BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Indian Health Service

Request for Public Comment: 60-Day Proposed Information Collection: Indian Health Service Chief Executive Officer Retention Survey

AGENCY: Indian Health Service, HHS.

SUMMARY: The Department of Health and Human Services, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to

provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Indian Health Service (IHS) is providing a 60-day advance opportunity for public comment on a proposed extension of current information collection activity to be submitted to the Office of Management and Budget for review.

Proposed Collection

Title: 0917-NEW, "Indian Health Service Chief Executive Officer Retention Survey".

Type of Information Collection Request: New Collection.

Form Number: None.

Forms: The IHS Chief Executive Officer Retention Survey.

Need and Use of Information Collection: The National Council of Chief Executive Officers (NCCEO) was established to ensure that the IHS

Service Unit Chief Executive Officers (CEO) effectively participate in the establishment and implementation of strategies to achieve the IHS mission. Part of their responsibility (as stated in their Charter) includes: ongoing recruitment, development, and retention of professional CEOs. The NCCEO's purpose is to ensure that the IHS Service Unit CEO and their Tribal CEO counterparts effectively participate in the establishment and implementation of an agency strategy to achieve the IHS mission. The current Executive Committee is actively addressing recruitment, retention and succession planning for their constituents, the IHS CEOs. To enhance their ability to be effective in this challenging task, the NCCEO needs to know more about IHS CEOs and the issues that affect retention and recruitment including the competitive influences of private sector health care delivery systems. The chosen method to obtain this critical information from the CEOs of IHS, Tribal and Urban facilities is by electronic survey. The goal of the IHS is to raise the health status of American Indians and Alaska Natives to the highest possible level. To meet this goal, the IHS is committed to providing high quality health services to the eligible service population. An important factor
