Requests for additional information or copies of the information collection instrument and instructions should be directed to Dr. Vernon R. Leeworthy, NOS/Special Projects, 1305 East West Highway, SSMC 4, 9th Floor, Silver Spring, Maryland 20910 (or Bob.Leeworthy@noaa.gov).

SUPPLEMENTARY INFORMATION:

I. Abstract

The purpose of this data collection is to provide information on the value of Hawaii's coral reef habitats to specific segments of the U.S. population. This is a national survey using a panel based on a nationally representative, list-assisted, random digit-dial (RDD) sample drawn from all 10-digit telephone numbers in the U.S. The survey is designed to yield information that can be used to estimate non-use or passive economic use values for Hawaii's coral reef ecosystems. The survey addresses the public's preferences and economic values regarding the use of no-take areas as a management tool and their preferences regarding several alternative methods of restoring damaged coral reefs. A large scale pre-test of the survey has been conducted (200 survey responses) under OMB Approval Number 0648-0531, expiration date 8/31/2006.

II. Method of Collection

Members of the panel will complete the survey on-line using either WebTV technology supplied by Knowledge Networks, Inc. or their own Internet service.

III. Data

OMB Number: None.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals or households.

Estimated Number of Respondents: 2,000.

Estimated Time Per Response: 30 minutes.

Estimated Total Annual Burden Hours: 1,000.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be

collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

SUPPLEMENTARY INFORMATION:

I. Abstract

The objective of this survey is to assess the level of awareness on issues related to regulations preventing feeding/harassment of wild bottlenose

dolphins, which are protected under the Marine Mammal Protection Act. In particular, the survey is designed to determine what commercial operators and the general public know about specific regulations prohibiting feeding and harassment of bottlenose dolphins, and how they gained their knowledge and/or perceptions on the topic. The initial geographic region for this survey is Panama City, Florida, where numerous incidences of dolphin harassment and feeding have been documented. The intent, in the future, is to use this survey in other areas of the southeast region to gain a similar understanding and ensure outreach messages are appropriate for intended audiences.

The recordkeeping and reporting requirements at 50 CFR part 679 form the basis for this collection of information. The National Marine Fisheries Service will request information from local residents, tourists and commercial businesses through a one-time survey. This information, upon receipt, will be used to develop effective and better-targeted outreach efforts in order to enhance bottlenose dolphin conservation in Florida.

II. Method of Collection

Participants voluntarily complete paper questionnaires, and methods of submittal include on-site, mail, and facsimile transmission of paper forms.

III. Data

OMB Number: None.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals or households; business or other for-profit organizations.

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Regional Economic Data Collection Program for Southwest Alaska

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

SUPPLEMENTARY INFORMATION:

I. Abstract

The regional or community economic analysis of proposed fishery management policies is required by the Magnuson-Stevens Fishery Conservation and Management Act (MSA), National Environmental Policy Act (NEPA), and Executive Order 12866,

among others. To satisfy these mandates and inform policymakers and the public of the likely regional economic impacts associated with fishery management policies, appropriate economic models and the data to implement these models are needed.

Much of the data required for regional economic analysis associated with Southwest Alaska fisheries are either unavailable or unreliable. Accurate fishery-level data on employment, labor income, and expenditures in the Southwest Alaska fishery and related industries are not currently available but are needed to estimate the effects of fisheries on the economy of Southwest Alaska. In this survey effort, data on these important regional economic variables will be collected and used to develop models that will provide more reliable estimates and significantly improve policymakers' ability to assess policy effects on fishery-dependent communities in Southwest Alaska. The survey will be for one-time only.

The survey (mailed) will be used to request data on employment and labor income from 2,200 vessel owners whose boats delivered fish to Southwest Alaska processors. In-person interviews and telephone calls (120) with businesses involved in the fishery and related industries will be used to obtain (a) Vessel expenditure/cost data; (b) regional economic data for non-fishery industries; and (c) regional economic data for fish processing sector.

II. Method of Collection

Mail surveys will be used.
