DEPARTMENT OF HOMELAND SECURITY

Customs and Border Protection

Quarterly IRS Interest Rates Used in Calculating Interest on Overdue Accounts and Refunds on Customs Duties

AGENCY: Customs and Border Protection, Department of Homeland Security.

ACTION: General notice.

SUMMARY: This notice advises the public of the quarterly Internal Revenue Service interest rates used to calculate interest on overdue accounts (underpayments) and refunds (overpayments) of customs duties. For the calendar quarter beginning April 1, 2007, the interest rates for overpayments will remain at 7 percent for corporations and 8 percent for non-corporations, and the interest rate for underpayments will remain at 8 percent. This notice is

published for the convenience of the importing public and Customs and Border Protection personnel.

EFFECTIVE DATE: April 1, 2007.

FOR FURTHER INFORMATION CONTACT: Ron Wyman, Revenue Division, Collection and Refunds Branch, 6650 Telecom Drive, Suite #100, Indianapolis, Indiana 46278; telephone (317) 614–4516.

SUPPLEMENTARY INFORMATION:

Background

Pursuant to 19 U.S.C. 1505 and Treasury Decision 85-93, published in the Federal Register on May 29, 1985 (50 FR 21832), the interest rate paid on applicable overpayments or underpayments of customs duties must be in accordance with the Internal Revenue Code rate established under 26 U.S.C. 6621 and 6622. Section 6621 was amended (at paragraph (a)(1)(B) by the Internal Revenue Service Restructuring and Reform Act of 1998, Pub. L. 105-206, 112 Stat. 685) to provide different interest rates applicable to overpayments: One for corporations and one for non-corporations.

The interest rates are based on the Federal short-term rate and determined by the Internal Revenue Service (IRS) on behalf of the Secretary of the Treasury on a quarterly basis. The rates effective for a quarter are determined during the first-month period of the previous quarter.

In Revenue Ruling 2007-16, the IRS determined the rates of interest for the calendar quarter beginning April 1, 2007, and ending June 30, 2007. The interest rate paid to the Treasury for underpayments will be the Federal short-term rate (5%) plus three percentage points (3%) for a total of eight percent (8%). For corporate overpayments, the rate is the Federal short-term rate (5%) plus two percentage points (2%) for a total of seven percent (7%). For overpayments made by non-corporations, the rate is the Federal short-term rate (5%) plus three percentage points (3%) for a total of eight percent (8%). These interest rates are subject to change for the calendar quarter beginning July 1, 2007, and ending September 30, 2007.

For the convenience of the importing public and Customs and Border Protection personnel the following list of IRS interest rates used, covering the period from before July of 1974 to date, to calculate interest on overdue accounts and refunds of customs duties, is published in summary format.

Beginning Date	Ending Date	Under- payments (percent)	Over- payments (percent)	Corporate overpayments (Eff. 1–1–99) (percent)

DEPARTMENT OF HOMELAND **SECURITY**

Federal Emergency Management Agency

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Federal Emergency Management Agency, DHS. **ACTION:** Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a proposed continuing information collection. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning the renewal of FEMA's National Flood Insurance Program's (NFIP) Biennial Report forms (FEMA Form 81–28, FEMA Form 81–29. FEMA Form 81-29A).

SUPPLEMENTARY INFORMATION: Under 44 CFR 59.22(b)(2), FEMA requires that communities participating in the NFIP submit an annual or biennial report describing the progress made during the year in the implementation and enforcement of floodplain management regulations. Currently, FEMA has determined that this data will be collected on a biennial reporting cycle and the data collection is now referred to as the Biennial Report. As a supplement to the Biennial Report, FEMA has been mandated under section 575 of the National Flood Insurance

Reform Act (NFIRA) of 1994 to assess the need to revise and update all floodplain areas and flood risk zones identified, delineated, or established under section 1360 of the National Flood Insurance Act of 1968. The NFIP Biennial Report enables FEMA to meet its regulatory requirement under 59.22(b)(2). It also enables FEMA to be more responsive to the on-going changes that occur in each participating community's flood hazard area. These changes include, but are not limited to, new corporate boundaries, changes in flood hazard areas, new floodplain management measures, and changes in rate of floodplain development. It is also used to evaluate the effectiveness of the community's floodplain management activities. The evaluation is accomplished by analyzing information provided by the community, such as the number of variances and floodplain permits granted by each community in relationship to other information contained in the Biennial Report, as well as other data available in FEMA's Community Information System (CIS). The Biennial Report also provides an opportunity for NFIP participating communities to request technical assistance in implementing a floodplain management program. FEMA regional offices use this information as a means to know which communities need support and guidance.

In addition, the NFIP Biennial Report is one of the tools used to assist FEMA in meeting its regulatory requirement under section 575 of the NFIRA. A "yes" answer to Items A–D in section I of the report will provide the basis for FEMA to follow-up by contacting the community for clarification and/or elaboration regarding changes and activities occurring in a community's flood hazard area. This information will be used in ranking and prioritizing one community's mapping needs against all other communities in the NFIP and for determining how the limited flood hazard mapping funds are allocated for

map updates.

Collection of Information

Title: The National Flood Insurance Program Biennial Report.

Type of Information Collection: Revision of a currently approved collection.

OMB Number: 1660-0003. Form Numbers: FEMA Form 81–28, FEMA Form 81-29, FEMA Form 81-

Abstract: The NFIP Biennial Report enables FEMA to meet its regulatory requirement under 44 CFR 59.22(b)(2). It also enables FEMA to be more responsive to the on-going changes that occur in each participating community's flood hazard area. These changes include, but are not limited to, new corporate boundaries, changes in flood hazard areas, new floodplain management measures, and changes in rate of floodplain development. It is also used to evaluate the effectiveness of the community's floodplain management activities. The evaluation is accomplished by analyzing information provided by the community, such as the number of variances and floodplain permits granted by each community in relationship to other information contained in the Biennial Report, as well as other data available in FEMA's CIS. The Biennial Report also provides an opportunity for NFIP participating communities to request technical assistance in implementing a floodplain management program. FEMA regional offices use this information as a means to know which communities need support and guidance. The NFIP Biennial Report is one of the tools used to assist FEMA in meeting its regulatory requirement under section 575 of the

Affected Public: The respondents are State, local or tribal governments, farms, individuals or households, business or other for-profit, not-for-profit institutions representing the estimated 20,500 United States and United States territorial communities that are participating members of the NFIP. The NFIP requires that communities
