SAMHSA's Center for Mental Health Services (CMHS) awards grants to institutions for training instruction and traineeships in mental health and related disciplines. Prior to statutory change in 2000, graduate student recipients of these clinical traineeships were required to perform service, as determined by the Secretary to be appropriate in terms of the individual's training and experience, for a length of time equal to the period of support. The clinical trainees funded prior to implementation of the statutory change are required to submit the SAMHSA Form SMA 111-2, which is an annual report on employment status and any changes in name and/or address, to SAMHSA.

SUPPLEMENTARY INFORMATION:

I. USCIS Verification Information System

In various statutes, Congress mandated that USCIS establish a system that can be used to verify citizenship and immigration status of individuals seeking government benefits and establish a system for use by employers to determine whether a newly hired employee is authorized to work in the United States. USCIS implemented this mandate through the Systematic Alien Verification for Entitlements (SAVE) program for government benefits and the Basic Pilot Program for determining whether a newly hired employee is authorized to work in the United States. The Verification Information System (VIS) is the technical infrastructure that enables USCIS to operate SAVE and Basic Pilot. VIS is a nationally accessible database of selected immigration status information containing in excess of 100 million records. Government agencies use SAVE information to help determine whether a non-citizen is eligible for any public benefit, license or credential based on citizenship and immigration status. Private employers and government users use Basic Pilot information to determine whether a newly hired employee is authorized to work in the United States.

VIS is currently comprised of citizenship, immigration and employment status information from several DHS systems of records, including records contained in the U.S. Customs and Border Protection (CBP) Treasury Enforcement Communication

Systems (TECS) (66 FR 52984), the Image Storage and Retrieval System (ISRS) (66 FR 6672), the USCIS Central Index System (CIS) (72 FR 1755), and the USCIS Computer Linked Application Information Management System (CLAIMS 3) (62 FR 11919).

This System of Records Notice is replacing the following systems of records previously published by Department of Justice's Immigration and Naturalization Service (DOJ/INS): the DOJ/INS 009 Alien Status Verification Index system (ASVI) (66 FR 46815) and the DOJ/INS 035 Verification Information System (VIS) (67 FR 64134).

A. SAVE Program

The SAVE Program, which is supported by VIS, provides government agencies with citizenship and immigration status information for use in determining an individual's eligibility for government benefits. Government agencies input biographic information into VIS for government benefit eligibility determinations and if VIS has a record pertaining to the individual, the government agency will receive limited biographic information on the citizenship and immigration status of the individual applying for a benefit. If VIS does not have a record pertaining to the individual, VIS automatically notifies a USCIS Immigration Status Verifier (ISV). The ISV then conducts a manual search of other DHS databases to determine whether there is any other information pertaining to that individual that would provide citizenship and immigration status. If the ISV finds additional relevant information, citizenship and immigration status data is provided to the requesting government agency user through VIS. The ISV will also update the appropriate record in USCIS' CIS database. The REAL ID Act requires that beginning May 2008, with a possible extension for States until December 2009, all states routinely utilize the USCIS SAVE program to verify the legal immigration status of applicants for driver's licenses and identification cards.

B. Basic Pilot

VIS also supports the Basic Pilot Program, a free and voluntary program allowing participating employers to
