Construction of a Single-Family Home in Charlotte County, FL

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: Robert Aulbach and Elizabeth Aulbach (Applicants) request an incidental take permit (ITP) for a oneyear term pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). The Applicants anticipate taking about 0.46 acre of Florida scrub-jay (Aphelocoma coerulescens) (scrub-jay) foraging, sheltering, and possibly nesting habitat, incidental to lot preparation for the construction of a single-family home and supporting infrastructure in Charlotte County, Florida (Project). The Applicants' Habitat Conservation Plan (HCP) describes the mitigation and minimization measures proposed to address the effects of the Project to the Florida scrub-jay. These measures are outlined in the SUPPLEMENTARY **INFORMATION** section below.

DATES: Written comments on the ITP application and HCP should be sent to the Service's Regional Office (see

ADDRESSES) and should be received on or before May 8, 2006.

ADDRESSES: Persons wishing to review the application and HCP may obtain a copy by writing the Service's Southeast Regional Office at the address below. Please reference permit number TE113867–0 in such requests. Documents will also be available for public inspection by appointment during normal business hours at the Southeast Regional Office, U.S. Fish and Wildlife Service, 1875 Century Boulevard, Suite 200, Atlanta, Georgia 30345 (Attn: Endangered Species Permits), or Field Supervisor, South Florida Ecological Services Field Office, U.S. Fish and Wildlife Service, 1339 20th Street, Vero Beach, Florida 32960-3559.

FOR FURTHER INFORMATION CONTACT: Mr. David Dell, Regional HCP Coordinator, Southeast Regional Office (see **ADDRESSES** above), telephone: 404/679– 7313, facsimile: 404/679–7081; or Mr. Mark Salvato, Fish and Wildlife Biologist, South Florida Ecological Services Field Office, Vero Beach, Florida (see **ADDRESSES** above), telephone: 772/562–3909, extension 340.

SUPPLEMENTARY INFORMATION: If you wish to comment, you may submit written comments by any one of several methods. Please reference permit number TE113867–0 in such comments. You may mail comments to the Service's Southeast Regional Office (see ADDRESSES). You may also comment via the Internet to david_dell@fws.gov. Please include your name and return address in your internet message. If you do not receive a confirmation from us that we have received your internet message, contact us directly at either telephone number listed below (see FOR FURTHER INFORMATION CONTACT). Finally, vou may hand-deliver comments to either Service office listed above (see ADDRESSES). Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home addresses from the administrative record. We will honor such requests to the extent allowable by law. There may also be other circumstances in which we would withhold from the administrative record a respondent's identity, as allowable by law. If you wish us to withhold your name and address, you must state this prominently at the beginning of your comments. We will not, however, consider anonymous comments. We will make all submissions from organizations or

businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

The Florida scrub-jay (scrub-jay) is geographically isolated from other species of scrub-jays found in Mexico and the western United States. The scrub-jay is found exclusively in peninsular Florida and is restricted to xeric uplands (mostly consisting of oakdominated scrub). Increasing urban and agricultural development has resulted in habitat loss and fragmentation, which has adversely affected the distribution and numbers of scrub-jays. The total estimated population is between 7,000 and 11,000 individuals (U.S. Fish and Wildlife Service 1990. Recovery plan for the Florida scrub-jay, U.S. Fish and Wildlife Service, Atlanta, Georgia).

The scrub-jays using the Applicants' residential lot and adjacent properties are part of a larger complex of scrub-jays located in a matrix of urban and natural settings in Charlotte County. Construction of the Project's infrastructure and facilities will result in the destruction of 0.46 acre of foraging, sheltering, and possibly nesting habitat and is expected to result in the take, in the form of harm, of one family of scrub-jays, incidental to the carrying out of these otherwise lawful activities. The Applicants propose to minimize and avoid incidental take by conducting clearing activities outside of the nesting season, removal of exotic vegetation from the lot, and maintenance of the remaining area in native vegetation for use by the resident scrub-jays. The Applicants propose to replace any scrub oaks and wax myrtles that might be removed during land clearing. The Applicants propose to avoid landscaping with trees that will grow greater than 30 feet tall and potentially provide perch trees for predators that may prey on scrub-jays on this lot and surrounding unimproved lots. The Applicants propose to implement measures to remove and to discourage the presence of free-roaming cats on the lot as they can be a potential predator on young scrub-jays.

The Applicants propose to mitigate the take of scrub-jays through contribution of \$25,822 to the Charlotte County Florida Scrub-Jay Conservation Fund or other appropriate conservation fund approved by the Service. Funds in this account are earmarked for use in the conservation and recovery of scrubjays and may include habitat acquisition, restoration, and management. A similar account is also in development between the Service and The Nature Conservancy.
