Title: 8-Hour Ozone National Ambient Air Quality Standard Implementation Rule.

ICR Numbers: EPA ICR Number 2236.02, OMB Control Number 2060-0594.

ICR Status: This ICR is scheduled to expire on April 30, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Paperwork Reduction Act requires the information found in this Information Collection Request (ICR) number 2236.02, to assess the burden (in hours and dollars) of the 8-hour Ozone National Ambient Air Quality Standard Implementation (NAAQS) Rule as well as the periodic reporting and recordkeeping necessary to maintain the rule. The rule was proposed June 2, 2003 (68 FR 32802) and promulgated in two Phases: Phase 1 published April 30, 2004 (69 FR 23951) and Phase 2 published November 29, 2005 (70 FR 71612). The preamble to the proposed and final regulation addressed the administrative burden in general terms. The preamble to the final Phase 2 rule stated that an ICR would be prepared (70 FR at 71692). The rule includes requirements that involve collecting information from States with areas that have been designated nonattainment for the 8-hour ozone NAAQS. The time period covered in this ICR is a three year period from May 1, 2007 through April 30, 2010. The information collection milestones include State submission of an attainment demonstration State Implementation Plan (SIP), a Reasonable Further Progress (RFP) SIP submission,

and a Reasonable Available Control Technology (RACT) SIP. However, not all of the milestones and associated burden and administrative cost estimates apply to every designated nonattainment area. Areas with cleaner air quality have fewer requirements.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 9,511 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State and local governments.

Estimated Number of Respondents: 30.

Frequency of Response: Annual.

Estimated Total Annual Hour Burden: 285,333.

Estimated Total Annual Cost: \$17,400,000 includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is no increase in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: April 2, 2007.

Robert Gunter,

Acting Director, Collection Strategies Division.
