

to determine the amount of production to count.); or

(B) If you elect to continue to care for the crop, the amount of production to count for the acreage will be the harvested production, or our reappraisal if additional damage occurs and the crop is not harvested; and

(2) All harvested production from the insurable acreage.

(3) Any other uninsurable mustard production that is delivered to fulfill the processor contract.

(d) Mature mustard may be adjusted for excess moisture and quality deficiencies. If moisture adjustment is applicable, it will be made prior to any adjustment for quality.

(1) Mustard production will be reduced by 0.12 percent for each 0.1 percentage point of moisture in excess of 10.0 percent. We may obtain samples of the production to determine the moisture content.

(2) Mustard production will be eligible for quality adjustment only if:

(i) Deficiencies in quality result in the mustard not meeting the requirements for acceptance under the processor contract because of damaged seeds (excluding heat damage), or a musty, sour, or commercially objectionable foreign odor; or

(ii) Substances or conditions are present that are identified by the Food and Drug Administration or other public health organizations of the United States as being injurious to human or animal health.

(3) Quality will be a factor in determining your loss in mustard production only if:

(i) The deficiencies, substances, or conditions specified in section 13(d)(2) resulted from a cause of loss specified in section 10 that occurs within the insurance period;

(ii) The deficiencies, substances, or conditions specified in section 13(d)(2) result in a salvage price less than the base contract price;

(iii) All determinations of these deficiencies, substances, or conditions specified in section 13(d)(2) are made using samples of the production obtained by us or by a disinterested third party approved by us; and

(iv) The samples are analyzed by a grader in accordance with the Directive for Inspection of Mustard Seed, provided by the Federal Grain Inspection Service or such other directive or standards that may be issued by FCIC.

(4) Mustard production that is eligible for quality adjustment, as specified in sections 13(d)(2) and (3), will be reduced by multiplying the quality adjustment factors contained in the Special Provisions (or the quality adjustment factors determined by dividing the salvage price by the base contract price (not to exceed 1.000) if the quality adjustment factors are not contained in the Special Provisions) by the number of pounds remaining after any reduction due to excessive moisture (the moisture-adjusted gross pounds) of the damaged or conditioned production.

(i) The salvage price will be determined at the earlier of the date such quality adjusted production is sold or the date of final inspection for the unit subject to the following conditions:

(A) Discounts used to establish the salvage price will be limited to those that are usual, customary, and reasonable.

(B) The salvage price will not include any reductions for:

(1) Moisture content;

(2) Damage due to uninsured causes;

(3) Drying, handling, processing, or any other costs associated with normal harvesting, handling, and marketing of the mustard; except, if the salvage price can be increased by conditioning, we may reduce the salvage price, after the production has been conditioned, by the cost of conditioning but not lower than the salvage price before conditioning; and

(ii) We may obtain salvage prices from any buyer of our choice. If we obtain salvage prices from one or more buyers located outside your local market area, we will reduce such price by the additional costs required to deliver the mustard to those buyers.

(iii) Factors not associated with grading under the Directive for Inspection of Mustard Seed, provided by the Federal Grain Inspection Service or such other directive or standards that may be issued by FCIC including, but not limited to, protein and oil will not be considered.

(e) Any production harvested from plants growing in the insured crop may be counted as production of the insured crop on an unadjusted weight basis.

14. Late Planting

In lieu of section 16(a) of the Basic Provisions, the production guarantee (per acre) for each acre planted to the insured crop during the late planting period will be reduced by 1 percent per day for each day planted after the final planting date, unless otherwise specified in the Special Provisions.

15. Prevented Planting

In addition to the provisions contained in section 17 of the Basic Provisions, your prevented planting coverage will be 60 percent of your production guarantee (per acre) for timely planted acreage. If you have limited or additional levels of coverage, as specified in 7 CFR part 400, subpart T, and pay an additional premium, you may increase your prevented planting coverage to the levels specified in the actuarial documents.

Signed in Washington, DC, on November 7, 2006.

Eldon Gould,

Manager, Federal Crop Insurance Corporation.

BILLING CODE 3410-08-P

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 966

[Docket No. FV06-966-2 PR]

Tomatoes Grown in Florida; Increased Assessment Rate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This rule would increase the assessment rate established for the Florida Tomato Committee (Committee) for the 2006-07 and subsequent fiscal periods from \$0.025 to \$0.035 per 25-pound container or equivalent of tomatoes handled. The Committee locally administers the marketing order which regulates the handling of tomatoes grown in Florida. Assessments upon Florida tomato handlers are used by the Committee to fund reasonable and necessary expenses of the program. The fiscal period begins August 1 and ends July 31. The assessment rate would remain in effect indefinitely unless modified, suspended, or terminated.

DATES: Comments must be received by December 1, 2006.

ADDRESSES: Interested persons are invited to submit written comments concerning this rule. Comments must be sent to the Docket Clerk, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue, SW., STOP 0237, Washington, DC 20250-0237; Fax: (202) 720-8938, E-mail: moab.docketclerk@usda.gov; or Internet: <http://www.regulations.gov>. Comments should reference the docket number and the date and page number of this issue of the **Federal Register** and will be available for public inspection in the Office of the Docket Clerk during regular business hours, or can be viewed at: <http://www.ams.usda.gov/fv/moab.html>.

