The Copyright Office sought comment on matters raised by the Motion Picture Association of America and Joint Sports Claimants in their Petition for Rulemaking regarding the simultaneous retransmission of digital and analog broadcast signals as well as the secondary retransmission of multiple streams of digital broadcast content. The Notice of Inquiry also sought comment on cable operator marketing and sales practices and equipment issues associated with the retransmission of digital broadcast signals that may result in possible changes to the Copyright Office's existing rules and the cable statements of account forms.

Given the complexity of the issues raised in the Notice of Inquiry, and to provide the public with adequate time to respond to the comments filed in this proceeding, the Office has decided to extend the deadline for filing reply comments by a period of 14 days, making them due on December 18, 2006.

issues and a related proposal for the creation and exchange of call detail records. These proposals were contained in a written *ex parte* filed November 6, 2006 by the Supporters of the Missoula Plan, an inter-carrier compensation reform plan filed July 24, 2006 by the NARUC Task Force. Supporters of the Missoula Plan include AT&T, BellSouth Corp., Cingular Wireless, Global Crossing, Level 3 Communications, and 336 members of the Rural Alliance, among others. According to its supporters, the original Missoula Plan sets forth a Comprehensive Solution for Phantom Traffic. As part of that solution, the Plan called "for the filing of an industry proposal for a uniform process for the creation and exchange of call detail records." It also called "for the filing of a process to be used in the interim until the uniform process can be implemented fully." The supporters of the Missoula Plan state that the November 6, 2006 *ex parte* filing meets these requirements.
