Title: Tips and Complaints Regarding Environmental Violations (Renewal).

ICR numbers: EPA ICR No. 2219.02, OMB Control No. 2020-0032.

ICR Status: This ICR is scheduled to expire on November 30, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in Title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR Part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR Part 9.

Abstract: The EPA tips and complaints web form is intended to

provide an easy and convenient means by which members of the public can supply information to EPA regarding suspected violations of environmental law. The decision to provide a tip or complaint is entirely voluntary and use of the web form when supplying a tip or complaint is also entirely voluntary. Tippers need not supply contact information or other personal identifiers. Those who do supply such information, however, should know that this information may be shared by EPA with appropriate administrative, law enforcement, and judicial entities engaged in investigating or adjudicating the tip or complaint.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average one-half hour per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Respondents are expected to be members of the general public as well as employees of any company subject to federal environmental regulation. There is no specific industry or group of industries about which EPA expects tips or complaints.

Estimated Number of Respondents: 3,600.

Frequency of Response: One time, on occasion.

Estimated Total Annual Hour Burden: 1,800 hours.

Estimated Total Annual Cost: EPA does not anticipate any capital or start-up costs associated with completion of this form. EPA also does not anticipate that, in the usual case, burden hours associated with the tips and complaint form will translate into actual labor costs; we expect relatively few tips or complaints to be submitted as part of an employee's official duties. For this reason, we believe that the relevant "labor costs" associated with the form are best calculated as the wage

opportunity cost to tippers of the form's estimated burden hours. The wage opportunity cost of the burden hours associated with this form can be estimated by multiplying the total number of burden hours by the average national hourly wage reported by the Bureau of Labor Statistics (BLS). BLS reports the average hourly wage in December 2005 to have been \$18.59 per hour; accordingly, the total wage opportunity cost associated with the tips and complaints form would be approximately \$33,462 per annum.

Changes in the Estimates: There is no change in the hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB.

Dated: November 15, 2006.

Collection Strategies Division.