FOR FURTHER INFORMATION CONTACT:

William G. Pimental, Marketing Specialist or Christian D. Nissen, Regional Manager, Southeast Marketing Field Office, Fruit and Vegetable Programs, AMS, USDA; Telephone: (863) 324-3375, Fax: (863) 325-8793, or E-mail: William.Pimental@usda.gov or Christian.Nissen@usda.gov.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue, SW., STOP 0237, Washington, DC 20250-0237; telephone: (202) 720-

2491, Fax: (202) 720-8938, or E-mail: Jay.Guerber@usda.gov.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement No. 125 and Order No. 966, both as amended (7 CFR part 966), regulating the handling of tomatoes grown in Florida, hereinafter referred to as the "order." The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

The Department of Agriculture (USDA) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. Under the marketing order now in effect, Florida tomato handlers are subject to assessments. Funds to administer the order are derived from such assessments. It is intended that the assessment rate as proposed herein would be applicable to all assessable tomatoes beginning on August 1, 2006, and continue until amended, suspended, or terminated. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

This rule would increase the assessment rate established for the Committee for the 2006-07 and subsequent fiscal periods from \$0.025 to \$0.035 per 25-pound container or equivalent of tomatoes.

The Florida tomato marketing order provides authority for the Committee, with the approval of USDA, to formulate an annual budget of expenses and collect assessments from handlers to administer the program. The members of the Committee are producers and

handlers of Florida tomatoes. They are familiar with the Committee's needs and with the costs for goods and services in their local area and are thus in a position to formulate an appropriate budget and assessment rate. The assessment rate is formulated and discussed in a public meeting. Thus, all directly affected persons have an opportunity to participate and provide input.

For the 2003-04 and subsequent fiscal periods, the Committee recommended, and USDA approved, an assessment rate that would continue in effect from fiscal period to fiscal period unless modified, suspended, or terminated by USDA upon recommendation and information submitted by the Committee or other information available to USDA.

The Committee met on August 22, 2006, and unanimously recommended 2006-07 expenditures of \$2,193,700 and an assessment rate of \$0.035 per 25-pound container or equivalent of tomatoes. In comparison, last year's budgeted expenditures were \$2,161,800. The assessment rate of \$0.035 is \$0.01 higher than the rate currently in effect. The increase in the assessment rate is needed to continue to support the increased budget for advertising and promotion started last season, while reducing the amount of funds drawn from the Committee's authorized reserve. Without the increase in the assessment rate, the Committee would need to utilize an additional \$500,000 from the authorized reserve.

The major expenditures recommended by the Committee for the 2006-07 fiscal period include \$1,000,000 for education and promotions, \$445,900 for salaries, \$320,000 for research, \$67,000 for employee retirement, and \$63,800 for employee health insurance. Budgeted expenses for these items in 2005-06 were \$1,000,000, \$428,000, \$320,000, \$65,000 and \$63,800, respectively.

The assessment rate recommended by the Committee was derived by dividing anticipated expenses by expected shipments of Florida tomatoes. Tomato shipments for the year are estimated at 50 million which should provide \$1,750,000 in assessment income. Income derived from handler assessments, along with interest income and funds from the Committee's authorized reserve, would be adequate to cover budgeted expenses. Funds in the reserve (currently around \$700,000) would be kept within the maximum permitted by the order of not to exceed one fiscal period's expenses as stated in § 966.44.

The proposed assessment rate would continue in effect indefinitely unless

modified, suspended, or terminated by USDA upon recommendation and information submitted by the Committee or other available information.

Although this assessment rate would be in effect for an indefinite period, the Committee would continue to meet prior to or during each fiscal period to recommend a budget of expenses and consider recommendations for modification of the assessment rate. The dates and times of Committee meetings are available from the Committee or USDA. Committee meetings are open to the public and interested persons may express their views at these meetings. USDA would evaluate Committee recommendations and other available information to determine whether modification of the assessment rate is needed. Further rulemaking would be undertaken as necessary. The Committee's 2006-07 budget and those for subsequent fiscal periods would be reviewed and, as appropriate, approved by USDA.

Initial Regulatory Flexibility Analysis

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities. Accordingly, AMS has prepared this initial regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and the rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 100 producers of tomatoes in the production area and approximately 70 handlers subject to regulation under the marketing order. Small agricultural producers are defined by the Small Business Administration (SBA) as those having annual receipts less than \$750,000, and small agricultural service firms are defined as those whose annual receipts are less than \$6,500,000 (13 CFR 121.201).

