

table gives the figure for Alaska, which is the only state affected by section 6053(a) of the Deficit Reduction Act.

Section 6053(a) of the Deficit Reduction Act of 2005 provides for a modification of Alaska's Medicaid FMAP for Fiscal Years 2006 and 2007. The provision permits a maintenance of the Fiscal Year 2005 FMAP for Fiscal Year 2006 and Fiscal Year 2007 if the 2006 or 2007 FMAPs as calculated pursuant to section 1905(b) of the Act are less than the 2005 FMAP. Since the calculated Fiscal Year 2006 and 2007 FMAPs for Alaska are less than the 2005 FMAP, Alaska's 2005 FMAP will apply for Fiscal Years 2006 and 2007.

Section 6053(a) applies to expenditures under Title XIX and Title XXI. Therefore, the Enhanced Federal Medical Assistance Percentages for Alaska for 2006 and 2007 will be calculated from Alaska's revised Federal Medical Assistance Percentages for 2006 and 2007.

Federal Medical Assistance Percentages are used to determine the amount of Federal matching for State expenditures for assistance payments for certain social services such as Temporary Assistance for Needy Families (TANF) Contingency Funds, Child Care Mandatory and Matching Funds for the Child Care and Development Fund, Title IV-E Foster Care Maintenance payments, Adoption Assistance payments, and State medical and medical insurance expenditures for Medicaid and the State Children's Health Insurance Program (SCHIP). However, the modification of the Federal Medical Assistance Percentages and the Enhanced Federal Medical Assistance Percentages under the Deficit Reduction Act of 2005 affect only medical expenditure payments under Title XIX and all expenditure payments for the State Children's Health Insurance Program under Title XXI. The Department believes that the percentages in this notice do not apply to payments under Title IV of the Act. In addition, the Title XIX statute provides separately for Federal matching of administrative costs, which is not affected by the Deficit Reduction Act of 2005.

The Deficit Reduction Act of 2005, section 6053(b) also instructs the Secretary of HHS to disregard Katrina evacuees and income attributable to them in calculating the FMAPs for states with a significant number of evacuees. This provision would affect the calculation of the Federal Medical Assistance Percentages for Fiscal Year 2008, which HHS will publish in Fall 2006.

DATES: Effective Dates: The percentages listed will be effective for Fiscal Year 2006 and Fiscal Year 2007.
