

required items. Applications that are not assembled and tabbed in the order specified delay the review process. Given the high volume of Program interest, incorrectly assembled applications will be returned as ineligible.

5. Most DLT projects contain numerous project sites. USDA Rural Development requires that site information be consistent throughout an application. Sites must be referred to by the same designation throughout all parts of an application. USDA Rural Development has provided a site worksheet that requests the necessary information, and can be used as a guide by applicants. USDA Rural Development strongly recommends that applicants complete the site worksheet, listing all requested information for each site. Applications without consistent site information will be returned as ineligible.

D. *Selection Process.* Grant applications are ranked by final score, and by application purpose (education or medical). USDA Rural Development selects applications based on those rankings, subject to the availability of funds. USDA Rural Development may allocate grant awards between medical and educational purposes, but is not required to do so. In addition, USDA Rural Development has the authority to limit the number of applications selected in any one State during a fiscal year. See 7 CFR 1703.127.

VI. Award Administration Information

A. *Award Notices.* USDA Rural Development generally notifies applicants whose projects are selected for awards by faxing an award letter. USDA Rural Development follows the award letter with a grant agreement that contains all the terms and conditions for the grant. USDA Rural Development recognizes that each funded project is unique, and therefore may attach conditions to different projects' award documents. An applicant must execute and return the grant agreement, accompanied by any additional items required by the grant agreement, within 120 days of the selection date.

B. *Administrative and National Policy Requirements:* The items listed in Section IV of this notice, and the DLT Program regulation, FY 2006 application guide and accompanying materials implement the appropriate administrative and national policy requirements.

C. *Reporting.* 1. *Performance reporting.* All recipients of DLT financial assistance must provide annual performance activity reports to USDA Rural Development until the

project is complete and the funds are expended. A final performance report is also required; the final report may serve as the last annual report. The final report must include an evaluation of the success of the project in meeting DLT Program objectives. See 7 CFR 1703.107.

2. *Financial reporting.* All recipients of DLT financial assistance must provide an annual audit, beginning with the first year a portion of the financial assistance is expended. Audits are governed by United States Department of Agriculture audit regulations. Please see 7 CFR 1703.108.

Dynamic Random Access Memory Semiconductors from the Republic of Korea: Amended Final Results of Countervailing Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: April 11, 2006.

FOR FURTHER INFORMATION CONTACT: Ryan Langan, AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-2613.

SUPPLEMENTARY INFORMATION:

Background

On March 14, 2006, the Department of Commerce ("the Department") issued its *Final Results* in the countervailing duty administrative review of dynamic random access memory semiconductors from the Republic of Korea. See *Dynamic Random Access Memory Semiconductors from the Republic of Korea: Final Results of Countervailing Duty Administrative Review*, 71 FR 14174 (March 21, 2006) ("*Final Results*"). On March 21, 2006, Hynix Semiconductor, Inc. ("Hynix") filed timely ministerial error allegations pursuant to 19 CFR 351.224(c)(2). On March 27, 2006, Micron Technology,

Inc. ("the petitioner") responded to Hynix's allegations.

Scope of the Order

The products covered by this order are dynamic random access memory semiconductors (DRAMs) from Korea, whether assembled or unassembled. Assembled DRAMS include all package types. Unassembled DRAMS include processed wafers, uncut die, and cut die. Processed wafers fabricated in Korea, but assembled into finished semiconductors (DRAMs) outside Korea are also included in the scope. Processed wafers fabricated outside Korea and assembled into finished semiconductors in Korea are not included in the scope.

The scope of this order additionally includes memory modules containing DRAMS from Korea. A memory module is a collection of DRAMS, the sole function of which is memory. Memory modules include single in-line processing modules, single in-line memory modules, dual in-line memory modules, small outline dual in-line memory modules, Rambus in-line memory modules, and memory cards or other collections of DRAMS, whether unmounted or mounted on a circuit board. Modules that contain other parts that are needed to support the function of memory are covered. Only those modules that contain additional items which alter the function of the module to something other than memory, such as video graphics adapter boards and cards, are not included in the scope. This order also covers future DRAMS module types.

The scope of this order additionally includes, but is not limited to, video random access memory, and synchronous graphics ram, as well as various types of DRAMS, including fast page-mode, extended data-out, burst extended data-out, synchronous dynamic RAM, rambus DRAM, and Double Data Rate DRAM. The scope also includes any future density, packaging, or assembling of DRAMS. Also included in the scope of this order are removable memory modules placed on motherboards, with or without a central processing unit, unless the importer of the motherboards certifies with U.S. Customs and Border Protection ("CBP") that neither it, nor a party related to it or under contract to it, will remove the modules from the motherboards after importation or, consistent with the Memorandum from Stephen J. Claeyes to David M. Spooner, "*Final Scope Ruling*," dated January 12, 2006, unless the importer of the motherboards certifies with CBP that the motherboard is being imported for repair or