Based on industry and Committee data, the average annual price for fresh Florida tomatoes during the 2005-06 season was approximately \$10.27 per 25-pound container or equivalent, and total fresh shipments for the 2005-06 season were 47,880,303 25-pound equivalent cartons of tomatoes. Committee data indicates that

approximately 25 percent of the handlers handle 94 percent of the total volume shipped outside the regulated area. Based on the average annual price of \$10.27 per 25-pound container, about 75 percent of handlers could be considered small businesses under SBA's definition. In addition, based on production, grower prices as reported by the National Agricultural Statistics Service, and the total number of Florida tomato growers, the average annual grower revenue is below \$750,000. Thus, the majority of handlers and producers of Florida tomatoes may be classified as small entities.

This rule would increase the assessment rate established for the Committee and collected from handlers for the 2006–07 and subsequent fiscal periods from \$0.025 to \$0.035 per 25-pound container or equivalent of tomatoes. The Committee unanimously recommended 2006–07 expenditures of \$2,193,700 and an assessment rate of \$0.035 per pound container. The proposed assessment rate of \$0.035 is \$0.01 higher than the 2005–06 rate. The quantity of assessable tomatoes for the 2006–07 season is estimated at 50 million cartons. Thus, the \$0.035 rate should provide \$1,750,000 in assessment income. Income derived from handler assessments, along with interest income and funds from the Committee's authorized reserve, would be adequate to cover budgeted expenses.

The major expenditures recommended by the Committee for the 2006–07 fiscal period include \$1,000,000 for education and promotions, \$445,900 for salaries, \$320,000 for research, \$67,000 for employee retirement, and \$63,800 for employee health insurance. Budgeted expenses for these items in 2005–06 were \$1,000,000, \$428,000, \$320,000, \$65,000, and \$63,800, respectively.

As previously mentioned, the number of assessable containers during 2006–07 is estimated to be 50 million and the recommended assessment rate would generate \$1,750,000 in income. The Committee's financial reserve is now estimated to be \$700,000 and is available to cover the deficit in assessment income. The increase in the assessment rate is needed to continue to support the increased budget for advertising and promotion started last season, while reducing the amount of funds drawn from the Committee's authorized reserve. Without the increase in the assessment rate, the Committee would need to utilize an additional \$500,000 from the authorized reserve.

The Committee reviewed and unanimously recommended 2006–07 expenditures of \$2,193,700 which

included increases in administrative and office salaries. Prior to arriving at this budget, the Committee considered information from various sources, such as the Committee's Executive Subcommittee, Finance Subcommittee, Research Subcommittee, and Education and Promotion Subcommittee. Alternative expenditure levels were discussed by these groups, based upon the relative value of various research projects to the tomato industry. The assessment rate of \$0.035 per 25-pound container of tomatoes was determined by examining the anticipated expenses and expected shipments and considering available reserves. The recommended assessment rate would generate \$1,750,000 in income. Considering income from interest and other sources of \$190,000, with assessments, total income would be approximately \$253,700 below the anticipated expenses, which the Committee determined to be acceptable.

A review of historical information and preliminary information pertaining to the upcoming season indicates that the grower price for the 2006–07 season could range between \$8.27 and \$12.95 per 25-pound container or equivalent of tomatoes. Therefore, the estimated assessment revenue for the 2006–07 season as a percentage of total grower revenue could range between 0.3 and 0.4 percent.

This action would increase the assessment obligation imposed on handlers. While assessments impose some additional costs on handlers, the costs are minimal and uniform on all handlers. Some of the additional costs may be passed on to producers. However, these costs would be offset by the benefits derived by the operation of the marketing order. In addition, the Committee's meeting was widely publicized throughout the Florida tomato industry and all interested persons were invited to attend the meeting and participate in Committee deliberations on all issues. Like all Committee meetings, the August 22, 2006, meeting was a public meeting and all entities, both large and small, were able to express views on this issue. Finally, interested persons are invited to submit information on the regulatory and informational impacts of this action on small businesses.

This proposed rule would impose no additional reporting or recordkeeping requirements on either small or large Florida tomato handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

The AMS is committed to complying with the E-Government Act, to promote the use of the Internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

USDA has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

A 15-day comment period is provided to allow interested persons to respond to this proposed rule. Fifteen days is deemed appropriate because: (1) The 2006–07 fiscal period began on August, 1, 2006, and the marketing order requires that the rate of assessment for each fiscal period apply to all assessable tomatoes handled during such fiscal period; (2) the Committee needs to have sufficient funds to pay its expenses which are incurred on a continuous basis; and (3) handlers are aware of this action which was unanimously recommended by the Committee at a public meeting and is similar to other assessment rate actions issued in past fiscal periods.

List of Subjects in 7 CFR Part 966

Marketing agreements, Reporting and recordkeeping requirements, Tomatoes.

For the reasons set forth in the preamble, 7 CFR part 966 is proposed to be amended as follows:

PART 966—TOMATOES GROWN IN FLORIDA

1. The authority citation for 7 CFR part 966 continues to read as follows:

Authority: 7 U.S.C. 601–674.

2. Section 966.234 is revised to read as follows:

On and after August, 1, 2006, an assessment rate of \$0.035 per 25-pound container or equivalent is established for Florida tomatoes.

Dated: November 14, 2006.

Lloyd C. Day,

Administrator, Agricultural Marketing Service.
