Abstract: Section 114(d)(4) of the Carl D. Perkins Career and Technical Education Act of 2006 (the Act), authorizes the Secretary, after consulting with the States, to establish a national research center for the purposes of conducting scientifically based research and evaluation, disseminations, and training activities. Further, section 114(d)(5) of the Act authorizes the Secretary to carry out technical assistance to States for the purpose of developing, improving, and identifying the most successful methods and techniques for providing career and technical education programs assisted under the Act. The Secretary plans to provide this technical assistance through the research center. The purpose of this information collection is to invite applications for a national research center competition that implements sections 114(d)(4) and (5) of the Act, under which the Secretary will award a cooperative agreement to establish a research center.

This information collection is being submitted under the Streamlined Clearance Process for Discretionary Grant Information Collections (1890-0001). Therefore, the 30-day public comment period notice will be the only public comment notice published for this information collection.

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The IC Clearance Official, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before June 11, 2007.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Burden Hours: 751.

Abstract: This study seeks to examine the impact on student achievement of a combination of a comprehensive English Language Learner (ELL) student program, On Our Way to English [OWE], and a professional development course, Responsive Instruction for Success in English [RISE]. Schools identified as having a high percentage of Spanish-speaking ELL students will be randomly assigned to either the treatment condition or a control group. All grade 1-5 classrooms at each school will participate in the condition assigned to the school. This study begins in 2007. OWE and RISE will be implemented in treatment schools during the 2007-2008 and 2008-2009 school years. Data on classroom practices, student activities, and student language and literacy will be collected each of these years. Intermediate and cumulative effects of the interventions will be analyzed using year-end data and data collected over the course of the study. Other analyses may explore education mechanisms that contribute to variation in the impact in achievement.
